

Y4Y Breadcrumb Match

Like Hansel and Gretel, you should always leave breadcrumbs behind to find your way. A Breadcrumb is a navigational aid used to keep track of locations within a document or program that usually appears across the bottom or top of a document page.

Example: Home page > Section page > Subsection page

Directions: Match the clue with the appropriate breadcrumb. As you do this activity, please make sure to simultaneously look online at the Y4Y Portal.
