Subject: Policy Index of National School Lunch Program and School Breakfast Program Regulations, FNS Instructions, and School Program Memoranda

To: STATE AGENCY DIRECTORS (Child Nutrition Programs) - Colorado ED, Iowa, Kansas, Missouri ED, Montana OPI, Nebraska ED, North Dakota, South Dakota, Utah and Wyoming

Attached, please find a copy of the National School Lunch Program (NSLP) and School Program (SBP) policy index, a topical index of citations from the NSLP, SBP and free and reduced price eligibility regulations, FNS Instructions, and School Program (SP) Memoranda.

This policy index has been devised as an aid to assist you in answering policy questions that may arise in your administration of the NSLP and SBP. Please note that this index does not include the Special Milk Program or State Administrative Expense Funds, nor does it include reference to important program aids such as the Eligibility Guidance for School Meals Manual, or detailed references to the Contracting with Food Service Management Companies handbooks that deal with food service management contracting at both the State agency and school food authority levels.

We will revise this index, as necessary, as there are changes in policies in the regulations, instructions, and SP memoranda that are indexed. Further, we solicit your assistance in improving the index to make it a completely accurate and fully useful aid in line with its purpose. Please contact our office to report any citations you find to be in error; additionally, please feel free to make suggestions to our office about alternate or additional categories or topic placements, so that users may have the readiest access to the indexed information.

If you have any questions, please contact our office.
