How to Fold An Origami Crane

In the following pages, You will learn how to fold an origami crane.
Folds You'll Need to Know For This Project
Valley Fold

Inside Reverse Fold

Petal Fold

Start out with a flat sheet of paper.

Step 1

Valley fold in half along one diagonal.
Step 2

Unfold, then valley fold the other diagonal.

Step 3

Unfold, then flip over the paper.

Step 4
Valley fold vertically.

Step 5

Unfold, then valley fold horizontally.

Step 6

Form into preliminary base

Step 7

Step 8

Folding the upper layer only, fold the lower raw edges to the center crease. Flip over and repeat on other side.

Step 9

Fold down the upper point along the edge of the flaps you just folded.

Inside reverse fold each tip upwards.

Step 10

Step 11

Inside reverse fold the point on the right to form the head of the crane.

Step 12

Valley fold each upper point down to a 90 degree angle to form the wings of the crane. Congratulations! You've completed your origami crane! Maybe you should try folding 1,000 of them, to have a wish granted.

Informational Video

Here's a video showing you the process of folding a paper crane.
