

KICKS₃

Keep Improving Content
Knowledge & Skills₃

Nebraska Science Keep
Improving Content
Knowledge and Skills₃ is a
statewide project funded under
Title II, Part B of the No Child
Left Behind (NCLB) Math
Science Partnership program.
The goal of the project is to
enhance the content knowledge
and instructional skills of
Nebraska's K-12 Science
teachers, thereby enhancing
student achievement.

Some changes for 2014...

Science KICKS₃ content specific institutes will allow for deeper content coverage at all grade levels and for a more fully developed integration of science (inquiry) and engineering practices. KICKS₃ institutes will extend teacher content knowledge beyond grade level assignment as well as explore in detail how the Nebraska State standards translate into classroom content and practice at the grade band level. Because there is a part to whole and whole to part nature to the structure of the summer workshops and because K-12 teacher participants will be at the same site there will also be opportunity to explore K-12 content progressions in science. Further deepening teacher understanding of science content, particularly as it relates to student readiness, age appropriate content and science curriculum.

NATS Fall Conference

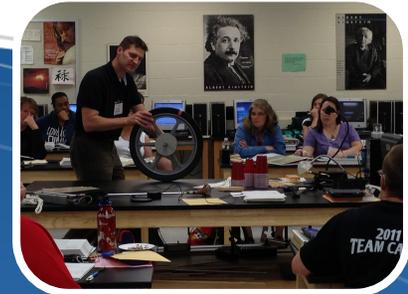

College credit available

Stipend available

Summer 2014 Institutes

Earth/Space Science 2014

WHERE

Cedar Point Biological Station, Ogallala (Days 1-4)

And

Chadron State College (Days 5-8)

WHEN

June 3-6 @ Cedar Point Biological Stn

Continues

June 10-13 @ Chadron State College

WHO

Grades K-12 Earth/Space Science Teachers, SPED, ELL

Future KICKS ₃ Institutes	Western Site	Eastern Site
2014	Earth/Space CPBS/CSC	Life Science LPS
2015	Life Science Site TBD	Physical Science Site TBD
2016	Physical Science Site TBD	Earth/Space Site TBD
