NASA Summer of Innovation: Robotics Unplugged

Education resources tab has lesson plans and a themed camp called Robotics Unplugged. The Robotics Unplugged camp has links to supporting videos, websites to continue student learning and NASA sites with robotics information.

First Lego League

The best way to summarize *FIRST* LEGO League is to say that it is a robotics program for 9 to 14 year olds, which is designed to get children excited about science and technology -- and teach them valuable employment and life skills. In First Lego League, children are immersed in real-world science and technology challenges. Teams research and design their own solution to a current scientific question or problem, and build autonomous LEGO robots that perform a series of missions.
