Academic Year:

Introduction

Please use this space to provide any additional information that provides context for the data included in this report card. You may also attach information to this report card (see below).

During the 2011-12 academic year, there were sixteen (16) approved teacher education programs in Nebraska. In addition to the requirement that all Nebraska institutions successfully complete the state program approval process, thirteen (13) institutions have also attained national accreditation by the National Council of Accreditation of Teacher Education (NCATE) or by the Teacher Education Accreditation Council (TEAC). An additional institution is beginning the process to become nationally accredited.

All sixteen (16) institutions that prepare teachers in Nebraska are members of the Nebraska Association of Colleges of Teacher Education (NACTE) and are also represented on the Nebraska Council on Teacher Education (NCTE), an advisory body to the State Board of Education. NCTE consists of equal representation from educators, educator preparation administrators, and governance representatives which work in partnership to assure high standards for Nebraska educator preparation and quality education for PreK-12 students statewide.

Section 79-318(5)(g) of the Nebraska Revised Statutes (R.R.S.) requires the State Board of Education to

Section V Traditional Assessment Pass Rates	<p>approve teacher education programs conducted in Nebraska post secondary educational institutions designed for the purpose of certificating teachers, administrators, and special services providers. Nebraska Department of Education (NDE) regulations and guidelines relating to educators, administrators and special services providers are contained in the following Chapters:</p> <p>Title 92, Nebraska Administrative Code (NAC), Chapter 20, Regulations for the Approval of Teacher Education Programs, provides the procedures for the approval of teacher education programs conducted in Nebraska post secondary educational institutions designed for the purpose of certifying teachers and administrators and other professional school personnel requiring certification. State Board-approved guidelines that accompany Chapter 20 further inform institutions of teacher preparation program expectations;</p> <p>Title 92, NAC, Chapter 21, Issuance of Certificates and Permits to Teach, Provide Special Services, and Administer in Nebraska Schools, provides procedures for the issuance of teaching, administrative, and special services certificates and permits for use in accredited or approved Nebraska school systems;</p> <p>Title 92, NAC, Chapter 24, Regulations for Certificate Endorsements, contains regulations for obtaining endorsements indicating grade levels and areas of specialization on Nebraska teaching, administrative, and special services certificates. State Board-approved guidelines that accompany Chapter 24 further inform Nebraska post secondary educational institutions of teacher preparation program expectations; and</p> <p>Title 92, NAC, Chapter 23, Regulations for the Basic Skills Competency Testing of Teachers and Administrators. Currently, basic skills testing is the only state testing requirement and it is used by the institutions as a program admission requirement. Since the basic skills requirement is a program admission requirement, all candidates recommended for a certificate will have passed the basic skills requirement.</p>

Section XII Improvement Efforts	<p>Each teacher education institution is required to submit to the Nebraska Department of Education (NDE) an annual request for approval of its teacher education programs which will be offered the following academic year. These requests are reviewed for compliance with Chapters 20 and 24 and submitted to the State Board of Education for consideration. Approval of these programs is immediate upon approval by the State Board of Education.</p> <p>In addition to the annual approval of its teacher education programs by the state, each Nebraska institution must undergo a comprehensive state approval process of its educator preparation program every seven (7) years during which a review is conducted of the institution's compliance with the requirements of Chapters 20 and 24 for PreK-12 school personnel preparation programs. The review includes two components: an off-site review of program folios (program information and data) by teams made up of NCTE members, content experts, and NDE representatives; and an on-site visit, conducted in conjunction with national accreditation visit if applicable, by a team made up of NCTE members and NDE representatives. Upon the conclusion of the state approval components, a report is compiled and submitted for review to NCTE which, in turn, makes a recommendation to the State Board of Education to grant, deny, or revoke approval of the institution's teacher education program.</p> <p>A multi-step process is in place for institutions to correct any deviations or areas of non-compliance that may be determined during the approval process. It is expected that institutions immediately move forward with correcting any deficiencies identified during the approval process. Rule 20 provides that an institution is given the opportunity to correct program deficiencies or deviations prior to the State Board of Education taking probationary action.</p>

Section I.c Enrollment

Provide the number of students in each initial teacher certification preparation program in the state in 2010-11 in the following categories. Include both traditional programs and alternative routes to teacher certification or licensure (both within IHEs and outside of IHEs). Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reporting in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled. (§205(b)(1)(G)(ii))

Section II. Requirement Reliability and Validity

Provide documentation on the reliability and validity of the teacher certification and licensure assessments, and any other certification and licensure requirements, used by the state. Provide supporting files and links to websites, as applicable. (§205(b)(1)(A))

Please note that the only test reported is the PPST (basic skills) test; Nebraska currently does not require passage of content/pedagogy tests for certification. Passage of the basic skills test is required for admission to a Nebraska educator preparation program. Rule 23 provides specific information regarding passing scores. Documentation supporting the reliability and validity of Nebraska's teacher certification and licensure assessments, and any other certification and licensure requirements used by Nebraska, can be found in the ETS Praxis Technical Manual. ETS is Nebraska's only testing company. Information provided by ETS in response to this section is linked below.

If yes, please specify.

Regarding questions 4 and 5 above, Nebraska's Elementary Education endorsement is issued at the K-6 grade level (or K-8 in self-contained classrooms).

Endorsement standards are updated on a rotational basis and use national professional association content area standards, where available, as a basis for revisions. In addition, Nebraska utilizes the INTASC model core teaching standards as a basis for preparation of teachers.

Title 92, Nebraska Administrative Code (NAC), Chapter 20, Regulations for the Approval of Teacher Education Programs, and Chapter 24, Regulations for Certificate Endorsement, and their respective guideline documents contain specific language on the performances expected of beginning teachers and serve as the basis for assessment of their preparedness to teach the strategies, specific content knowledge and skills.

9. Are there state teacher standards for the following specific teaching fields and grade levels? (Add any additional teaching fields in your state at the bottom of the list.)

16. Has the state established a policy that links, aligns or coordinates teacher certification or licensure assessments with early learning standards for early childhood education programs?

No

17. Are there other steps being taken to develop or implement teacher standards and align teacher preparation, certification, licensure or assessment standards with content standards for students?

Yes

If yes, please describe

Title 92, NAC, Chapter 20, Regulations for the Approval of Teacher Education Programs, requires that each teacher preparation institution have a plan on file, within the institution, which identifies how the institution will provide prospective teachers with the knowledge, understanding and ability to teach the concepts, skills and processes appropriate for their endorsement area(s) and student grade levels. Chapter 20 is undergoing revision to include more explicit preparation program accountability and expectations related to PK-12 content standards for students. Rule 24 provides required elements for over 80 endorsement areas. Endorsement requirements are reviewed on a regular basis to assure they meet state and national standards for the content areas. Programs are held accountable through the program approval process.

Each institution must also supply a matrix for each endorsement area of its teacher preparation program within its plan on file. The matrix, or Table of Alignment of Standards and Assessments, identifies the courses and the course completion requirements which the institution utilizes to grant credit toward completion of the endorsement area. Copies of the matrices are kept on file at the Nebraska Department of Education and provide the rationale for annual recommendation to the Nebraska State Board of Education for the approval of the institution's teacher preparation program and the endorsement areas it offers.

In regards to Questions 12, 15 and 16, Nebraska does not require content tests for licensure. The PPST is used for program admission purposes and is not considered by Nebraska Department of Education to be a content test.

Section VI. Alternative Routes

Please provide the following information about your state's alternative routes to teacher certification or licensure. (§205(b)(1)(E))

1. **Has the state approved any alternative routes to certification or licensure?**

Yes

2. **Is the state considering or has the state proposed alternative routes to certification or licensure?**

Yes

3. **Has the state approved alternative routes to certification or licensure, but no entity is currently implementing them?**

No

4. **Has the state approved and implemented one or more alternative routes to certification or licensure?**

Yes

For all state-approved alternative routes, both implemented and not implemented, list each alternative route and answer the questions about each route.

Transition to Teaching

1. **Alternative route name:** Transition to Teaching

2. **Year approved by the state:** 2002

3. **Year implemented:** 2002

4. **Number enrolled during the 2010-11 academic year:** 126

5. **Is this alternative route limited to teaching certain subject areas or grade levels?**

Yes

If yes, please specify

The Transition to Teaching Program was developed in response to a shortage of secondary level teachers in Nebraska. An individual in this route may receive a Transitional Teaching Certificate permitting him/her to be employed as a teacher while completing the Transition to Teaching Program.

6. **Is this alternative route designed to address critical shortage areas?**

Yes

If yes, please specify

The Transition to Teaching Program was developed in response to a shortage of secondary level teachers in Nebraska.

7. **Maximum number of years allowed to complete alternative route program:** 5

8. **Is this route intended for mid-career switchers?**

Yes

9. **Is a teaching license issued to an individual participating in this route?**

Yes

If yes, please specify

An individual in this route may receive a Transitional Teaching Certificate if the individual: submits a written request for the issuance of such certificate from the administrator of the school district in which the individual intends to teach which includes documentation that the school district has not found a fully qualified teacher for the position; has at least a baccalaureate degree which includes at least three-fourths of the course requirements for preparation in the endorsement area that addresses the teaching position to be filled by the applicant; has an assessment of his/her transcripts completed by a certification officer in a standard institution of higher education and a plan developed for completion of an approved initial teacher certification program; submits a written

plan from the school system for mentoring and supervision of the individual; completes a pre-teaching seminar that includes information and skill development in the areas of diversity, classroom management, curriculum planning, and instructional strategies prior to assuming responsibility for the classroom; and submits a written agreement to complete the program for an initial teaching certificate which includes a commitment by the standard institution to provide at least one supervisory visit each semester to the school system and classroom of the individual. The certificate is renewed annually as long as the individual completes at least six semester credit hours toward completion of the program and the school district wishes to rehire the individual.

If the alternative route is administered by institutions of higher education, select the institutions offering this alternative route:

University of Nebraska at Kearney - Alt

28. **Are there any other requirements?**

Yes

If yes, please specify

Regarding #7 and #21: According to Rule 21, individuals holding the Transitional certificate have 5 years to achieve an initial/regular certificate. However, under current federal guidance, an individual participating in the Transition to Teaching Program who holds a Transitional Teaching Certificate is only considered NCLB highly-qualified for a period of three years if the individual continues to make progress toward initial certification, participates in professional development and is in a mentored situation.

Regarding #4 and #17. Individuals may be enrolled in the Transitional program and complete the alternative online coursework sequence without actually being employed in a school--this does not require a certificate. The Transitional certificate is only issued to individuals who are completing the online sequence AND have professional employment. The count provided includes individuals holding the Transitional certificate (completing the required online sequence and are employed in schools as the teacher of record) and those who are completing the online modules but are not employed as a teacher of record.

Regarding #14 - Candidates must complete the basic skills testing requirement. NE does not require content/pedagogy tests for certification.

An applicant for a Transitional Teaching Certificate must undergo fingerprinting, a background check and a police record examination if the applicant has not been a resident of Nebraska for at least five (5) consecutive years immediately preceding the date of application.

Section VII. Program Performance

Criteria for assessing the performance of teacher preparation programs in the state (§205(b)(1)(F), §207(a))

1. Has the state implemented criteria for assessing the performance of traditional teacher preparation programs?

Yes

If yes, provide the implementation date.

01/19/2008

2. Has the state implemented criteria for assessing the performance of alternative routes to teacher certification or licensure?

Yes

If yes, provide the implementation date.

01/19/2008

3. List the entities involved in implementation:

The membership of the Nebraska Council on Teacher Education, which includes representation from the following entities: Nebraska Department of Education; all Nebraska teacher preparation programs; Nebraska State Education Association; Nebraska Association of School Boards; Nebraska Council of School Administrators; Nebraska PTA; Nebraska Council for American Private Education. The Nebraska Council on Teacher Education is an advisory body to the Nebraska State Board of Education and, as such, recommendations of the Council are subject to State Board approval.

4. Specify any national organizations whose criteria are being used or that are involved in some other way:

Standards of national professional associations related to Nebraska endorsement areas are considered as revisions to Title 92, NAC, Chapter 24, Regulations for Certificate Endorsements, are made. National professional associations include, but are not limited to, the following: American Association of Health Educators; National Association of Sport and Physical Education; American Association of School Librarians; Council for Exceptional Children; Educational Leadership Constituent Council; International Reading Association; International Society for Technology in Education; National Association for the Education of Young Children; National Association of School Psychologists; National Council for the Social Studies; National Council of Teachers of English; National Council of Teachers of Mathematics; National Middle School Association; National Science Teachers Association; Association for Childhood Education International; Association for Educational Communications and Technology; Teachers of English to Speakers of Other Languages; American Council on the Teaching of Foreign Languages; and Alliance for Health, Physical Education, Recreation and Dance.

Standards in Title 92, NAC, Chapter 20, Regulations for the Approval of Teacher Education Programs, are developed with consideration to the National Council of Accreditation of Teacher Education (NCATE) and Council for Accreditation of Education Preparation (CAEP) standards, and the Interstate Teacher Assessment and Support Consortium (INTASC) standards.

5. If the state has not implemented criteria, has the state proposed criteria for assessing teacher preparation program performance?

NA

6. Do the state criteria include a determination of passing rates on state certification or licensure assessments in the academic content areas?

No

7. **Do the state criteria include indicators of teaching skills?**

Yes

8. **Describe the state criteria for assessing the performance of teacher preparation programs for:**

- a. **Assessing the ability of teacher preparation program enrollees to employ teaching and learning strategies that focus on the identification of the specific learning needs of students who are gifted and talented, and to tailor academic instruction to such needs.**

The guidelines which accompany Title 92, Nebraska Administrative Code (NAC), Chapter 20, Regulations for the Approval of Teacher Education Programs, include INTASC and NCATE standards, both of which include indicators of candidate knowledge and skill. Additional indicators are also provided in the guidelines which accompany Title 92, NAC, Chapter 24, Regulations for Certificate Endorsement.

- b. **Assessing the ability of teacher preparation program enrollees to employ teaching and learning strategies that focus on the identification of the specific learning needs of students with disabilities, and to tailor academic instruction to such needs.**

The guidelines which accompany Title 92, Nebraska Administrative Code (NAC), Chapter 20, Regulations for the Approval of Teacher Education Programs, include INTASC and NCATE standards, both of which include indicators of candidate knowledge and skill. Additional indicators are also provided in the guidelines which accompany Title 92, NAC, Chapter 24, Regulations for Certificate Endorsement.

- c. **Assessing the ability of teacher preparation program enrollees to employ teaching and learning strategies that focus on the identification of the specific learning needs of students who are limited English proficient, and to tailor academic instruction to such needs.**

The guidelines which accompany Title 92, Nebraska Administrative Code (NAC), Chapter 20, Regulations for the Approval of Teacher Education Programs, include INTASC and NCATE standards, both of which include indicators of candidate knowledge and skill. Additional indicators are also provided in the guidelines which accompany Title 92, NAC, Chapter 24, Regulations for Certificate Endorsement.

- d. **Assessing the ability of teacher preparation program enrollees to employ teaching and learning strategies that focus on the identification of the specific learning needs of students with low literacy levels, and to tailor academic instruction to such needs.**

The guidelines which accompany Title 92, Nebraska Administrative Code (NAC), Chapter 20, Regulations for the Approval of Teacher Education Programs, include INTASC and NCATE standards, both of which include indicators of candidate knowledge and skill. Additional indicators are also provided in the guidelines which accompany Title 92, NAC, Chapter 24, Regulations for Certificate Endorsement.

9. **Do the state criteria include progress in increasing the percentage of highly qualified teachers in the state?**

No

10. **Do the state criteria include progress in increasing professional development opportunities?**

No

11. **Do the state criteria include progress in improving student academic achievement for elementary and secondary students?**

No

12. **Do the state criteria include progress in raising the standards for entry into the teaching profession?**

No

13. **Are there any other criteria?**

Yes

If yes, please specify

Additional program standards and criteria for Nebraska teacher education programs are defined in Title 92, Nebraska Administrative Code (NAC), Chapter 20, Regulations for the Approval of Teacher Education Programs, and its accompanying guidelines. Additional content program standards and criteria are defined in Title 92, NAC, Chapter 24, Regulations for Certificate Endorsements, and its accompanying guidelines and are based on the national standards of the national associations addressed in Question 4, as well as other specialized professional associations with content specific standards.

Section VIII. Low Performing

Please provide the following information about low performing teacher preparation programs in your state. (§207(a))

1. **Provide a list of the criteria your state has defined for classifying traditional teacher preparation programs as "low performing" or "at risk of being low performing."**

Sections 003 through 005 of Title 92, Nebraska Administrative Code (NAC), Chapter 20, Regulations for the Approval of Teacher Education Programs, provide the basis for assessment of teacher preparation programs.

2. **Provide a list of the criteria your state has defined for classifying alternative routes to teacher certification or licensure as "low performing" or "at risk of being low performing."**

Sections 003 through 005 of Title 92, Nebraska Administrative Code (NAC), Chapter 20, Regulations for the Approval of Teacher Education Programs, provide the basis for assessment of teacher preparation programs.

3. **Provide a description of the procedures your state uses to identify and assist (through the provisions of technical assistance) low performing traditional teacher preparation programs.**

Each Nebraska institution submits an annual report regarding program offerings. In addition, a full state approval review process is conducted for each institution (currently once every seven years). For this review process, the institution submits detailed information to NDE which includes: documentation of how the institution is meeting the standards in Title 92, Nebraska Administrative Code (NAC), Chapter 20; documentation how the institution is meeting the requirements of Title 92, NAC, Chapter 24 for the endorsements offered by the institution; an outcomes-based folio for each content area program with six or more completers over the past three years; and a matrix which includes outcome data for other teacher education program requirements. This information is reviewed by a team of trained professional educators to assure that all standards in the above Chapters have been met. In addition to the review of the provided information, an on-site visit is conducted.

It is expected and customary that an institution will immediately employ corrective action for any

violations; therefore, it is not typically that violations will require a formal probationary action. If violations are not immediately addressed, Rule does provide if a violation of any of the above-mentioned standards occurs, the institution has one academic year to correct the deficiency or a revisit is scheduled before the end of that academic year. If the violation has not been corrected by April 1 of the following academic year, a recommendation is made to the Nebraska State Board of Education that the institution be placed on probation.

An institution that is placed on probation would be assigned a team of trained educators representing the Nebraska Council on Teacher Education to work with the institution in correcting its deficiencies.

An institution on probation continuing to have the same uncorrected violation(s) by May 31 of a year in which it is on probation shall be recommended by the Commissioner of Education to the State Board for denial of its continuing approval for the next year.

4. Provide a description of the procedures your state uses to identify and assist (through the provisions of technical assistance) low performing alternative routes to teacher certification or licensure.

5. Provide a list of traditional and alternative teacher preparation programs in your state that are currently classified as low performing or at risk of being so classified.

No programs are classified as low performing or at risk.

Section IX. HQT Shortages

Provide a description of the extent to which teacher preparation programs are addressing shortages of highly qualified teachers, by area of certification or licensure, subject, and

specialty, in your state's public schools. Include planning activities and timelines if these activities are not currently in place. Include both traditional programs and alternative routes to teacher certification or licensure, as applicable. (Â§205(b)(1)(I))

Teacher preparation programs in Nebraska control the number of students admitted into their programs based upon supply and demand, as there is no state regulation that requires an institution to target shortage areas. The Nebraska P-16 Initiative has identified a goal to increase supply in certain content areas; however, no specific funding has been attached to this goal. Specific institution initiatives are described in the Institution Program Report Cards (IRPC) found on the Nebraska Department of Education website, but include: use of alternative forms of communication technology to reach a broader target population; guest speakers including current candidates, current teachers and employers, and faculty; working with the Admissions Department to increase recruitment of candidates for specific endorsement areas; development of special programming, such as a summer camp, to encourage students to consider teaching careers in specific content areas; provide state-funded financial assistance to candidates seeking to enter high-need fields; work with school partners to develop an education academy and dual enrollment courses for high school students interested in teaching as a career; invite local school district administrators to speak about the need for teachers in high-need fields; collaboration between instructors in Teacher Education and content faculty to increase course availability; and support for Future Teachers chapters (and a state conference) to promote interest in teaching in a high-need field.

Section X. Teacher Training

Provide a description of the extent to which teacher preparation programs prepare teachers, including general education and special education teachers, to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*. Include planning activities and timelines if these activities are not currently in place. Include both traditional programs and alternative routes to teacher certification or licensure, as applicable. (Â§205(b)(1)(J))

Section 005.10C of Title 92, NAC, Chapter 20, requires all teacher preparation students to complete a minimum of three semester credit hours of coursework in special education; however institutions exceed this minimum through additional required coursework, or with intentional infusion of special education components throughout professional education courses. Institutions meet this requirement through coursework which may include differentiated instruction, student learning styles and strategies, participation on an IEP team, assessments, and classroom observation. Nebraska institution's coursework includes introduction to common characteristics of disabilities, the concept of differentiated instruction, team teaching, the referral and IEP/IFSP process, and field-based experiences which include a focus on working with special education students. Lesson plans, portfolios and other student work samples focus candidates on adapting instruction to meet the needs of all students, including students with disabilities.

All special education teacher candidates must successfully complete special education courses and experiences to ensure that they are prepared to teach students with disabilities. Minimum requirements for the coursework and field experience are specified in Rule 24 for all special education endorsements;

however, it is typical for institutions to exceed the minimums established by Rule. Each of the Nebraska special education endorsements require semester credit hours of specialized content and field experiences (practicum/clinical/student teaching). Specialized content coursework may include inclusion of special education students into general education classrooms, research-based teaching methodologies, collaboration strategies, federal and state laws for special education, technology to make curriculum more accessible, understanding students with a variety of identified disabilities, special education program planning and management, working with families and agencies, participation on an IEP team, assessments, and classroom observation.

All Special Education endorsements are currently under revision. These revised endorsements will form the basis for new preparation standards for Special Education teachers. Standards established by the Council for Exceptional Children are serving as the basis for endorsement revisions.

Specific information about each institution related to preparing teachers to teach students with disabilities can be found in their Institution Program Report Card (IPRC) which are accessible through the NDE website below.

Provide a description of the extent to which teacher preparation programs prepare teachers, including general education and special education teachers, to effectively teach students who are limited English proficient. Include planning activities and timelines if these activities are not currently in place. Include both traditional programs and alternative routes to teacher certification or licensure, as applicable. (Â§205(b)(1)(L))

All Nebraska teacher preparation institutions require teacher education candidates to complete a minimum of 3 credit hours of coursework that focuses on working with diverse populations, including limited English proficient students; however, some institutions have implemented a required course for all endorsement areas which specifically focuses on ESL. Required field-based experiences are coordinated by faculty to provide candidates with experiences in classroom with ESL students. In addition, concepts for working with limited English proficient students are embedded throughout methods courses, and lesson plans and artifacts require a focus on ESL student needs. Examples of practices in Nebraska institutions include: students take adaptation courses alongside their methods courses, faculty development and faculty involvement in service/organizational activities, and targeted service-learning for candidates. In response to the increasing ELL population in NE, institutions have reviewed programs and enhanced ELL focused instruction. Several institutions are implementing new required and elective courses (or adding ESL endorsement programs). There is also increased recruitment and support to encourage candidates to complete the ESL endorsement as a part of their preparation program. Specific information about institutional efforts can be found in the Institution Report Card accessible via the NDE link provided below.

Title 92, NAC, Chapter 20 includes current requirements related to training in human relations; however, Rule 20 is undergoing revision and it is expected that more explicit requirements related to teaching ESL students will be added. On August 1, 2012, a revised ESL endorsement went into effect (Rule 24). In addition, a Bilingual endorsement was added to the Rule. Institutions offering the ESL endorsement are required to revise programs to be compliant with Rule 24 requirements. Currently, one institution offers the Bilingual endorsement.

Section XI. Technology

Provide a description of the activities that prepare teachers to integrate technology effectively into curricula and instruction, including activities consistent with the principles of universal design for learning; and use technology effectively to collect, manage, and analyze data to improve teaching and learning for the purpose of increasing student academic achievement. Include planning activities and timelines if these activities are not currently in place. Include both traditional programs and alternative routes to teacher certification or licensure, as applicable. (Â§205(b)(1)(K))

Building the skills of teachers to utilize technology as an instructional tool is a required component of Nebraska's teacher preparation programs. Use of instructional technology is embedded throughout coursework required of all teacher preparation programs in Nebraska, in some institutions a specific technology in education course is required. Candidates are required to utilize technology to develop instruction and assessment materials that will positively impact their role as a teacher, as well as demonstrate competency in using technology as a teacher. The requirement that students use technology in their instruction in practicum and student teaching experiences ensures that technology is used to collect, manage and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Examples of the above include completion of lesson plans/units using technologies to modify instruction to meet the needs of diverse learners; instruction on basic uses of various technologies, including web pages, wikis, google docs, online courses, in a classroom setting; use of software to collect students' scores on assessment to determine appropriate level of instruction; and "brown bag" sessions to introduce students to new technology followed by in-depth training.

Principles of Universal Design are integrated into all methods courses through emphasis on developmentally appropriate practices, multiple intelligences and attention to diversity and special needs. One example is the annotated bibliography project required at one Nebraska institution. Students review 40 studies of an area of special education, then manage and analyze the data to find trends. Institutions most recently are addressing infusing instruction for candidates related to effective teaching in a virtual environment. Specific examples of institutional initiatives can be found in the Institutional Program Report Card (IRPC) via the NDE link provided below.

Title 92, NAC, Chapter 20 is undergoing revisions to include updated and more specific requirements relative to the utilization of technology for instruction. In addition, a new instructional technology leadership endorsement has been added to Rule 24 as a supplemental endorsement option which may be added to a regular endorsement.

Section XII. Improvement Efforts

List and describe any steps taken by the state during the past year to improve the quality of the current and future teaching force. (Â§205(d)(2)(A))

STATEWIDE INITIATIVES

The Nebraska Department of Education has identified several priority areas in regards to the systemic development and improvement for Nebraska's educators. Last year the State Board approved the Teacher and Principal Performance Frameworks which serve as a resource to provide a definition of effective practice to voluntarily guide local districts, institutions of higher education, and state and local policymakers in a continuing commitment to improve educational achievement for all students. These frameworks are currently being utilized for the development of model teacher and principal evaluation processes. In concert with this work, the frameworks will be used as the basis for revision of Rule 20 so that a seamless continuum of preparation and professional practice is in place. This work will also inform the development of statewide professional development models/expectations and performance-based certification and recertification requirements.

RULE REVISIONS

The Nebraska Department of Education is continuously revising the rules and regulations that govern educator preparation in the state to ensure that Nebraska educator preparation programs are consistently rigorous and producing well-prepared, effective educators.

Title 92, Nebraska Administrative Code (NAC), Chapter 20, Regulations for the Approval of Teacher Education Programs, is undergoing a significant rewrite to update and strengthen the requirements for Nebraska educator preparation programs. Areas of revision focus include: pre-service exit standards, core academic standards for all candidates, performance-based program exit requirements, field-based experience expectations, K-12 student and preparation program assessment and accountability, diversity and special populations.

Revisions to Title 92, NAC, Chapter 21, Issuance of Certificate and Permits to Teach, Provide Special Services, and Administer in Nebraska Schools, are being considered to include discussion related licensure testing, and to developing a process for utilizing performance-based criteria for initial certificate issuance and certificate renewal utilizing professional development/growth experiences rather than solely on the basis of teaching experience or credit hours.

Title 92, NAC, Chapter 24, Regulations for Certificate Endorsements, and its accompanying guidelines continue to undergo revisions to incorporate state K-12 standards and current standards of professional associations. The standards of the Specialized Professional Associations affiliated with NCATE have provided the foundation for the revision of many endorsement criteria found in the Chapter 24 Guidelines. Chapter 24 and its guidelines are revised annually to incorporate endorsement reviews and modifications to K-12 standards and assessment processes, which are undergoing significant changes due to State and Federal regulations. Revision conversations focus on the evolving needs of students and schools.

NEBRASKA COUNCIL ON TEACHER EDUCATION (NCTE)

The Nebraska Council on Teacher Education (NCTE) is a statutory advisory body to the Nebraska State Board of Education. Members represent administrators, school boards, teachers, higher education, parents, private education and the NE Department of Education. NCTE continues to focus its meetings on the discussion of the improvement of educator preparation programs in Nebraska. Discussions revolve around

the key issues and challenges facing Nebraska's teachers and administrators, the assessment and accountability of Nebraska's educators, the state's certification, recertification, professional development and evaluation practices, and methods to increase, support and retain Nebraska's supply of educators. Outcomes of these discussions are considered recommendations to the NE Board of Education and to NDE staff to inform policy and procedures.

EXCELLENCE IN TEACHING ACT

On April 22, 2009, the Excellence in Teaching Act (§§ 79-8,132-79-8,140 R.R.S.) was signed by Governor Heineman revising the existing Attracting Excellence in Teaching Program and authorizing the Enhancing Excellence in Teaching Program. The Attracting Excellence to Teaching Program (AETP) provides forgivable loans to eligible students who are enrolled in an undergraduate or graduate teacher education program at an eligible Nebraska institution working towards his/her initial certificate to teach in Nebraska. Eligible students may apply, on an annual basis, for an AETP loan in an amount of \$3,000 and can apply for, and receive, AETP loans annually for up to five (5) consecutive years. In return for receiving an AETP loan, the student agrees to complete the teacher education program that s/he is currently enrolled in and commits to becoming certified and to teach full-time in an accredited or approved public or private school in Nebraska. If the student meets the loan forgiveness obligations, loans will be forgiven, beginning after the first two years of full-time teaching, in an amount up to \$3,000 for each year of teaching or in an amount up to \$6,000 for each year of teaching if the student teaches in a school district that has been classified as very sparse or in a school building in which at least 40% of the students qualify under the poverty factor.

The Enhancing Excellence in Teaching Program (EETP) provides forgivable loans to Nebraska teachers enrolled in an eligible graduate program at an eligible Nebraska institution. Eligible students may apply, on an annual basis, for an EETP loan in an amount of up to \$175 per credit hour, or a maximum of \$3,000, for coursework that has been identified by the institution as part of the student's graduate program. In return for receiving an EETP loan, the student agrees to complete the graduate program that s/he is currently enrolled in and maintain full-time employment in an accredited or approved public or private school in Nebraska. If the student meets the loan forgiveness obligations, loans will be forgiven, beginning after the first two years of full-time teaching, in an amount up to \$3,000 for each year of teaching or in an amount up to \$6,000 for each year of teaching if the student teaches in a school district that has been classified as very sparse or in a school building in which at least 40% of the students qualify under the poverty factor. NOTE - In April, 2011, the NE Legislature suspended portions of the program for two years due to budget concerns; however, some funds remain to continue other portions of the program during the suspension.
