

PROPOSED AGENDA ITEM RATIONALE

TO: Matthew L. Blomstedt, Ph.D.  
Commissioner of Education

FROM: Bryce Wilson, Director of Finance & Organizational Services

PROPOSED AGENDA ITEM: "Adopt proposed revisions to Rule 92, 'Regulations Governing the Minimum Equipment Standards and Safety Inspection Criteria for Pupil Transportation Vehicles.'"

RATIONALE: Currently, Rule 92 includes a section that limits the size of the fuel tank that can be used in school buses. New technology improving fuel efficiency developed for Type A school buses is designed to utilize a smaller fuel tank than is required in Rule 92. Without the proposed change, Nebraska schools would not be permitted to use new Type A school buses.

Background information - Rule 92 was last revised in November 2012 following the meeting of the National Congress of School Transportation. Typically, Rule 92 is revised on a 5 year schedule incorporating changes resulting from the National Congress of School Transportation.

Estimated Cost - \$650
