Online Data Entry Instructions

The Staff Reporting System online data entry option gives districts/systems the ability to add, delete or change the data in both the Staff Demographics and Staff Position Assignments records.

A hover feature is available on several of the data fields when the cursor is held over a field name. It will give a description of the field or an accepted value for that field.

Some validation errors will show upon entry and should be corrected at that time. Other validation errors and/or warnings will continue to show in NSSRS Validation. The validations and/or warnings in NSSRS Validation will be an overnight run so check NSSRS Validations the next day after the completion of updating or entering data in both Staff Demographics and Position Assignments.

The “Current Personnel Report” will continue to show under the Verification Reports in NSSRS Validation. A copy of this report should be printed or saved to a folder on your computer.

The staff that are employed by the ESU or another district that are serving your students will be reported by the district or ESU that holds the contract. These staff will not show in the district/system receiving services, but will show in the Verification Reports – “Current Personnel Report”.

Refer to the Staff Instruction Manual on how to report staff and the appropriate codes
