

## NeSA Graphical Reports

Districts can utilize the tables from the data spreadsheet to present NeSA results with graphs. Replace the data in the tables with local data and the graphs will present the local data. Directions for each table are included with the appropriate table. For additional information on graphing NeSA results contact John Moon (402-471-2495, [john.moon@nebraska.gov](mailto:john.moon@nebraska.gov)) or Darin Kelberlau (402-289-2579, [dkelberlau@epsne.org](mailto:dkelberlau@epsne.org))

## Building District State Graph (BldgDstState)

Table BldgDstState presents results for each building in the district along with district and state results in the bar graph "BldgDstState" for a specific grade level. The three NeSA performance levels of basic, proficient and advanced are represented in a stacked bar graph. Each grade level can be represented in a separate graph. The example shows grade 3. Changes to the title can be made to present results for other grades.

Building	Basic	Proficient	Advanced
Bldg1	20	60	20
Bldg2	20	50	30
Bldg3	30	60	10
Bldg4	30	50	20
District	20	60	20
State	20	60	20

## AYP Groups Graph (AYPGroups)

Table AYPGroups presents the NeSA results for disaggregated groups within a district for a specific grade. Results for the specific grade is disaggregated by gender, ethnicity, SES, ELL, and SPED. The three NeSA performance levels of basic, proficient and advanced are represented in a stacked bar graph. Each grade level can be represented in a separate graph. The example shows grade 3. Changes to the title can be made to present results for other grades. This table can be modified to show disaggregated results for a building.

**Grade Level Graph Comparing District/State (DistState)**

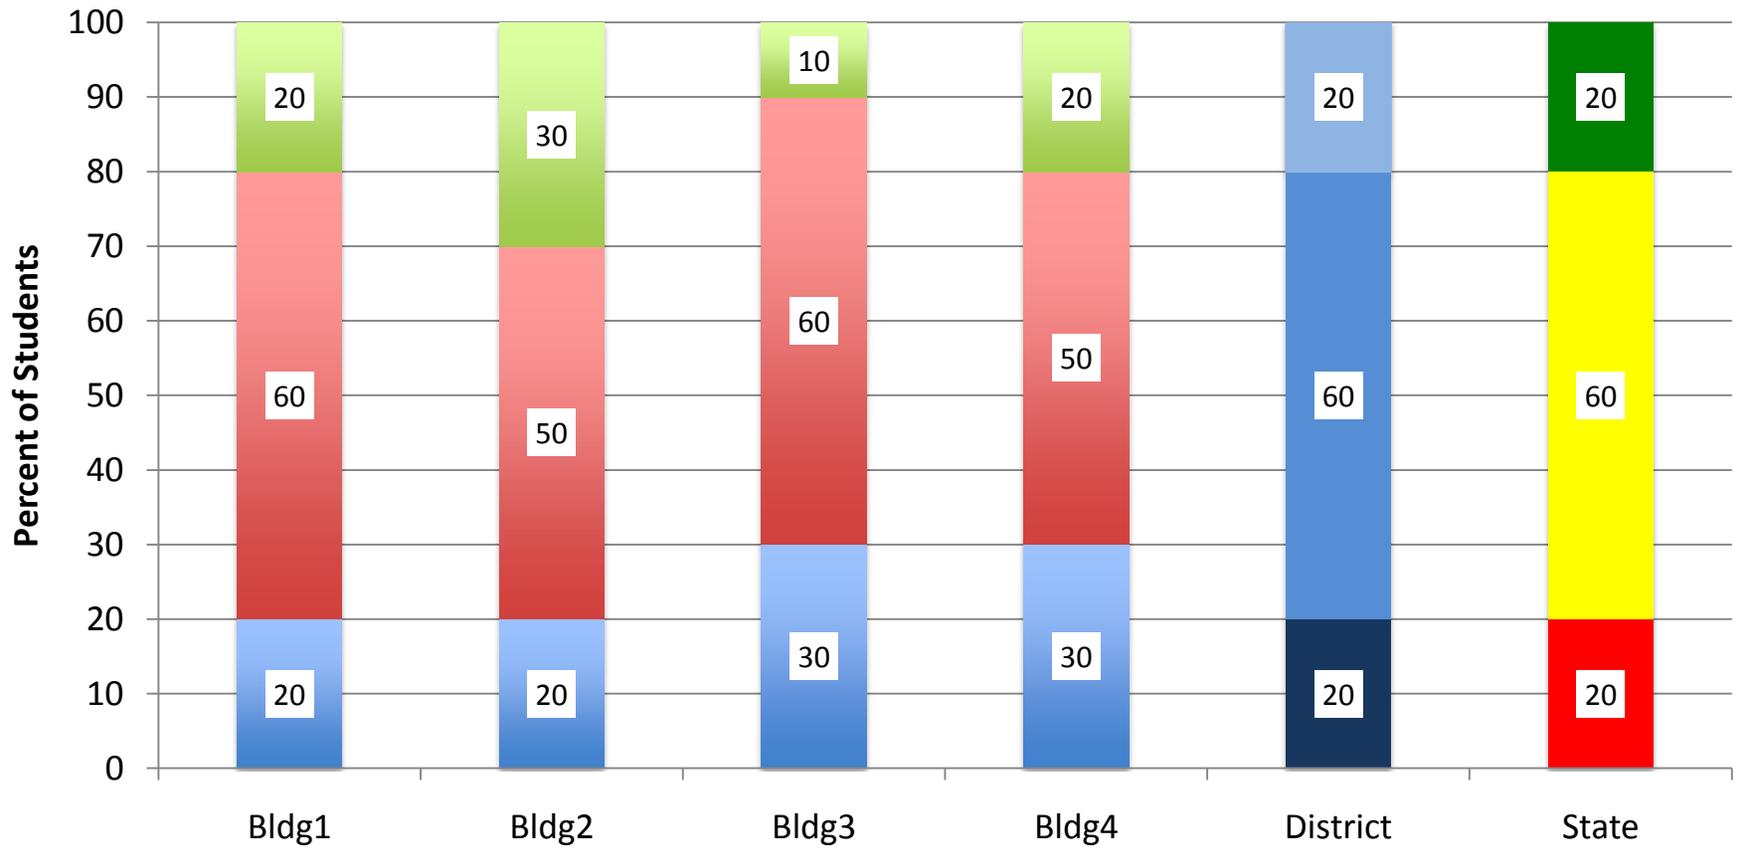

Table DistState presents the NeSA results in comparing district results with state results for grades 3-8 and 11. Both district results and state results for each grade are represented in adjacent stacked bar graphs. This graph presents a concise picture of how the district compares to the state. This table can be modified to show comparison between building and district results for multiple grades. Change the title to present building results instead of district results.
