AYP and PLAS

Contact: Diane Stuehmer (402-471-1740) or diane.stuehmer@nebraska.gov

With the release to districts of the NeSA Reading results, many are wondering about the use of these results for Adequate Yearly Progress (AYP) and Persistently Lowest-Achieving Schools (PLAS). By August 23, 2010, the proposed starting points (AYP State Goals for 2009-10) will be submitted to the U. S. Department of Education for approval. Once approved, we will announce the AYP State Goals and will add the AYP decisions to the State of the Schools Preview 2009-10 (available on the Portal under Data Collections). When the AYP decisions are available, the PLAS list will also be added to the State of the Schools Report Preview 2009-10. The goal is to have this accomplished by September 1. Districts will have 30 days to review all the NeSA results, AYP and PLAS decisions before this information is released to the public on October 1. The AYP Guidance for 2009-10 is found at:

<http://www.education.ne.gov/Assessment/AssessmentReporting.htm>. Question D-3 describes the new AYP process for Very Small Schools. The PLAS selection process is found at: <http://www.education.ne.gov/ARRA/PLAS.html>.

NSSRS Data Manager: “Notice of Data Rediscovery”

Contact: NDE Helpdesk (888-285-0556 or nde.helpdesk@nebraska.gov)

The NSSRS opened on August 13th for the 2010-11 data submissions. Prior to submitting 2010-11 data, a district's "District Approve" user must indicate understanding of data redisclosure requirements, which require NDE to make data submitted available to Nebraska postsecondary institutions under the new law ([Neb. Rev. Stat. Section 79-776](#)), and to other districts where a student intends to enroll*. An NSSRS user should click on the button that says "Close this Window" after reading it the first time. The "District Approve" (district superintendent) user indicates understanding by clicking the "I Understand" button prior to any submissions. All users will be presented with a notice of data redisclosure the first time logging into NSSRS Data Manager each day and must click the "I Understand" button in order to gain access to this system.

The new splash screen is the notification required under the Family Educational Rights and Privacy Act (FERPA). Even though the P-16 data system is not yet developed, FERPA requires advance notification. When the P-16 data system is fully implemented, if anyone wishes to use PK-12 data for approved research, districts will again receive notification.

*The Enrollment Lookup by NDE Student ID will be modified to allow any authorized user to look-up a new student upon enrollment. This previously was only available after a Student template had been submitted for a particular student.
