THE STUDENT TEACHING EXPERIENCE AND

OBJECTIVES OF THE STUDENT TEACHING PROGRAM

The primary purpose of the student teaching experience is to provide the student teacher with an opportunity for applying educational theories to an actual teaching experience. As both a college student and a student teacher, his or her role is a dual one; however, in the assigned school, he or she enters the classroom as a teacher, not as a student. Student teaching implies a team relationship between the cooperating teacher, the supervising teacher, and the student teacher. The prospective teacher has the opportunity to share responsibility with competent professionals in order to develop the skills and understandings considered necessary by the Nebraska State Department of Education, teacher education institutions, and cooperating Nebraska school districts. Every student teaching candidate will have completed all education classes and content area classes prior to student teaching. No student teacher shall be placed in any school that was a part of their K-12 education.

In order to promote and maintain a good working relationship with the schools in which they are placed, the following guidelines are offered for student teachers:

1. Be on time every day, and do not leave early unless pre-arranged with the cooperating teacher.
2. Dress in a manner compatible with that of the teachers in the assigned school.
3. If you must miss a day, call your cooperating teacher. (THIS IS ABSOLUTELY ESSENTIAL.) Also notify college representatives.
4. Make up absences at a time approved by your cooperating teacher.
5. Learn the school system policies and those of the building to which you are assigned.
6. Keep student records and all other student information strictly confidential.
7. Attend appropriate school functions including: faculty meetings, PTA meetings, any Open House, Parent/Teacher Conferences, etc.

8. Accompany class on field trips if any are taken.

9. Treat students with warmth, consistency, and fairness.

The student teaching assignment includes (1) observation, (2) cooperative planning, (3) teaching, and (4) evaluation. Suggested responsibilities for student teachers in each of these areas are outlined below. The length of time spent in each stage will depend on the length of the student-teaching experience and the individual student teacher.

I. Observation – During this time, the student teacher will assume some of the administrative and procedural tasks as delegated by the cooperating teacher. He or she may also be assigned to assist individuals or small groups.

A. Observation of students

1. Learn names as soon as possible by making seating charts, checking roll, reviewing information cards, permanent records, scheduling, etc. Learn times that special education students leave for resource classes.

2. Observe students with special learning problems. Become familiar with expectations for these students. Learn various methods for meeting these students' needs.

B. Observation of supervising teacher

1. Teaching techniques

a. Note method of opening class – teacher's point of focus.

b. Observe the pacing of the class.

(1) Development of steps and routine

(2) Teacher's movement during lecture

(3) Vocabulary

(4) Teacher's use of cues from students (pacing – slow down, repeat, etc.)

(5) Approach to questions

(6) Lesson cycle

c. Note the techniques that best hold students' interest and the different methods used with different students.

d. Note method of closing class.

(1) The amount of time allotted for clearing away materials and the location of materials

(2) Presentation of future assignment requirements

e. Note activities between classes or subjects

(1) Interaction with students

(2) Reorganization of materials

(3) Position in classroom of teacher

2. Classroom management techniques

a. Discipline

(1) Observe class management in terms of voice, volume, eye contact, transition activities, sponge activities, etc.

(2) Observe positive discipline techniques used.

(3) Look for consistent patterns of discipline which are firm, objective, positive and courteous.

(4) Note infrequency of discipline problems in a classroom where students are successfully engaged in appropriate activities.

(5) Note teacher's ability to adjust to unforeseen situations.

(6) Note various noise levels and teacher's method of maintaining the proper level for each type of activity.

b. Grouping

(1) Note whether or not groupings are used and the flexibility of those groupings.

(2) Note teacher's time management with large group, small groups and individual students.

c. Learning Environment

(1) Note room arrangement.

(2) Note materials and equipment that encourage students to become self-

managing.

(3) Note materials and equipment that help create an attractive, functional learning environment.

3. Lesson Plans – observe cooperating teacher's plans and be aware that, at times, he/she

adapts the plans to meet the needs of the day. It is necessary to have a plan, and to have

materials ready, but BE FLEXIBLE!!

4. Record Keeping – Observe the teachers' systems. Keep records as assigned by your

cooperating teacher. Keep a separate copy of records of work you assign and grade.

5. Ideas and Materials – Copy ideas and materials before or after school, when students are not

in class. Observe cooperating teacher's files and his/her organization. Expand your own files.

C. Special Resources

1. Visit the library/media center and computer lab.

2. Visit the counselor's office and nurse's area.

3. Learn the procedures concerning teacher use of duplicating machines, A.V. equipment, etc.

4. Learn about the services and materials available from the Education Service Center.

5. Be aware of special education programs/facilities and visit special education rooms.

II. Cooperative Planning – The cooperating teacher and the student teacher will begin early to plan for the

student teacher's first units of actual teaching, and discuss expectations for each stage of the student

teaching term. The length of time spent in each stage will depend upon the length of the student

teaching assignment and the individual student teacher.

III. Teaching – Gradually assume increasing amounts of responsibility for teaching the class. The

professional development of student teachers proceeds through several stages. These stages, which

follow the initial period of observation, include the following:

A. Assist cooperating teacher.

1. Perform daily routines (Check roll, help students with make-up work, supervise and assist students doing seat work, etc.).

2. Work with individual students or small groups of students.

B. Plan and direct limited activities.

1. Engage in cooperative planning with cooperating teacher.

2. Prepare teaching aids and materials (includes bulletin boards).

3. Direct learning activities as assigned.

4. Evaluate students' progress.

C. Plan and direct lessons on a daily basis.

1. Continue cooperative planning; follow the lead of your cooperating teacher.

2. Plan and teach units of instruction.

3. Become increasingly responsible for directing the learning activities of students and for maintaining classroom discipline.

D. Assume teaching responsibility with minimal supervision from cooperating teacher.

1. Plan and direct more units of instruction.

2. Assume primary responsibility for classroom management and instruction.

IV. Evaluation – Evaluation consists of two components. You will be responsible for evaluating the

progress of the students whom you teach, and you will also be responsible for conducting a self-

evaluation of your professional development.

A. Student evaluation

1. As you progress through the stages of student teaching, become increasingly responsible for evaluation of students' progress.

2. Evaluate students' progress in relation to curriculum goals and learning objectives.
3. Be involved in reporting progress on a regular basis to students and their parents.

B. Professional development

1. Student teachers are evaluated in their professional development by both their cooperating teacher(s) and their supervising teacher.
2. Participate actively in the evaluation of your own professional development.
3. Establish professional goals and evaluate your own progress toward the achievement of these goals.

STUDENT TEACHER WITHDRAWAL POLICY

When it is determined that a York College student teacher is doing less than satisfactory work as a student teacher, he/she may be withdrawn from the student teaching experience.

WHO CAN MAKE THE JUDGEMENT THAT THE STUDENT TEACHER IS DOING LESS THAN SATISFACTORY WORK?

The cooperating teacher, the school principal, or the college supervising teacher can make an initial determination that the student teacher is functioning at a level less than satisfactory.

WHEN THIS JUDGMENT IS MADE, WHAT HAPPENS?

When one or more of the above mentioned people have determined that a problem exists, a conference is held with all parties being present. During this conference, the differing views of the situation will be discussed, and a determination will be made by the supervising teacher whether or not the student teacher will be removed from the classroom. If the decision is made to remove the student teacher at that time, the student teacher will be provided with a written list of reasons for removal. Options then open to the student teacher are listed below

If the decision is to leave the student in the classroom, a written list of suggestions for improvement and a time line for implementing these suggestions will be provided to the student teacher. If these improvements are made during the time frame established, the experience will be considered a success. Note: If the cooperating teacher and supervising teacher feel that additional time is needed to verify improvement, the student teaching will be extended an appropriate period of time.

If the cooperating teacher and the supervising teacher decide that improvement is not being made, the decision will be made by the supervising teacher to remove the student from the assignment. The student will be provided again with a written list of reasons for the removal.

WHEN A STUDENT TEACHER IS WITHDRAWN FROM A CLASSROOM ASSIGNMENT, WHAT OPTIONS ARE PROVIDED THE STUDENT?

1. (The student may be reassigned). If sufficient time remains in the semester (usually a minimum of 7 to 8 weeks), and the supervising teacher determines that this might solve the problem.

2. The student can officially withdraw from student teaching, and a "W" will be entered on the transcript.

3. The student can request an "incomplete" to be entered as a grade for the semester in progress. If this is done, the student must be placed for an experience during the next semester and complete the experience during that semester, or the "I" will revert to a grade of "F".

4. If none of the above options are selected, a grade of "F" will be entered on the transcript.

If option two or option four is taken, the student may be given the opportunity to enroll in student teaching in a subsequent semester, and, if completed successfully, receive an appropriate grade. If option three is taken, the student will be placed in a different assignment the semester immediately following the semester from which the student withdrew. The student must complete the student teaching during this semester or receive a grade of "F".

IF THE STUDENT WISHES TO APPEAL ANY DECISIONS LISTED ABOVE, WHAT IS THE PROCEDURE?

1. File a written appeal to the York College Teacher Education Council within five (5) working days of the decision

2. File a written appeal to the Chair of the York College Education Division within five (5) working days of the decision by the Teacher Education Council.

3. File a written appeal to the Vice President for Academic Dean within five (5) working days of a decision by the Teacher Education Council.

Teacher Certification

A Nebraska Teaching certificate is a license to teach. Any teacher who is teaching without a valid certificate is subject to prompt discharge without recourse to the due process provisions which otherwise apply to a termination.

It is your responsibility as a professional to keep your Nebraska Certificate current (valid) while you teach in Nebraska's approved public or private schools. No certification from any other state has any standing (legal validity) in Nebraska.

Certification is not automatic. Students who successfully complete the Teacher Education Program at York College will qualify for the Nebraska Initial Teaching Certificate. Application will be made during student teaching seminar class.

The Procedures for securing a Nebraska Initial Certificate are as follows:

? Complete an Application for Nebraska Certification (made available during Student Teacher Seminar)

? Application

? Out of State applicants need to get Finger Prints

? Send Original PPST score report(s) from the Educational Testing Service to York College to accompany your application

? Attach a check with the application

? Official transcript

? Complete a Criminal Charges or Convictions Self-Reporting Form

? Return the completed application with the above information enclosed to the York College Teacher Education Department. Completed applications will then be mailed by York College to Lincoln to be processed.

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and not an enrolled student.
