

## Nebraska High School Map Form

---

### Introduction

The document provides a comparison between your YRBS questionnaire and the standard YRBS questionnaire. We use the question numbers from the standard YRBS questionnaire when reporting your data. Thus, this form is important to you as it provides a crosswalk between your question numbers and the standard YRBS question numbers.

The Map Form provides the following information about your YRBS questionnaire:

- Summary information at the bottom of this page about your questionnaire
- A two-page table that compares standard question numbers to your site's question numbers. This section contains the following columns:
  - **Standard** – Number of each question as it appears on the standard YRBS questionnaire
  - **Site** – Number of each question as it appears on your YRBS questionnaire
- A table with questions in standard questionnaire order followed by site-added questions. This section contains the following columns:
  - **Question** – Question text and response options
  - **Standard Question Number** – See above
  - **Site Question Number** – See above
  - **Input data position** – Position of the variable on the data set
  - **Input data length** – Length of the variable (number of spaces) on the data set

### Questionnaire Summary Information

Total Number of Questions:	<b>97</b>
Number of Core Questions:	<b>87</b>
Number of Site-Added Questions:	<b>10</b>
Percentage of Core Questions Asked:	<b>100.0%</b>
Custom Demographics:	
Age:	<b>No</b>
Grade:	<b>No</b>
Race:	<b>No</b>
Standard Demographics Order:	<b>Yes</b>
Steps Compliance:	<b>NA</b>
