Q: What should I do if I get an error message saying something about salary dollar amounts not matching?
A: Verify that the salaries you have entered do not include benefits. Located below the Supplementary Report of Expenditures is a table in which salaries reported in a) the Owned & Operated Programs sections, and b) the Supplementary Report of Expenditures are grouped by type of staff (i.e., professional, paraprofessional, clerical, etc.) and compared to ensure that the salaries from both “a” and “b” match for each of the types of staff.
