WEEKLY

1 MILLION CUPS

Contact Name: Dr. Dale Eesley

Email: deesley@unomaha.edu

Phone Number:

About: <http://omaha.sites.1millioncups.com/>

"1 Million Cups (1MC) is a simple way to engage entrepreneurs in communities around the world. Each week, the 1MC program offers two local entrepreneurs an opportunity to present their startups to a diverse audience of mentors, advisors, and entrepreneurs. Presenters prepare a 6 minute educational presentation and engage in 20 minutes of feedback and questioning after they present. Entrepreneurs gain insight into possible ways they can improve their businesses, gather realtime feedback, connect with a community that truly cares about their progress, and walk away feeling like they have advanced their business. The audience also learns a great deal from the presentations. Whether this is through passively listening or deeply engaging with the entrepreneurs, there is much to learn every week from these dynamic and diverse communities. The program takes place every Wednesday morning from 9:00-10:00am in locations all around the country. Visit our "Find an Event" page for a list of locations. Each city runs the program semi-autonomously, and gather in coffee shops, co-working spaces, and even TV stations."

STARTUP WEEKEND LINCOLN

Contact Name:

Email: Lincoln.Startup.Weekend@gmail.com

Phone Number:

About: <http://lincoln.startupweekend.org/>

"Startup Weekend is a global grassroots movement of active and empowered entrepreneurs who are learning the basics of founding startups and launching successful ventures. It is the largest community of passionate entrepreneurs with over 1800 past events in 120 countries around the world in 2014.

The non-profit organization is headquartered in Seattle, Washington but Startup Weekend organizers and facilitators can be found in over 200 cities around the world. From Mongolia to South Africa to London to Brazil, people around the globe are coming together for weekend long workshops to pitch ideas, form teams, and start companies.

All Startup Weekend events follow the same basic model: anyone is welcome to pitch their startup idea and receive feedback from their peers. Teams organically form around the top ideas (as determined by popular vote) and then it's a 54 hour frenzy of business model creation, coding, designing, and market validation. The weekends

culminate with presentations in front of local entrepreneurial leaders with another opportunity for critical feedback."

STARTUP WEEKEND OMAHA

Contact Name: Corey Spitzer

Email: coreyspitzer@gmail.com

Phone Number:

About: <http://www.up.co/communities/usa/omaha/startup-weekend/5716>

"**Startup Weekend** is a 54-hour event in which developers, designers and marketers pitch ideas for new products or companies, form small teams and work over the weekend to validate and build (hopefully functional) prototypes. It's a great opportunity to find out very quickly if your idea is worth pursuing, find others to build it with you, and possibly launch something in just a few days. Some teams will continue after the event, many will fail, but everyone learns something and walks away with meaningful relationships. "

THE OMAHA WEB DESIGN MEETUP

Contact Name: Nate Smith

Email:

Phone Number:

About: <http://www.meetup.com/Omaha-UX-Group/>

"**Omaha web design**, SEO (Search Engine Optimization), social media and other online and affordable marketing things are easy for people to come by... when you have thousands of dollars to throw at them. But for most small business owners, entrepreneurs, bloggers and regular people wanting to make a decent website for themselves, idea or cause - we need to learn to do it ourselves. This group will be a bit less formal - in that there will only be a short presentation at the beginning, then people can spend the rest of the time talking to whomever they'd like to learn from or network with. If possible, we'll use the forums a lot more than other meetups usually do as well, so people who can't make events can still learn, and conversations started in person can continue in a place where other people can benefit. No self-promotion allowed on the forums and in comments - zero tolerance for spamming. You're more than welcome to network - but only drift into promoting yourself and/or your business or cause at the events, in person."

Email: grant@canworksmart.com

Address: 1209 Harney St #200, Omaha, NE 68102

About: <http://canworksmart.com/>

"We help businesses sort through their data and fix their problems . . . Because it makes our brains happy. Oh, it makes our customers happy, too — make no mistake. Our customers love that we find real meaning in their data. That we suggest solutions that actually work. But that's not why we do it. *We do it to feed our brains.* When we start a project, we start with piles and piles of seemingly nonsensical information. Customer data, sales data,

employee data. Stuff that's been piling up at a business, probably being forgotten. And then we find patterns in that data. Once we have those patterns, we can practically predict the future. We can find solutions to almost any kind of business problem.

That feeling? Of taking something chaotic and making it make sense? Of actually fixing something that's broken? Of stepping away from a project, a business, and knowing that we've made it work better?"

Address: 1624 Mike Fahey St. - Floor 2 Omaha, Ne 68102

About: <http://morerunway.com/Startups>

"Businesses who want to be successful in today's marketplace MUST become laser focused on ONLY the things that matter. While most executives and startups understand this, we've seen first hand that it is extremely difficult to execute. Our job is helping our clients identify these "Mission Critical" tasks and then create a strategy around how to ramp them up. This is what we do."

We go about accomplishing this with a few different offerings and services, depending on what stage we enter our client's business. Everything from strategy, conversion optimization, content marketing, public relations, etc but all of our services are focused around getting our clients more conversions, more coverage and more customers. We are not an "agency". We drive business, not buzz and that's how we approach our work. Our clients find themselves more focused with more time to work on what is truly important to them and your business."

"**First National of Nebraska** is a multi-state holding company headquartered in the heart of downtown Omaha, with a strong heritage of banking excellence that dates back more than 150 years.

For a century and a half, First National Bank, a subsidiary of First National of Nebraska, has set the standard for outstanding customer service coupled with some of the most innovative financial products in the industry.

When it opened in 1857, First National was a local bank that served only Omaha and the surrounding communities. Today, First National is the largest privately owned banking company in the United States, with locations in seven states and more than 6.6 million customers across the country. First National of Nebraska and its affiliates have \$17 billion in managed assets and over 5,000 employee associates.

We've come a long way in the last century and a half. As you browse through our site, we think you'll understand why we've been so successful – and why we're so excited about what the future holds for our customers and our organization."

About: <https://medium.com/@theventurehouse>

The Venture House represents the interest and passion for the worlds of Venture Capital, Startups and Economics shared by three recent college grads in the Omaha Startup scene.

This is where you'd usually be linked to an article showcasing Omaha as the #1 City to Build a Startup, as one of the most family friendly cities in America, or as the metropolitan area with the most Fortune 500 companies per capita in the country. But we've joined the startup scene for a different reason. To lay the groundwork for the next 15-20 years.. so we won't have to point out the Midwest's startup success. You'll know.

We're passionate about bringing together interesting people, cool projects, and remarkable ideas. We started The Big Plate as an exclusive, membership community for entrepreneurs, artists and innovators to connect, collaborate, and create. Think of it as a virtual think tank, a trusted advisory board, and your on-demand education center for fresh ideas and good conversation. We help you solve two core problems: getting started and keeping going. The community gives you a seat at the table to ask questions, share stories, and build connections.

So, if you're working on a startup and want to connect with other diverse leaders, we've built this collaborative kitchen for you. In fact, The Big Plate was created as a the direct result of a table talk designed to brainstorm and incubate new ideas. We know it works and we're here to help. If you want to be a part of this grand experiment to see what happens when smart, talented folks share and learn together, join today or feel free to contact us anytime to chat or learn more. "

"Building a Creative Co-working / Art Gallery in Omaha Nebraska. Starting a *co-working* space was actually a bit of an accident. Our art studio (*Luke Armstrong and Molly Nicklin*) and RenMind's office was in Benson. It was a basic, kind of rough space with alley access and we were looking to upgrade. I was up late looking at craigslist and commercial real estate sites and saw that the old grocery store up on 40th and California was for sale. Molly and I both got really excited and knew that it would be ideal space for us with room for some friends."

Address: 800 P St. Lincoln, NE 68508

About: <http://www.millcoffee.com/>

"What we do know is that during a bitter Nebraska winter in the mid 1970's the folks at a local bike shop had an idea. The everyday "shop" coffee they served left much to be desired, so why not improve on it and at the same time generate a bit of cold weather revenue for the small bicycle shop? This quest turned into something of an obsession and soon their "shop" coffee was causing quite the stir. To these bicycle shop guys, this highlighted a distinct lack of gourmet quality coffee in Lincoln, and coupled with the increasing popularity of their coffee, they decided to open a small gourmet coffee and tea store adjacent to the bike shop. Thus began the first version of what we know as The Mill."

"We know software. It's our passion, our love. In fact, the only thing we love as much as software is this great state of Nebraska. And we're looking for more people like us—software-loving Nebraska nerds who want to build a life around this unique passion.

Nebraska Global isn't your typical venture capital fund. Unlike most VC firms, we want to focus on building a sustainable tech environment by helping establish healthy, hearty software businesses within the state and not focus solely on a 30x return and pre-determined exit strategy. Our mission is to build profitable companies, but it isn't to squeeze every last dollar out of entrepreneurs or "spray and pray" (We promise. Read our mission). We're just nerds with money who want to see more of both stay in Nebraska and prosper. Grow your business here. Raise your family here. Develop here."

About: <http://www.turbineflats.org/>

"The **Turbine Flats** Project is comprised of three major elements.

1.The Property – At 2124 Y St., Turbine Flats is an old manufacturing building that has been converted to office space. The name "Turbine Flats" is a combination of "Engineered Efficiency" and a metropolitan open and minimalist architectural feeling. With an initial 11,000 sq. ft. of developed collaborative space, 3,000 sq. ft. of workshop space, and room to grow, the Turbine Flats Project is what Lincoln needs, where we need it, and it's here now.

2.The Non-Profit– The Turbine Flats Project will be successful because it has one mission: "To create a robust, self-sustaining, collaborative environment for small and start-up businesses to bring their products and ideas to market." The non-profit focus is necessary to ensure that our motivation is not one of profiteering but of genuine interest and commitment to the furtherance of entrepreneurialism in Lincoln.

3. Community- We aim to develop a supportive network of local startups and budding entrepreneurs who assist one another in furthering their individual missions. "

About: <http://law.unl.edu/eclinic/>

"**The Entrepreneurship Clinic** opened in January 2013. Clinic students advise and represent start-up business clients in a variety of early-stage legal matters, including entity formation, contract drafting and review, intellectual property protection, real estate, financing, regulatory, compliance and other transactional matters. Students will develop practical skills necessary for the effective practice of transactional law, gain an understanding of entrepreneurs as clients and the interplay of legal, ethical and practical considerations that are required to effectively advise them, and develop relationships with individuals and organizations in Nebraska's entrepreneurship community applicable to such student's professional and educational goals.

The Entrepreneurship Legal Clinic at the University of Nebraska College of Law is a student-based clinical program designed to provide representation and counsel to startup business clients on a variety of early-stage legal issues. Under supervision of clinical faculty, students participating in the Clinic will interact directly with clients to provide a wide range of business law issues. By assisting entrepreneurs when they need help the most, the Entrepreneurship Legal Clinic provides Nebraska Law students hands-on opportunities to make a difference in the Nebraska business community."

"The Center for Rural Research and Development (CRRD) creates, facilitates, and partners with other organizations to offer multiple networking and mentoring events year-round so Nebraska Entrepreneurs can share ideas, contacts, and resources. The CRRD supports entrepreneurs through the following three focus areas: education, mentoring and networking, market research.

UNK's Program for Entrepreneurship and Innovation in the CRRD espouses the grow-your-own philosophy of economic development, known as Economic Gardening. According to a recent presentation by Bo Fishback of the Kauffman Foundation, two of the most misunderstood and under-valued concepts essential to entrepreneurship include markets and networks. CRRD provides direct service to entrepreneurs and start-ups in the form of general business counseling and primary market research."

"**Nebraska Global Investment Company, LLC** is a venture capital and private equity firm specializing in investments in startups, outright and minority acquisitions, and spin-offs. It seeks to invest in software companies. The firm focuses on investments in the Midwest with a focus on Nebraska. Nebraska Global Investment Company, LLC was founded in 2010 and is based in Lincoln, Nebraska."

"We know software. It's our passion, our love. In fact, the only thing we love as much as software is this great state of Nebraska. And we're looking for more people like us—software-loving Nebraska nerds who want to build a life around this unique passion."

Nebraska Global isn't your typical venture capital fund. Unlike most VC firms, we want to focus on building a sustainable tech environment by helping establish healthy, hearty software businesses within the state and not focus solely on a 30x return and pre-determined exit strategy. Our mission is to build profitable companies, but it isn't to squeeze every last dollar out of entrepreneurs or "spray and pray" (We promise. Read our mission). We're just nerds with money who want to see more of both stay in Nebraska and prosper."

"**Dundee Venture Capital** invests \$50,000-\$750,000 in high-growth, early-stage technology companies. We will invest across industries in founding teams we believe in, but shy away from life sciences and hardware."

We like to invest in what we know. For that reason, most of our investments are in e-commerce, B2B SaaS, or consumer networks.

We aren't just about funding startups. We want to build lasting partnerships with our founders. We choose opportunities based on our belief in the business and the founders alike, so we're there every step of the way. Sometimes what we have to offer is tough love. Other times we're a trusted resource. But every time, we're your biggest supporter.

We also like to keep our money in the Midwest. From Boulder to Kansas City and Chicago to our hometown of Omaha, we invest in startups from a region that's equally as innovative but historically ignored."

TREETOP VENTURES

Phone Number: (402) 505-7195

Email: fish@treetopventures.com

Address: 14680 W Dodge Rd # 2, Omaha, NE 68154

About: <http://www.treetopventures.com/>

"The mission of **Treetop Ventures** today is to provide very personal, hands-on wealth/asset management and business consulting services to individuals and small companies in the Omaha area.

Established with the idea of providing top-notch consulting services to start-up companies, the Treetop name has its roots in an old Fisher family expression that defined anything that was 'top of the line'. Whether a nice home, a Rolex watch, a perfectly executed glass of sweet tea or a fine suit, if the product or service delivers a wonderful, best-in-class experience, "treetop" defines it, and what we do for our customers every day, in every way.

Treetop founders, Bill Fisher, Tom Boje and Dwight Hanson, have roots in the Omaha community. Dwight and Bill both worked at public accounting firms in their early years before meeting at ACI, which is where they met Tom – all three worked together to substantially grow the company through the late 90's. Together, they invested in several other businesses and became part of a nucleus at a local start-up. From the relationships they established in their previous companies, all three were part of an informal network of entrepreneurs... many of which came to them seeking advice on a variety of business issues. They decided to start a company to provide services to individuals and start-up companies. Their first customer was someone from their past that was looking to establish a family office for their diversified holdings. Eventually, they branched out and began working with several start-up companies to consult on fundraising and basic financial models."

About: <http://www.ideationventures.com/>

"**Ideation Ventures** was founded in 2005 by John Gustafson. The mission of Ideation Ventures is provide unique services to assist the managers and investors of private, high growth and middle market companies with the planning and execution of strategic transactions.

These services are based on our founder's experience from all sides of the "deal table", including assisting in the management of two early stage venture capital funds, running a holding company focused on healthcare technology, and serving as CEO of an operating company acquired by a billion-dollar publicly traded firm. These experiences covered the information technology, healthcare, manufacturing, distribution, financial services, real estate, and transaction processing industries. In addition to dozens of venture financing rounds, his portfolio companies underwent numerous liquidity events - ranging from public offerings to acquisitions by public corporations and orderly liquidations of underperforming assets. John has an MBA in management and strategy from the Kellogg Graduate School at Northwestern University. He also graduated from the University of Nebraska – Lincoln with a degree in Accounting and earned the Chartered Financial Analyst (CFA) designation. John holds the Series 62, 63, and 79 securities licenses and is a registered representative of M&A Securities Group, Inc., which is not an affiliate of Ideation Ventures. John was named to M&A Advisor's annual "40 Under 40" list in the Dealmaker category as recognition for achieving a high level of success in the mergers and acquisition, financing, and restructuring industry.

A strategic relationship is in place with CFO Systems, a firm that provides interim and timeshare CFOs and Controllers to middle market companies throughout the United States. This relationship provides additional resources to Ideation Ventures clients that have short-term needs with turnaround situations, filling temporary personnel gaps, or rapidly preparing for a pending transaction, as well as long-term needs for timeshare executives. About: <http://javlincapital.com/>

"**Javlin Capital** is the brain child of Rob Johnson and Jack Lavin. In 2009, following the credit crunch, many small-to-medium-size businesses were forced to pull back and sacrifice growth, and sometimes solvency. Rob, Jack, and a small group of investors recognized opportunity to provide liquidity at a make-or-break time, so they crafted an investment approach combining a unique mix of financial resources, creativity, and operational expertise. They recruited a select group of tenured professionals, set up shop in a small office, and went to work.

Since incorporating in 2011, Javlin Capital has grown to more than 50 professionals—working from Omaha, New York City, Phoenix, Chicago, Minneapolis, and Dublin, Ohio—deploying more than \$300 million in a variety of asset classes. Turns out, there are many small-to-medium-size businesses who need capital and long-term partnerships. And so far, we've only scratched the surface."

About: <https://www.southeast.edu/Entrepreneurship/BusinessIncubationAndCoaching/>

"**A business incubator** is exactly what the name implies - a place for a business to grow during its beginning stages. Incubation is designed to provide support, access to resources, and a community environment for entrepreneurs.

In our resident Incubator, business owners have their own offices, shared use of copy/fax/scan machine, and access to our business coaches and peer networking - all in a professional setting. During the three-year period, Incubator business owners are required to continue their education and or training, meet with our business coaches, and write a comprehensive business plan.

A business owner may also choose to participate in our virtual incubation track. Business owners enjoy the same benefits and are held to the same commitments as in the resident Incubator but do not lease office space on-site. Coaching appointments can be done on-site, over the phone/video conference, or at the owner's place of business. "
