

Targeted Teaching Topic

Author: Sue Jurgens
School: Madison High School

Summary of Topic:

Encouraging/ Inquiring Minds in the Classroom

Main Curriculum Tie:

Health careers related to research. Encourage curiosity.

Required Materials for Lesson:

- Paper and pen.
- Laptop.

Background for Teacher:

Teacher will learn more about the students and the questions on their mind.

Student Prior Knowledge:

Writing skills.

Intended Learning Outcome:

The student will be able to express an inquiry they have in written form.

Instructional Procedure:

- What have you wondered about concerning the world of medicine and health?
- What are you questioning about possible research ideas in health care?

How to Measure Outcome:

Discussion of the various questions. Where do we go from here? How can this question be researched?
