MAKING IT STICK

Indelible Instructional Practices to Improve Teaching and Learning

WEBINAR RELEASE DATES AND TOPICS:

FOUNDATIONAL TRILOGY

August/September 2015
Understand the research, implications, and ideas behind the incorporation of ELA standards into non-ELA content areas. The foundational trilogy will explore the use of the core instructional model, the use of formative assessments, and how to monitor and adjust instruction, based upon student needs.

CLOSE READING

September 2015
Engage students in the practice of careful analysis to find the deeper meaning of a text.
Aligns to NE LA 10.1.6*

RAFT

October 2015
Task students with writing that reflects real-world experiences and contexts, rather than simply writing for the teacher.
Aligns to NE LA 10.2.1.a

TEXT CODING/THINK-ALOUDS

October 2015
Teach students to think about their thinking and annotate while reading, to help them engage fully with the text.
Aligns to NE LA 10.1.6.g*

Want to:
• increase student learning in your content area?
• engage students in meaningful, metacognitive learning activities?
• be a part of enhancing student achievement in all content areas?

This webinar series showcases instructional strategies that integrate reading and writing skills across all disciplines. The webinars provide instruction on teaching strategies included in the ELA Standards Instructional Tool and were selected based on skills needed for success on the NeSA-R and NeSA-W. Implementation of these strategies will help students apply literacy skills in authentic settings, better understand content, and strengthen their communication skills in all areas.

All webinars can be accessed on the release date listed using the web address below: http://bit.ly/NDEStandardsTool

This project is partially funded with ESEA Title II-A funds.
