GENERAL INSTRUCTIONS

This instruction manual describes the data elements collected by the Nebraska Student and Staff Record System (NSSRS) via the Programs Fact template. The Programs Fact template collects information about certain student program participation (Career Education, Early Childhood Education, or Rule 18 Interim-Program School) or eligibility (Homeless Education). Valid values and data validation rules that can be performed prior to data submission are listed where appropriate. NSSRS validation reports ensure data submitted is of high quality.

The detailed NSSRS Data Source Templates (i.e. file layout specifications) for all NSSRS templates can be downloaded from the “NSSRS Secured Information web site”, which is accessible via the NDE Portal (http://portal.education.ne.gov). The “NSSRS Desktop Database” is also available for download from this web site. Contact the NDE Helpdesk (nde.helpdesk@nebraska.gov or 888-285-0556) for additional information regarding the NSSRS Secured Information web site and the NSSRS Desktop Database.

Scope

All public districts and Special Purpose Schools. The Programs Fact template contains information on student participation, or eligibility in the case of Homeless Education, in particular programs at any point during the school year.

Data Element Names
The following syntax is used throughout this document when referencing data elements.

Format: * NDE Field Name [Template Name:Field Name(Field Number)]

Where:

- An asterisk (*) indicates the data element is a key field. A value must be supplied in all key fields for each record or the data loading process will reject the record.
- **NDE Field Name** represents the name of the data element commonly used by the Nebraska Department of Education (NDE).
- **Template Name** indicates the formal name of the template.
- **Field Name** indicates the formal name of the field within the specified Template Name.
- **Field Number** indicates the position of the field within the specified Template Name.

Example: * County District Number [Programs Fact:District Code (1)] indicates a key field referenced at NDE as “County District Number” that is the first field on the Programs Fact template with a field name of “District Code.”

School Year
June 30 is used throughout NSSRS as the logical representation of a school year. As with all dates in NSSRS, it must be in ISO format (YYYY-MM-DD). Therefore, since this document applies to the “2010-2011” school year, all template fields that are to be populated with a logical school year will simply read: Provide the literal “2011-06-30”.

Career Education Programs Fact data is collected to support the federal reporting of the Carl D. Perkins Career and Technical Education Act.

Key considerations when reporting the Career Education: Programs Fact template data:

- Data submission includes all grades 7-12 in schools that offer career education courses.
- Career Education Participants are determined during the current program year (July 1, 2010 – June 30, 2011) only.
- Concentrators are determined by evaluating the course sequences of the student throughout the 9-12 high school experience in specific program areas.
- No students can concentrate in CEFOUND Programs Code.
- Students may have multiple Programs Fact records if participating and/or concentrating in more than one Programs Code.
- Although students may only concentrate in an approved program of study, students may be considered participants in courses not part of an approved program of study.

For more information and resources on definitions, crosswalks, and other resources please visit the Perkins Accountability Resources at http://www.education.ne.gov/nce/PerkinsAccountabilityResources.htm.

A Student template must first be submitted for each student appearing in a Programs Fact template or the data loading process will reject the record.

* **County District Number [Programs Fact:District Code (1)]**
  This is the number assigned to your school district by NDE and should include a hyphen (“-“) between the county number and the district number. The number is based on the county in which the district headquarters is located and an assigned district number. You have used this number in reporting before NSSRS; it was preprinted on your forms in the past. This value is used in every template. This is a key field; a value must be supplied for each record or the data loading process will reject the record. The County District Number can be obtained from the Education Directory Search (http://edudirscc.education.ne.gov).

**School Number [Programs Fact:Program Location Code (2)]**
Provide the primary school number the student is attending. This number is the last three digits of the county district school number which was preprinted on your forms in the past. The School Number can be obtained from the Education Directory Search (http://edudirscc.education.ne.gov).

* **School Year [Programs Fact:School Year Date (3)]**
  Provide the literal “2011-06-30”. This is a key field; a value must be supplied for each record or the data loading process will reject the record.
**NDE Student ID [Programs Fact:Student ID (4)]**
Provide the 10 digit Nebraska Department of Education Student Identifier. This is a key field; a value must be supplied for each record or the data loading process will reject the record. This ID is validated against the Nebraska Uniq-ID system during the File Validation process.

**Programs Code [Programs Fact:Programs Code (5)]**
Use the appropriate Programs Code from the list below. This is a key field; a value must be supplied for each record or the data loading process will reject the record. There may be multiple Programs Fact records if a student participates in more than one Program. For a course crosswalk and other resources related to the Programs Codes visit http://www.education.ne.gov/nce/PerkinsAccountabilityResources.htm
