What is the purpose of NMPDS?
NMPDS addresses the statewide need to build required skills and knowledge teachers need in order to fully teach complex topics in number sense, algebra, geometry, and data analysis.

What does a typical session look like?
Classroom math teachers from across the state are equitably identified to attend trainings held during the school year and summer in multiple sites across the state in order to engage in professional development instructional strategies workshops. Using research-based materials, each series is instructed by highly qualified, seasoned Nebraska-based experts.

The series sessions are implemented through direct instruction, exploratory experiences and interaction between the participants.

How can I apply?
APPLY online at:
http://backyard.esu1.org/fmi/iwp/cgi?-db=SPERegs&-loadframes

Application Deadlines:
Elementary Math Academy – August 15, 2015
Middle/High School Institute – August 15, 2015

Space is limited so priority selection will be made if necessary. Notification of acceptance will be sent.

Nebraska Mathematics Professional Development Series 2015-2016

Elementary Math Academy (3-6)

Middle/High School Institute (7-12)

Modeling

The Eight Mathematical Practices

Through Geometric/Statistical Analysis Thinking
This Professional Development series will:
- Demonstrate the integration of mathematics in STEM activities
- Provide activities mapped to Nebraska and Common Core Math standards
- Integrate geometry and statistical analysis into elementary mathematics instruction
- Use geometry and statistical analysis as a way to illustrate a wide variety of mathematical topics
- Provide differentiated activities and instruction for all grades 3-6
- Encourage student problem solving, representation, reasoning, communication and connections
- Provide lessons and activities integrating STEM technology to mathematics
- Provide effective classroom strategies blending mathematics and other STEM subject areas

**Elementary Mathematics Academy Schedule**
All Sessions meet from 8:30 am – 3:30 pm
Participants are expected to attend ALL sessions for their region.

2015-16 NMPDS Modeling
*The Eight Mathematical Practices Through Geometric/Data Analysis Thinking*

**Benefits for Teachers:**
- Learning Forward Standards for Professional Learning are met
- Mathematics teaching resources
- Networking with other professionals
- Daily participant stipend of $140 per day before payroll tax deduction (non-contract days only)
- Substitute reimbursement of $100 per day (public schools only), if requested by May 1, 2016
- Travel stipend of $50 for those located at least 75 miles from the training site
- NATM Fall 2016 Registration
- Possible credit available (3 graduate credit hours)

**Who may apply?**
- 3 – 12th Grade Teachers
  - Elementary (3 - 6)
  - Middle/High School (7 - 12 Math)
- Special Education/Title I Teachers
- Priority points on application will be given to those from high needs districts; those assigned to SPED and Title I; and those whose students are struggling with achievement on NeSA Mathematics
- Priority points on application given to first year NMPDS applicants
