

# **After School Care Snacks In the National School Lunch Program**

## **FACT SHEET**

### **Eligible Programs:**

To be eligible to qualify for reimbursement under the School Lunch Program, after school care programs must meet the following three criteria:

1. A school district or residential childcare facility (RCCI) which participates in the National School Lunch Program (NSLP) must operate the after school care program. The program does not have to use the school district's personnel or regular school facilities. The school district or RCCI must retain final administrative and management responsibility for the program, including the program site. The school district or RCCI must be the party that enters into the agreement with the Nutrition Services at the Nebraska Department of Education (NDE) and must assume full responsibility for meeting all program requirements.
2. The purpose of the program must be to provide care in after school settings. The program must be organized to provide children with regularly scheduled activities in a setting that is structured and supervised. By "regularly scheduled" it does not mean the program must occur daily. Moreover, while eligible programs would not need to establish formal enrollment procedures, they must have a means of determining if children are present on a given day, such as a roster or sign-in sheet.
3. Eligible programs must include educational or enrichment activities in a supervised structured environment. Any extracurricular activities such as the school choir, debate team, and drama society, et al. can qualify to participate under this provision only if their basic purpose is to provide after school care as defined above. It must be emphasized that under no circumstances can organized athletic programs engaged in interscholastic sports be approved as after school care programs under this provision.

### **Eligible Sites:**

Schools qualify for snack reimbursement based on the numbers of paid, free and reduced-price children enrolled in the school.

### **Snacks Claimed as Free based on "Area Eligibility"**

Sites located in areas served by a school or in a RCCI, in which at least 50 percent of the enrolled children are eligible for free or reduced price meals:

- Are eligible to receive reimbursement at the free rate for snacks served to all children eligible for snacks, regardless of each individual child's eligibility for free or reduced price lunches.
- Must document, using the most recent October claim data, that the site is located at a school, RCCI or in the attendance area of a school where at least 50 percent of the enrolled children are eligible for free or reduced price meals.
- Cannot charge children for snacks.

## **Snacks Claimed as Free/Reduced/Paid based on “Non-Area Eligibility”**

Sites located in areas served by a school or in a RCCI in which less than 50 percent of the enrolled children are certified eligible for free or reduced price meal benefits:

- Must count snacks and claim reimbursement by type: free, reduced price and paid.
- Cannot charge children for snacks claimed at the free reimbursement rate.

Non-Area Eligible Sites have the option of implementing either a Pricing Program or a Non-Pricing Program.

In a Pricing Program - students are charged a fee for the snack based on their eligibility status; free eligible students receive their snack at no charge, reduced price eligible students may be charged no more than 15 cents and paid students pay the price determined by the school/facility.

In a Non-Pricing Program - all students receive their snacks at no separate charge and snacks are claimed in their respective categories - paid, free, and reduced.

### **Reimbursement:**

Schools may claim reimbursement for one snack, per child, per day. Children are eligible to participate through the age of 18, and if a child’s nineteenth birthday occurs during the school year, reimbursement may be claimed for that student during the remainder of the school year.

### **Times of Operation:**

Snacks cannot be reimbursed in programs operated before or during the child’s school day. Schools and RCCIs are not eligible to receive reimbursement for snacks served on weekends or holidays, including vacation periods. Sites located in areas served by a school or in a RCCI would follow the public school’s calendar.

A child’s eligibility is based on when their scheduled school day ends, and not on whether or not the school continues in session. For example, if a kindergarten program ends at noon but the children remain in school under a care program as described above, snacks served to these children may be reimbursed under this provision. The same would be true of older children enrolled in schools that have split sessions. If children remain on-site to participate in an approved after school care program, they may receive reimbursable snacks even though the school continues to operate later into the afternoon.

### **After School Care Snack Meal Pattern:**

Snacks served under this provision must meet the meal pattern requirements for snacks set forth in 7 CFR section 210.10. See the attached “After School Snack Meal Pattern Minimum Quantities.” In order to be reimbursed, the snacks must contain at least two different components of the following four: a serving of fluid milk, a serving of meat or meat alternate, a serving of vegetable(s) or fruits(s) or full strength vegetable or fruit juice, a serving of whole grain or enriched bread and/or cereal. Daily production records documenting what food components have been served to meet snack meal pattern requirements are required. See the attached “Daily Snack Production Record.”

### **Additional Requirements:**

School districts and RCCIs must notify Nutrition Services at NDE of their intent to participate in the after school snack program. An explanation of the educational or enrichment component of the program must also be submitted to Nutrition Services. Each program site that is eligible to participate in the after school care snack program must complete the appropriate section of both the system and site applications of their annual on-line agreement.

### **Record Keeping:**

At a minimum, school districts and RCCIs participating under this provision must maintain the following records.

- If all meals will be claimed free, the program site must be located in an area served by a school or RCCI in which at least 50 percent of the enrolled students are eligible for free and reduced price meals as indicated on the most recent Annual Membership Report.
- For all other sites, documentation of free and reduced price eligibility for children whom free and reduced price snacks are claimed must be maintained.
- Meal counts:
  - Snacks claimed as Free based on Area Eligibility:
    - ✓ Total count of snacks served daily for each site qualifying for free reimbursement for all children.
  - Snacks claimed as Free/Reduced/Paid based on Non-Area Eligibility:
    - ✓ Daily snack count by individual student name. See attached Monthly Snack Participation for Snacks Claimed as Free/Reduced/Paid.
- Documentation of individual children's attendance on a daily basis.
- Completed Daily Production Records to document compliance with meal pattern requirements.
- On-Site Review for After School Care Snack Programs (2 required annually). See attached on-site review form.

## On-Site Review Summary for After School Care Snack Program

Each site operating an After School Snack Program must be reviewed by the school district or residential childcare facility (RCCI) two times per year under 7CFR 210.9(c)(7). The first review must be completed by the school district or RCCI during the first four weeks the snack program is in operation. The second review can be any time during the remainder of the school year. If the school district or RCCI has more than one after school care snack program each site must be reviewed twice. The completed reviews should be kept on file at the school district or RCCI with other records pertaining to the After School Care Snack Program.
