

## Targeted Teaching Topic

**Author:** Donna Kingston  
**School:** Arlington High School

### Summary of Topic:

Ticket to Class

### Main Curriculum Tie:

Students learn vocabulary as related to health topics.

### Required Materials for Lesson:

- Small 4"x6" pieces of construction paper.
- 4 chairs at front of room.

### Background for Teacher:

Know meaning of terms used in class.

### Student Prior Knowledge:

Could be the result of a reading assignment or a list of new words.

### Intended Learning Outcome:

Learn and remember meaning of words. Often students will read and not bother to look up meaning of words they don't know.

### Instructional Procedure:

- Have 4 students at a time come to front of room and sit on chairs.
- Give each student a word written on the front of the construction paper, folder in half lengthwise. Word examples: cytogenetics, cytoprep, histology, histopathology, haematology, etc.
- Only one writes the real meaning inside. The remaining students must make up a definition.
- Students in class must write down the student they think gave the correct meaning.

### How to Measure Outcome:

Test students when finished with this activity.
