Explanation of calculation:

For the learning community, the system formula needs were compared to the system formula resources to determine equalization aid. The sum of the learning community's equalization aid, allocated income tax funds and prior year State Aid correction were distributed based on each district's percentage of the learning community's total formula needs (Stabilized Needs). Each district's net option funding and retirement aid were then added to the equalization aid, federal state fiscal stabilization funds, and ed jobs funds to determine the total certified State Aid for each district.
