

The Missing Breadcrumb

Like Hansel and Gretel, you should always leave breadcrumbs behind to find your way. A Breadcrumb is a navigational aid used to keep track of locations within a document or program that usually appears across the bottom or top of a document page.

Example: Home page > Section page > Subsection page

Directions: Use the breadcrumbs in the Bread Box to help complete the path.

1. Resources and Technical Assistance > Tools > > Homework > Managing & Organizing the Homework Environment > Build It > Space Diagrams for Homework Time
2. Design Studio > Family Involvement > > Creating a Family Guidebook PDF
3. > STEM > Step into Action > Spark Interest, Widen Horizon > page 2 of 12 > Grades 3-5
4. Courses > > Introducing the Core Elements > page 2 of 6 > Practitioners Tips PDF
5. Coaching Modules > Project-Based Learning > > PBL Project Planner

NOTES:

THE BREAD BOX

Answer Key

1. [Resources and Technical Assistance](#) > [Tools](#) > [Afterschool Toolkit](#) > [Homework](#) > [Managing & Organizing the Homework Environment](#) > [Build It](#) > [Space Diagrams for Homework Time](#)
2. [Design Studio](#) > [Family Involvement](#) > [Tools](#) > [Creating a Family Guidebook](#)
3. [Coaching Modules](#) > [STEM](#) > [Step into Action](#) > [Spark Interest, Widen Horizon](#) > [page 2 of 12](#) > [Grades 3-5](#)
4. [Courses](#) > [Aligning with the School Day](#) > [Introducing the Core Elements](#) > [page 2 of 6](#) > [Practitioners Tips PDF](#)
5. [Coaching Modules](#) > [Project-Based Learning](#) > [Tools to Use](#) > [PBL Project Planner](#)
