Overview of Direct Certification

The purpose of Direct Certification is to identify children who are categorically eligible to receive free school meals without the traditional paper application. With Direct Certification, families do not have to fill out a paper application to be processed by the school for determination of eligibility. NDE and the Nebraska Department of Health and Human Services (DHHS) agencies share information with schools through data matching to identify eligible children.

Direct Certification is required for all school districts/systems participating in the National School Lunch Program. In order to receive reimbursement for school meals, all school districts are required to directly certify children that receive SNAP (Food Stamp) benefits. The Nebraska Department of Education (NDE) is matching each school’s student data nightly to SNAP/TANF/Foster Child data supplied by the Nebraska Department of Health and Human Services (DHHS) and posting the results on the CNP website.

Participating schools must submit a current ‘membership list’ including Grades PK-12 students. The public districts and nonpublic systems need to submit a student roster and check the direct certification list three times a year (August 31, November 30, and February 28).

CNP System and Direct Certification

District staff can access the Direct Certified List in the CNP website. The report can be reviewed the following day for schools uploading the ‘membership list’ to the CNP system, e-Scholar® Uniq-ID or NSSRS. The report displays the students who are categorically eligible to receive free school meals. The ‘Q’ column displays how the student qualified. If the student is enrolled in the Supplemental Nutrition Assistance Program (SNAP), the ‘Q’ column = ‘S’. If the student is enrolled in Temporary Assistance to Needy Families Program (TANF), the ‘Q’ = ‘T’. If the student is a Foster Child, the ‘Q’ column = ‘C’. The student can be qualified for one or more DHHS programs. Once a student qualifies for direct certification, the student is qualified throughout the entire school year. The ‘membership list’ is matched with a list from the DHHS data sets every night to determine if a student qualifies for National School Lunch Program (NSLP) Direct Certification. If the student is in multiple DHHS programs, including SNAP, the student is identified as a SNAP participant.
Instructions to Upload Student Files for Direct Certification

Upload to Student Unique Identifier (Uniq-ID)

Instructions to upload a ‘membership list’ in the Student Unique Identifier (Uniq ID) is located at: [http://www.education.ne.gov/nssrs/docs/NSSRS_Steps_Uniqid.pdf](http://www.education.ne.gov/nssrs/docs/NSSRS_Steps_Uniqid.pdf)

Upload Student template to Nebraska Student and Staff Record System (NSSRS)

Direct Certification uses the Nebraska Student and Staff Record System (NSSRS) enrollment data for the initial listing of qualified students in Public Schools. Public district can upload Student and School Enrollment templates to NSSRS. Instructions to upload templates are located at: [http://www.education.ne.gov/nssrs/Resources.html#Instructions](http://www.education.ne.gov/nssrs/Resources.html#Instructions)

Blank templates to upload Student and School Enrollment records are located at: [http://www.education.ne.gov/nssrs/Resources.html#Blank_Files](http://www.education.ne.gov/nssrs/Resources.html#Blank_Files)

Upload CSV Files to CNP System

The Direct Certification Matching system also uses the following CSV file uploads as more timely data entered by both Public and Non-Public Schools to upload data for new students; move-ins, etc.

A template of the file is located: [http://www.education.ne.gov/NS/forms/nslpforms/DC/DirectCert_Template.csv](http://www.education.ne.gov/NS/forms/nslpforms/DC/DirectCert_Template.csv)

Steps To Importing .csv File with Microsoft Excel

**Do not OPEN** the csv template in Excel. You will need to **IMPORT** the file into Excel. When you are done making the corrections you will need to save the file as a CSV (Comma delimited) (*.csv) using the correct NSSRS naming convention.

Below are separate instructions for each version of Excel on how to IMPORT a .csv file.

A. Microsoft Excel 2007-2013
B. Microsoft Excel 1997-2003

**A. Using Microsoft Excel 2007, 2010 and 2013**

*NOTE: The steps below will work with the 2007-2013 Versions of Excel, the program look and feel may be slightly different.*
1. Open the Excel Program
2. Select the Data tab on the Ribbon at the top on the screen.
Figure 1. Microsoft Excel Worksheet Screen

Note: A blank Excel workbook must be open for the 'Data' tab to be available
3. In the ‘Get External Data’ group, click **From Text**.

![Microsoft Excel Ribbon – Import Text File Wizard](image)

**Figure 2.** Microsoft Excel Ribbon – Import Text File Wizard

4. Browse to find the file (.csv or .txt) and click on the **Import** button.

![Import Text File Wizard](image)

**Figure 3.** Import Text File Wizard

**Note:** If the file does not appear; make sure ‘all files (*.*)’ is selected from the file drop down.
5. The Text Import Wizard will appear. Select the Delimited radio button. Click Next.

![Figure 4. Text Import Wizard - Step 1](image)

6. If the file you are importing is comma-delimited (*.csv) un-check the Tab checkbox and check the Comma checkbox. Click Next.

![Figure 5. Text Import Wizard - Step 2](image)
Note: The data in this window should display in columns if the correct delimiter (tab or comma) is selected.

7. Select all of the data in the Data preview window by clicking in the first column, scroll to the last column, holding down the **SHIFT** key on your keyboard and click in the last column.

![Figure 6. Text Import Wizard - Step 3](image)

8. Change the data format to text by selecting the **Text** radio button. Click the **Finish** button.

![Figure 7. Text Import Wizard – Finish](image)
9. The ‘Existing worksheet:’ can be left selected as the worksheet the data will be imported into. Select **OK**.

![Import Data dialog box](image)

**Figure 8. Text Import Wizard - Import Data Message Box**

**Saving Corrections** Once you have the file imported into Excel you can review, make corrections and/or delete records. *(Don’t forget to update your SIS).* Follow the steps below to save the file as a **.csv** (comma separated value) in order to upload to NSSRS Data Manager.

1. Click on **File** *(in 2007 click on the ‘Office Button’)* choose **Save As** from the menu

![File menu](image)

**Figure 9. Saving Corrections Menu Items**

2. Within the **Save As** window choose the folder/location you want to save the file.

3. Click on the dropdown arrow at the end of the **Save As Type** option and choose ‘**CSV (comma delimited)**’
**Figure 10. Saving a CSV file Dropdown Box**

**CSV File Specifications for CNP System**

Column Field Name:

A. **SCHOOL_BUILDING**  
   (The last 3 digits of your County-District-School number: 28-0001-054)

B. **LOCAL_SCHOOL_STUDENT_ID** (Not required – provided for your convenience)

C. **NDE_STUDENT_ID** (NSSRS#)

D. **STUDENT_LAST_NAME**

E. **STUDENT_FIRST_NAME**

F. **STUDENT_GENDER**

G. **STUDENT_DATE_OF_BIRTH**

**Figure 11. CNP System CSV File Layout**

**Student List**

The student data may be stored as a list in a school's database table or spreadsheet. In the new format each student in your database or spreadsheet is represented by a single line in the file.
Within each line, each student information field is entered into columns as indicated below:

The above seven fields are Columns: A, C, D, E, F & G and are REQUIRED by the system. However, Column B: LOCAL_SCHOOL_STUDENT_ID is optional and is only for your schools convenience. The field names are not important but the respective data must be positioned in the correct columns. The student data must be entered into the Excel Spreadsheet Template downloaded from the CNP or Nutrition Services website or exported from your student database into a text file. The file must be saved as a CSV file (more information below).

Each student line must have 7 fields including those that are blank. If you don’t add information in column ‘B’ for your schools Local Student ID, Excel will place a comma in the blank field automatically for you.

**Comma Separated Values Files (CSV)**
Comma-delimited files are plain text files with Comma-Separated Values (CSV) and are used by the Department of Education (NDE) for receiving uploaded student data information. The name of the file is your County-District number followed by a letter indicating the upload you are making for this school year. The first upload is the letter A, the second B, and so forth (See example above). The file is then saved as a CSV file. Here is what the Upload Screen looks like in the CNP website:

![Figure 12. CNP System CSV Naming Standard](image-url)
4. You will get two warning messages from Excel, Click **OK** and **YES**

![Microsoft Excel Warning Messages](image1.png)

**Figure 13. Microsoft Excel Warning Messages**

5. Now you can close the Excel file. It will ask if you want to save the file click **Don’t Save**

![Microsoft Excel after Warning Messages](image2.png)

**Figure 14. Microsoft Excel after Warning Messages**

**Now you can upload the file to the CNP System.**
Accessing CNP System

1. Log into the CNP website at https://nutrition.education.ne.gov

- Information in this system and documents submitted become public record and are subject to disclosure. With few exceptions, you have the right to request and be informed about the information that the Nebraska Department of Education (NDE) collects about you. You are entitled to receive and review the information upon request.

You also have the right to ask NDE to correct any information that is determined to be incorrect. (Reference: Government Code, Sections 552.221, 552.025, and 552.004.) Unauthorized use of NDE information resources is prohibited and results in subject to criminal prosecution.

Figure 15. CNP System Login Page

a. Enter your assigned User ID.

b. Enter your Password.

c. Select Log On.

If this is your first time logging on, the system will automatically require you to change your password.

1. Select a new password and enter it into the box provided.

2. Re-enter your new password for confirmation.

3. Select Save to continue to the Programs page.
2. Click on ‘School Nutrition Programs’ for the National School Lunch Program

![CNP System Program Screen](image)

**View Direct Certification**

Direct Certification is required for all school districts/systems participating in the NSLP. Direct Certification was designed to improve program access and administrative efficiency. The Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance to Needy Families program (TANF), and Foster Children data from the Nebraska Department of Health and Human Services (NDHHS) are used to determine if a student is directly certified for Free meals in the NSLP and School Breakfast Program (SBP).

1. The ‘List Date’ in the upper right corner of the page. It will default to the LAST date we matched any of your students to the DHHS dataset. You can click on the arrow next to the date and select a different date or ‘All Dates Combined’. The display will refresh after changing the list date.

2. ‘Export List of Students to XLS’ will export a spreadsheet of the Direct Certification list based on the List date.

![Qualified Student List Directly Certified as Free](image)

**Figure 19. Qualified Student List Directly Certified as Free Screen**

**Review Possible Matches**

Please review the training video before reviewing the list: [http://www.education.ne.gov/ns/training/NSLP_Training/DC/DCPossibleMatches/DCPossibleMatches.swf](http://www.education.ne.gov/ns/training/NSLP_Training/DC/DCPossibleMatches/DCPossibleMatches.swf).

The district staff can review the DHHS and Student data to determine if student is a match by choosing ‘Match’ or ‘No Match’. A score is assigned to a student to give the probability of the match and the district can use the information when making a matching decision; the higher the probability score the more likely the match. If the district staff chooses ‘Match’, the student is added to the direct certification list. If the district staff chooses ‘No Match’, the student is not
added to the direct certification list and will no longer be displayed in the report. A student added to the Direct Certification list from the Possible Match report has an ‘Undo’ feature. The district staff can remove the student from the list by clicking the ‘Undo’ link if the student was matched by mistake.

1. Click on ‘View Additional Possible Matches’ report should be reviewed for students that may qualify for Direct Certification.

   **Note:** If a student has a Score below 80%, the student is most likely not a match and further investigated should be conducted before choosing the ‘Match’ option.

---

**School Nutrition Programs**

**Qualified Student List Directly Certified as Free**

---

**Figure 20. Direct Certification - View Additional Possible Matches Screen**

2. Review the ‘Student Information’ record (gray shading) and the ‘DHHS Information’ record (no shading). The First Name, Last Name, Gender, and DOB should be review. The ‘City’ and ‘Zip Code’ may be present if information was sent to NDE. Multiple records can be selected at one time.
   
   a. If the DHHS and Student record is a match, click the ‘Match’ checkbox.
   
   b. If the DHHS and Student record is not a match, click the ‘No Match’ checkbox.

3. Click on ‘Update’ once the ‘Match’ and ‘No Match’ checkboxes have been selected.
4. Click on ‘Continue with Update’ button to add the student(s) to the Direct Certification List.

5. After the students are added to the Direct Certification list, you can click on ‘Return to Match list’ to review the ‘View Additional Possible Matches

Reversal Confirmation

The possible match record can be reversed and removed from the Direct Certification List.
1. Click on the ‘Undo’ link
2. Give the reason for the removal then click on ‘Continue with the Reversal’ to remove the student from the Direct Certification list.

Figure 25. Reversal of Accepted Possible Match Screen - Step 2
Upload Student File

The user can uploaded a CSV file into CNP System to match a student file to the DHHS data set.

1. Click on Upload Student file,
2. Browse to the csv file with the ‘CSV File Layout for the CNP System’ and select the file.
3. Click on the ‘Upload’ button.

1. Click on Upload Student file,
2. Browse to the csv file with the ‘CSV File Layout for the CNP System’ and select the file.
3. Click on the ‘Upload’ button.

4. Once the upload is complete, click on ‘View Last Uploaded Data’.
Figure 27. CSV file Information Screen

5. If the data needs to be resubmitted, the data can be removed using the ‘Delete’ button at the bottom of the page.

Figure 28. Deleting data from uploaded CSV file(s) Screen

Enter Individual Students
The Enter Individual Students (SILS) gives you the opportunity to check individual students and if you do not get an immediate match, you can add additional identifiers to ‘raise the score’ and increase the probability of finding a match. This is the Interactive Lookup system or SILS. If you get a match and ‘Accept’ the match, you will be adding that student to your Direct Certification list. This is the interactive screen to input student data for matching against DHHS data.

Remember if you find a match and accept it, that information is placed in the Direct Certification list. Therefore, we need some basic information in order to eliminate duplication and ensure that the data is ‘Clean’. Two pieces of information are necessary for those purposes.
Figure 29. Enter Individual Student Screen

<table>
<thead>
<tr>
<th>Selecting this button...</th>

</tbody>
</table>

1. Enter the Student information. The identification will take place using the following information.
   a. School Building Number, the last 3 digits of your County-District-School number.
   b. UniqID or NDE Student ID (State ID) number.
2. After inputting those required field you can click on the ‘Submit for Processing’ button at the bottom of the page or you can add additional optional identifiers.

3. Additional information can be added to increase the score

| Additional Optional Identifiers |
|---------------------------------|------------------|
| Student DHHS Case#              | Local Student ID: | (1)  |
| Student Other Names: (Nicknames, Middle Names, Maiden Names, Married Names, etc.) | (2)  |
| Student Addresses:              |                  | (3)  |
| Street Address                  | City             | State | Zip Code |
| (1)                            |                  |       |
| (2)                            |                  |       |
| (3)                            |                  |       |
| Primary Caregiver: First Name: | Last Name:       |
| Primary Caregiver Other Names: (Nicknames, Middle Names, Maiden Names, Married Names, etc.) | (1)  |
| Secondary Caregiver: First Name: | Last Name:       |
| Secondary Caregiver Other Names: (Nicknames, Middle Names, Maiden Names, Married Names, etc.) | (1)  |

Figure 30. Enter Additional Student Information Screen

4. After submission, the processing may begin within a minute and may take up to several minutes of actual processing time.

5. Click on the ‘View Processed List’ button, the ‘Certification Results’ field displays the progress.
   a. ‘Waiting to Process’, your record is waiting for the next available slot to begin processing. (Click F5 to refresh the display).
   b. ‘Processing’, the record is in the process of matching with the DHHS record.
   c. The completed process displays ‘Match’, No Match’ and Possible Match and the ‘Match Score will display a percentage.
   d. ‘View’ hyperlink which will return you to the results screen.

Note: Below a certain threshold, the system will return a ‘No Match’ with the score. Above that threshold, you will receive a ‘Possible Match’ or ‘Match’
On this screen you may see that even though it is not 100% match that it is the same person. You can then check the DHHS person that matches your student and clicking on the [Accept] button. This will place that student into your Direct Certification list.

**Match Result: 42.19 %**

<table>
<thead>

</tr>
</tbody>
</table>

Accept  Do Not Accept

**Figure 31. Individual Student Match Result Screen**

If you get a ‘No Match’ the system will still show you the closest possible matches that fall below our established threshold. If you see that one of these are in reality your student the only way you can add them to your list is to begin a ‘New Search’ and put in additional identifiers to bring the match ‘Score’ up to over 61%.

**Figure 32. Individual Student Match List Screen**

There are times that a school may get this message in which the match is based on the NDE Student ID being already in a schools Direct Certification listing. There are two additional items of information for you to be aware of. 2 Asterisks means that the student has been added to your Direct Certification list when you clicked the ‘accepted’ button. The Qualified Column (Q) will then show with which program the student is matched in the DHHS database. The codes are: S = SNAP, T = TANF, C = Foster Care. It is possible that more than one qualifier may be listed.
