

*Dear Parent,*

*We are creating a pass along portfolio for your child. This information will be used by next year's teacher to help create a smooth transition. There are so many remarkable things about your child that we would like your help in creating the portfolio.*

*Please feel free to write as much or as little as you think next year's teacher will need. If you have any questions about the portfolio, please contact us at school!*

*Your support and input is greatly appreciated,*

*Bell Teachers ☺*

# *Welcome to My Portfolio!*

*My name is \_\_\_\_\_.*

*I am entering \_\_\_\_\_ grade this school year.*

*My family and teachers have put together this portfolio to help you understand my unique needs. There is so much to know about me!*

*This is my portfolio. It's kind of like a story that tells you about the things that are important to me and who I am. It also tells you what I will be working on this year. My family and teachers will share things that worked well for me last year - although I keep growing and changing each year!*

*I hope it helps you to understand me better.*

*Thanks!*
