

## Targeted Teaching Topic

**Author:** Kerri Conn  
**School:** Osmond Community Schools

**Summary of Topic:**

Introduction to Medical Terminology Chapter

**Main Curriculum Tie:**

To begin a unit, to start learning word parts, and at end of unit as a review.

**Required Materials for Lesson:**

Student note cards for word parts or computer generated cards made by teacher.

**Background for Teacher:**

Teacher will need to know word parts and their meanings.

**Student Prior Knowledge:**

**Intended Learning Outcome:**

To help learn and reinforce use of word parts to figure out definitions of medical terms.

**Instructional Procedure:**

- To begin a chapter/unit or as a review, pick a certain number of terms (depending on when in chapter/unit to review).
- Give students word part or meaning as ask for the opposite.

**How to Measure Outcome:**

Understanding meanings and getting quiz and test answers correct.
