GENERAL INSTRUCTIONS

This instruction manual describes the data elements collected by the Nebraska Student and Staff Record System (NSSRS) via the Postsecondary Enrollment and Postsecondary Academic Awards file specifications. Valid values and data validation rules that can be performed prior to data submission are listed where appropriate. NSSRS validations ensure data submitted is of high quality. A link to an interactive list of all NSSRS validations is available on the NSSRS Resources page of the NSSRS website (<http://www.education.ne.gov/nssrs>).

See APPENDIX B – File Layouts for field types and field lengths.

Scope

All undergraduate students enrolled in courses for credit at the institution during the 2010-2011 academic year (Academic Year Ending 2011) are reported. Academic Year Ending 2011 will span July 1, 2010 through June 30, 2011).

Data Element Names

The following syntax is used throughout this document when referencing data elements.

Format: * NDE Field Name [File Specification:Field Name(Field Number)]

Where:

- An asterisk (*) indicates the data element is a key field. A value must be supplied in all key fields for each record or the data loading process will reject the record.
- **NDE Field Name** represents the name of the data element commonly used by the Nebraska Department of Education (NDE).
- **File Specification** indicates the formal name of the file specification.
- **Field Name** indicates the formal name of the field within the file specification.
- **Field Number** indicates the position of the field within the file specification.

Example: * Institution Code [Postsecondary Enrollment:Institution Code (1)] indicates a key field referenced at NDE as "Institution Code" that is the first field on the Postsecondary Enrollment file specification with a field name of "Institution Code."

Academic Year Ending

June 30 is used throughout NSSRS as the logical representation of a school year. However, postsecondary data will be organized by academic year using Academic Year Ending. Since this document applies to the "2010-2011" academic year ending, the Academic Year Ending field will simply read: Provide the literal "2011".

POSTSECONDARY ENROLLMENT

POSTSECONDARY ENROLLMENT

The Postsecondary Enrollment file specification collects student demographic data of undergraduate students enrolled in courses for credit during a particular term of an academic year.
