Introduction

Welcome to the Nebraska Department of Education Nutrition Services user manual for the School Nutrition Programs module. This web-based software solution provides administrators, state users, and Sponsors with efficient and immediate access to applications, claims, and related nutrition program functions.

Web Site Benefits and Features

This system is a user-friendly web application that allows authorized state agency personnel and Sponsors to submit and approve application, claims, and miscellaneous forms via the Internet. Key system features include:

- A software system that manages information regarding Sponsors, applications, claims, and reports.
- A single integrated database which serves all child nutrition programs.
- The ability to save partially completed forms on-line, allowing the user to complete the process at a later time.
- Individual User IDs and passwords for secure login to program functions and accurate tracking of user behavior.
- A robust security module that streamlines security setting controls by enabling administrators to easily assign users to numerous pre-defined groups and eliminating the need to manually set each user's security access.

User Manual

This user manual is intended for use by authorized Sponsor users that participate in the School Nutrition Programs. It is designed to provide a general understanding of how to use the system in an effective and efficient manner. This manual will provide:

- A general explanation of each feature available.
- Screen examples of web site pages and forms.
- Step-by-step instructions for utilizing the web site features.
- Tips and notes to enhance your understanding of the system.
Getting Started

Before you can begin using the system, you must be assigned a user ID and password that provides the required security rights. Once this setup is complete, you may use the Internet and your assigned user ID and password to access and log onto the web site.

Accessing the Web Site

You can access the system from any computer connected to the Internet by opening your Internet browser and entering the following URL in the browser’s address line https://nutrition.education.ne.gov/splash.aspx

**TIP:** You can add this URL to your browser’s FAVORITES list or create a shortcut to the web site on your desktop for quicker access to the site. Refer to your browser or operating system help files for further information.

![System Home Page](image-url)
About the Home Page

The Home Page consists of three major sections:

- Bulletin Board.
- Log on.
- Links.

The bulletin board is managed by NDE and provides general information. It is important to remember that the bulletin board on the home page is viewable by the public.

The log on section is where authorized users enter their User ID and password. The links section provides access to websites and additional information.

Logging On

To log on

1. Access the system by typing the URL into the address line of your web browser.
2. Enter your assigned User ID.
3. Enter your Password.
4. Select Log On.

Note: If you do not have a User ID and Password, contact Nutrition Services.

TIP: The Password is case-sensitive, so be sure to use upper and lowercase letters, one number and one special character.

To change your password

If this is your first time logging on, the system will automatically require you to change your password.

1. Select a new password and enter it into the box provided.
2. Re-enter your new password for confirmation.
3. Select Save to continue to the Programs page.
Content Overview

Once you are logged in and have selected a Sponsor, the top portion of the application contains key elements that provide basic information about your location within the system and the selected Sponsor.

### Error Processing

All information entered and saved on the system is verified to ensure it conforms to data entry guidelines and system rules. The site performs two types of checks on information entered: Input Edits and Business Rule Edits.

#### Input Edits

Whenever you save information or proceed to a new screen, the site checks for input errors. These errors may include entry errors such as an invalid data entry (such as entering a 4-digit Zip Code), or a non-logical entry (e.g., entering a greater number of eligible than enrolled children).

If a form contains an input error and the user selects **Save**, the screen either displays the error code and description in red at the top of the page (and the error code is a letter) or displays a message next to the field in error. Input errors **must be corrected** before you can proceed. The system will not save data entered on a screen that contains an input error. The user must correct the input errors and select **Save** again.

![Figure 6: Example of an Input Error (Partial Screen)](image)

#### Business Rule Edits

Business rule edits are used to ensure that entered data on a form conforms to state-defined guidelines/requirements and federal regulation. Once the user initiates a save, the system will perform business rule edit checks **after** all input errors have been corrected and display a confirmation screen stating that data entered has been saved and identifies whether errors exist.

The user may correct business rule errors immediately or at another time. The entered data will not be lost. The errors will display at the top of the screen with an error code (usually 4-5 digits) and error description. Business rule edits do not prohibit the system from saving the data entered.
on the screen.

![Figure 7: Example of a Business Rule Error (Partial Screen)](image)

In addition, business rule edits have an error severity that indicates whether an error is considered an Error or a Warning. Errors appear in red and must be corrected before the form can be submitted. Warnings appear in blue and indicate an “out of the ordinary” data value. Warning errors do not need to be corrected prior to form submission.

![Figure 8: Example of a Warning Error](image)

**Note:** State administrators maintain the business rule error messages. If you think an error message is incorrect or unclear, please contact Nutrition Services.

### Selecting a School Year

Information for Sponsors and sites is displayed based on the selected school year. Upon logging on to the system, the “active” school year is the default selection and displays in the top-right corner in the blue bar. In order to view information from a prior year, you will need to change the school year.

**Note:** A Sponsor will be unable to select a new year if they have not been granted the security right. Contact Nutrition Services and request access to the **Select Year** security right if you think this is in error.

#### To select a school year

1. Select **Year** on the blue menu bar at the top of the page. The Year Select screen displays.
2. Select the year.
Note: The selected year is indicated by Selected.

3. Use the menu bar to return to your task in the program.

TIP: The ability to view and/or modify a school year is controlled by the State’s system administrator. It is important to note that a school year may be set as “view only” to the Sponsors and “modify” to authorized State users.

Figure 9: Year Select screen

Sponsor Search

Note: If you are associated with only one Sponsor, you will be unable to access the Sponsor Search screen. The system will always default to the Sponsor’s data.

For most School Nutrition Programs functions, you must search for and select a Sponsor using the Sponsor Search function before beginning any task. When the Sponsor Search screen displays, you can search for the Sponsor using all or part of the Agreement Number, Sponsor Name, or any other combination of parameters provided on this screen.

To search for a Sponsor

1. On the menu bar, select Search. [If the Sponsor Search screen is already displayed, begin at Step 2.] The Sponsor Search screen displays.
2. Enter search parameters (see table for additional information on using the search parameters).
3. Select Search.
4. Select the Sponsor you wish to access.

TIP: The Sponsors List displays based upon the search criteria entered. If no selections were made, the list displays all available Sponsors with the designated status (default is "Active"). To display all Sponsors, leave all search parameters blank and select Search.
The search parameters follow a specific set of rules. These are described in the following table.

If the type of search is identified as “includes”, the system will search for any Sponsor that includes the parameter in any portion of the selected field. For example, if the user entered “386” in the Agreement Number parameter, the system will retrieve Sponsors with Agreement Numbers of “00386” and “01386”.

If the type of search is “exact match”, the system will search only for any Sponsor that exactly matches the parameter. For example, if the user selected “Adams” in the County parameter, the system will retrieve all Sponsors associated with the county of Adams.

Applications

Now that you know how to access and log on to the system, the remainder of the manual will explore the functions of the School Nutrition Programs module. Let’s first look at the Applications component, where users manage yearly enrollment of Sponsors and sites and complete the appropriate forms required by the NDE.

About the School Year Enrollment Process

In order to participate in the School Nutrition Programs, Sponsors must submit an Application Packet to the State for review and approval. Before beginning the Application Packet, Sponsors must select the “Enroll” button on the Application Packet screen and click “Yes” on the subsequent confirmation screen. After a Sponsor is enrolled, they must complete all required applications and forms in the Application Packet for the school year.

A new Application Packet must be submitted and approved at the beginning of each year. For Sponsors that are completing this process as part of their “annual update,” certain information from the previous year’s applications rolls over into the new program year. The Sponsor may modify this data for the new program year or leave the data as it is presented (and as was recorded in the previous year).
Submitting an Application Packet

The Sponsor can submit the Application Packet to the State once all required applications, online forms (e.g., Food Service Management Company contract), and supporting documents identified on the checklist are completed and saved without errors.

In order to be able to submit an Application Packet, the packet must contain:

- A completed Sponsor Application with no errors.
- At least one completed SNP Site Application with no errors.
- All items in the Checklist are identified as submitted to NDE.
- If the Sponsor had identified that they would be using a Food Safety Management Company on their Sponsor Application, the packet must contain at least one Food Service Management Company contract with a status of “Submitted”.

Once the Application Packet has been submitted to the State for approval, the packet history section of the Application Packet screen will display the event and the packet status changes to **Submitted for Approval**.

2. Select an application item to access that application function.
The Sponsor Manager Menu allows authorized State users to access the Sponsor Profile, Site Manager, Batch Hold, and Payment Hold functions.

To access the Sponsor Manager Menu

1. On the blue menu bar, select Applications.
2. From the Applications menu, select Sponsor Manager. If a Sponsor has already been selected, the Sponsor Manager Menu screen displays.

**Application Packet**

In order to participate in the School Nutrition Programs (SNP), Sponsors must submit an Application Packet to the State for review and approval. At the beginning of each program year, Sponsor data is rolled over and must be verified by Sponsors prior to submitting any claims.

The Application Packet contains the Sponsor application, site application(s), and other forms required as a part of the packet. After selecting Application Packet from the Applications menu, each required packet item and its status displays. If any packet item requires attention (such as an error within a form or a checklist item needs to be completed), a red arrow displays next to the Application Packet item. If the Application Packet item has been completed correctly and contains no errors, a green check displays next to the Application Packet item.

**Note:** Sponsors may not submit claims until their Application Packet has been approved for the respective program year.

**Note:** Once an Application Packet has been approved, when a Sponsor revises any item within the Application Packet, the Application Packet must be re-submitted for approval.

Claims

The Claims component allows Sponsors to submit monthly online reimbursement claim requests to the State, review claim rates, and review historical payment summaries.

About the Claims Process

A Sponsor submits a reimbursement claim to the State for every month in which one or more sites participates in the School Nutrition Programs. Sponsors may enter Sponsor and site information into the monthly claim form beginning at the first of every month. Sponsors have sixty days from the last day of the claim month/year to submit an original claim.

Note: Claims cannot be created for a month if there is no approved Application Packet in effect for that period. If you cannot access claims for a specific month, be sure your Application Packet has been approved. If your Application Packet has been approved and you still cannot enter a claim for a specific month, contact Nutrition Services to validate the effective date of the Sponsor application and Site application.

At the time claims are submitted, they are checked by the system to ensure they conform to established business rules governing reimbursement claim eligibility and approval. The following table identifies the steps related to submitting and processing a claim:

<table>

<tr>

If a change is required to a claim that has a status of “Accepted*” or “Processed”, a revised claim must be entered into the system.</td>

</tbody>
</table>
Claim Entry

The Claim Entry function is used to enter, modify, and view claims. The system provides the ability to submit claims at the Sponsor or site level. Application Packet Process

This section of the manual provides information on how the State can review and approve Application Packets within the system.

Note: For security purposes, users can only view Sponsors to whom they are associated.

Submitting an Application Packet

All new enrollment or renewal enrollment applications are initially created with a status of “Pending Validation”. Once the Application has been saved, the system validates the business rules and the application’s status is set by the system to either “Error” (if any errors exist) or “Not Submitted” (no errors, but the Application Packet has not been submitted).

Only complete Application Packets that have no errors can be submitted to the State. To submit a completed Application Packet, the Sponsor would select the Submit for Approval button. This simulates sending a completed Application Packet in the mail. Application items are placed in a view-only mode for the Sponsor.

An Application Packet can be submitted to the State (i.e., the Submit for Approval button is enabled) only if the following conditions have been met:

- The Sponsor Application must contain no errors.
- At least one Site Application must exist and contain no errors.
- If the Sponsor is using a Food Service Management Company (FSMC), at least one contract must exist and contain no errors.
- All items in the Checklist must be submitted (submitted checkbox checked and date submitted is entered).
- The Sponsor is not closed.

Once the Sponsor has submitted the Application Packet, the State will review each item in the submitted Application Packet. The State may approve each application item, deny an application item, or return the application item and its respective Application Packet back to the Sponsor for correction.

If the Application Packet is denied or returned to the Sponsor for correction, the State will provide comments within the respective Application Packet item as to why the application was denied or what needs to be corrected in order to re-submit the Application Packet.
Application Packet Statuses

Statuses are used to manage the workflow of the Application Packet. Each packet can have only one status at a time.

Not Submitted
- The packet has a status of “Not Submitted” when the packet is created for the first time or when any of the packet items are created, revised, or modified, but the Application Packet has not been submitted to the State.

Submitted
- The packet has a status of “Submitted” when the Sponsor uses the Submit for Approval button on the Application Packet screen to submit the error-free packet to the State for review.
- If the packet status is “Submitted”, the entire packet becomes read-only to the Sponsor.
- All applications that are “Submitted” must ultimately be “Approved”, “Denied”, or “Returned for Correction” or “Withdrawn”.

Approval Recommended (i.e., First Level Approved)
- When a Sponsor is new to the program, the system will require two levels of approval. This status represents the first level of approval performed by the State before a final approval is granted.
- The Application Packet screen will display the First Approval button when the first level approval is required. After the button has been selected, this button will not display; however, the Approve button will be displayed.

Approved
- The packet has a status of “Approved” when the State has approved each packet item AND has selected the Approve button on the Application Packet screen.

Denied
- The packet has a status of “Denied” when the State selects the Deny button on the Application Packet screen.
- When a packet is “Denied”, the packet remains view-only and nothing in the packet can be modified. The only way to edit items in a denied packet is for the State to change the status of the packet to something other than “Denied”.
- By denying an Application Packet, the status of all items within the packet is automatically set to “Denied”.
- An “Approved” packet cannot be “Denied”.

Returned for Corrections
- The packet has a status of “Returned for Corrections” when the State selects the Return button on the Application Packet screen.
- This status unlocks the packet for the Sponsor and sets the status back to “Not Submitted”.
- An “Approved” packet cannot be “Returned for Corrections”.

SCHOOL NUTRITION PROGRAMS USER MANUAL
Withdrawn

- The packet has a status of “Withdrawn” when the Sponsor or State selects the Withdraw button on the Application Packet screen.
- An Application Packet with a status of “First Level Approved” can be withdrawn.
- An Application Packet with a status of “Approved” packet cannot be “Withdrawn”. If an application has been “Approved”, it can only be “Cancelled” or “Terminated” by the State (see Application Packet section).

Application Statuses

Statuses are used to define the current state of an application packet item. Each application can have only one status at a time.

Pending Validation

- The application has a status of “Pending Validation” when the application has not yet been opened or saved.

Error

- The application has a status of “Error” if it has failed system validation rules. Data entered is maintained.

Not Submitted

- The application has a status of “Not Submitted” when the application is saved without error, but the Application Packet has not been submitted to the State.

Submitted

- The application has a status of “Submitted” when the Sponsor has submitted the Application Packet to the State for review (i.e., the Sponsor has selected the Submit for Approval button).
- Any application that is marked “Not Submitted” is changed to “Submitted”
- The Application Packet becomes read-only to Sponsor users.

Approved

- The application has a status of “Approved” when the State has approved the application (i.e., the State selected “Approved” in the Internal Use Only section of the form).

Denied

- The application has a status of “Denied” when the State has denied the application (i.e., the State selected “Denied” in the Internal Use Only section of the form).
- If the application is “Denied”, it can no longer be modified by the Sponsor. Only the State can change the status of the application.
- When setting the application status to “Denied”, the State should enter a comment in the Comments to Sponsor field explaining the reason the application was denied.

Returned for Correction
The application has a status of “Returned for Correction” when the State has identified errors in the application and has selected “Returned for Correction” in the Internal Use Only section of the form.

When setting the application status to “Returned for Correction”, the State should enter a comment in the Comments to Sponsor field explaining the reason the application was returned.

Withdrawn

The application has a status of “Withdrawn” when the State has selected “Withdrawn” in the Internal Use Only section of the form.

If the Application Packet has ever been approved, there will not be an option to withdraw.

**Claim Statuses**

Statuses are used to define the current state of a claim. Each claim can have only one status at a time.

**Not Eligible**

- The claim has a status of “Not Eligible” when there is an application condition that is preventing claiming for the selected month (e.g., Sponsor or site is not authorized on the Application Packet to operate for the selected month or the Application Packet status is not “Approved”).

**Incomplete**

- The claim has a status of “Incomplete” when the claim has been created in the system but the Save button was never clicked (e.g., timeout, logout, etc.). The system saves the data that has been entered, but no edits have been performed.

**Error**

- The claim has a status of “Error” when the claim has been submitted and has business rule violations.

**Pending**

- The claim has a status of “Pending” when the claim has been saved and on-line edits have been performed, but the claim has not been submitted and validated with additional edits (e.g., 60 days edit, etc.).

- Applicable only when the Sponsor is participating in Sponsor-level claiming.

**Validated**

- This site claim has a status of “Validated” when the site claim has been entered, validated, and contains no errors.

- Applicable only when the Sponsor is participating in site-level claiming.

**Accepted**
• The claim has a status of “Accepted” when the claim has passed all on-line edits and additional edits (e.g., 60 days edit, etc.), and is ready to be included in the payment tracking process.

• The claim can still be modified. A revision is not necessary until the claim is included by the State in a batch payment process.

  o Accepted*

• The claim has a status of “Accepted*” when the claim has been selected by the State for inclusion in the batch payment process; however, the batch process has not run.

• The claim cannot be modified. If the claim requires a change, a revised claim must be submitted.

Processed

• Claim has been fully processed by NDE and has been sent to the State’s Accounting Office for disbursement of funds.
