

Targeted Teaching Topic

Author: Lindy Fernau
School: O'Neill Public Schools

Summary of Topic:

Hospice Care

Main Curriculum Tie:

Academic foundations.

Required Materials for Lesson:

- Computer or lab notebook.
- Research materials.

Background for Teacher:

Create a blog for students to post their findings (or they can put the information in their lab notebook).

Student Prior Knowledge:

How to research.

Intended Learning Outcome:

Investigate the care of the terminally ill.

Instructional Procedure:

- Use the first 10 minutes for individual research. What is hospice care?
- Discuss in class:
 - What is it?
 - Who needs it? Which individual do they work with?
 - Available in community?
 - How do you contact the agency?

How to Measure Outcome:

Participation in discussion and/or submit blog on their findings.
