Subject: Bellevue University Application for Education Preparation Approval  
Reference: Letter from M. L. Blomstedt, PhD, Nebraska Department of Education, subject as above, dated March 15, 2016.

Dear Sharon Katt,

I acknowledge receipt of the referenced letter and am pleased to state that Bellevue University will *not* be requesting a hearing.

I know that I speak for all of my colleagues at Bellevue University in thanking the Nebraska Department of Education's visitation team for their professional engagement in our request for provisional approval. As we move forward in our teachers education program development, we will draw on the thoughtful recommendations by the team as well as taking advantage of the generous offer of support and taking advantage of insights made by the team members.

Once again, Bellevue University is excited to take the progressive steps forward during this three year process and thank you and your team members.

Sincerely,
