Total Aid to Be Distributed Based on Percentage of Formula Need	337,865,691

Explanation of calculation:

For the learning community, the system formula needs were compared to the system formula resources to determine equalization aid. The sum of the learning community's equalization aid and allocated income tax funds were distributed based on each district's percentage of the learning community's total formula needs (Stabilized Needs). Each district's net option funding and retirement aid were then added to the equalization aid to determine the total State Aid for each district.
