

Targeted Teaching Topic

Author: Kim McCorbindale

School: Laurel-Concord

Summary of Topic:

Anatomy Terms

Main Curriculum Tie:

Medical terminology and anatomy.

Required Materials for Lesson:

Background for Teacher:

Anatomy body terms.

Student Prior Knowledge:

Anatomy body terms.

Intended Learning Outcome:

Increased retention of anatomy general terms.

Instructional Procedure:

- Give students (in small groups) 10 minutes per day for 3 days to make up their own song using the tune “Head, Shoulders, Knees and Toes” with assigned words.
- On the 4th & 5th day of the week during the first 10 minutes of class, students take turns performing their song.

How to Measure Outcome:

Project (song) with assigned words sung to class. Quiz over assigned words.
