Activities and Projects Updates Summary

NETForce Meeting Date: May 1, 2015

Please provide a bulleted synopsis of major activities and projects in which you or your organization are engaged that you would like to share with the group.

- **ESI (Entrepreneurship Investigation)** Digital curriculum is in the works --- Looking for pilot sites for ESI On-line for the fall of 2015. Roll out time for sale will hopefully be January, 2016. ESI unit books will still be available for those not wanting a digital curriculum. ESI for camps will remain in book format. ESI CD materials will be incorporated into new digital ESI along with web links, videos and additional activities!

- **Blueprint** – Just completing the first year in schools. Evaluations are coming back and feedback is very good.

- **Community Vitality Initiative Youth and Young Adult Team** split into three areas:
  - Civic Engagement
  - Career and College Readiness
  - Youth and Young Adult Entrepreneurship

  Nancy leads the Youth and Young Adult Entrepreneurship team – now called NEAT (Nebraska Entrepreneurship Acceleration Team). The team has met and developed a listing of products and plans they would like to move forward on. Second team meeting is planned for May 13. Anyone interested is welcome to join 😊

- **Facilitation Guide developed by CVI team** -- video, activity and resource series which can be used for leadership development and to help users develop and use new facilitation tools in their leadership capacities. This will be an on-line guide. Many extension educators came together in February to “test drive” the new facilitation tools. This will be a great resource.

- **ECAP (Entrepreneurial Communities Activation Process)** is going strong. We are completing our 8th pilot with Gage County. Other pilot communities were Central City, Alliance, Elgin, Ashland, Hartington, Thayer County and North Platte. The eight groups came together for a full day “ECAP RECAP” event in York to share what they learned and what they are accomplishing as a result of the ECAP process. The ECAP team meet last week to refine and re-work the process and will be putting out an on-line presence with tools and tips that can be utilized by communities in the future.
