<p>Strategy Overview and Rationale:</p>	<p>Accordion Paragraphing is a writing strategy where students organize paragraphs that are logical, focused, and supported by evidence.</p> <p>This strategy provides students with practice identifying paragraph parts and shows them what an organized paragraph should include as well as giving them practice writing an organized paragraph.</p>		
<p>Step-By-Step Instructions*:</p> <p><i>During instruction, adhere to a gradual release of responsibility. First, explain and model the strategy for students (ME) and then have the class complete the strategy together (WE). Next, put students into pairs to practice the strategy (TWO), and finally, have the students work independently to complete the strategy (YOU).</i></p>	<ol style="list-style-type: none"> 1. Identify topic sentence, explanation sentence, and example within the model text, highlighting the topic sentence (and summary statement, if applicable) green, explanation sentence (s) yellow, and example red. 2. Students come to the front of the room and mark second model paragraph. 3. Pairs of students identify topic sentence, explanation sentence, and example from cut up sample paragraph. Once complete, students color code sentences. Review as a class when everyone is finished. 4. Before students write their own paragraph, generate a class paragraph as an example based on a shared topic that all students have knowledge of. 5. Each student writes their own paragraph: individually, students write topic sentence (on green paper), explanation sentence (yellow paper), and example (red). Then they tape their paragraphs together. <p>Assessment: Students share paragraphs with class.</p>
