

## Targeted Teaching Topic

**Author:** Teresa Walters  
**School:** Loup City Schools

**Summary of Topic:**

Review for Medical Terminology

**Main Curriculum Tie:**

Medical terminology (structure and function).

**Required Materials for Lesson:**

- Blow-up beach ball.
- Permanent marker.

**Background for Teacher:**

Medical terminology (list of terms and definitions).

**Student Prior Knowledge:**

Medical terminology currently studying.

**Intended Learning Outcome:**

Review definitions of medical terminology to increase retention.

**Instructional Procedure:**

- Using a black permanent marker, write medical terms randomly on the beach ball.
- The teacher starts by tossing the beach ball to a student. As the student catches the ball, call out the right or left thumb.
- The student will define the medical term closest to that thumb.
- The student will toss the beach ball to another student and so on.

**How to Measure Outcome:**

Students' ability to recall the medical terminology definitions.
