003 General Procedures for Financing and Budgeting. For purposes of this chapter, all assets and unbonded indebtedness of districts merged, dissolved, or annexed shall be transferred to the receiving district or districts on the basis of the proportionate share of assessed valuation received at the time of such reorganization. 004 State Aid. State Aid for the ensuing school fiscal year shall be calculated pursuant to sections 79-1001 to 79-1033 R.R.S. which is known and may be cited as the Tax Equity and Educational Opportunities Support Act.

004.01 Application for Early Payment of Postponed State Aid. Section 79-1016(8) R.R.S. states: "A school district whose State Aid is to be calculated [for correction of adjusted valuation due to clerical error, or for agricultural or horticultural land, assessed value changes by reason of land qualified or disqualified for special use valuation pursuant to sections 77-1343 to 77-1347.01 R.R.S.] and whose State Aid payment is postponed as a result of failure to calculate State Aid in such manner, may apply to the State Board for lump sum payment of such postponed State Aid. Such application may be for any amount up to one hundred percent of the postponed state aid. The State Board may grant the entire amount applied for or any portion of such amount. The State Board shall notify the Director of Administrative Services of the amount of funds to be paid in a lump sum and the reduced amount of the monthly payments. The Director of Administrative Services shall, at the time of the next State Aid payment pursuant to section 79-1022 R.R.S., draw a warrant for the lump sum amount from appropriated funds and forward such warrant to the district."

004.02 Application for Early Payment of State Aid Due to Financial Hardship. Section 79-1033(2) R.R.S. states, in part: "A district which receives, or has received in the most recently available complete data year or in either of the two fiscal years preceding the most recently available complete data year, federal funds in excess of twenty-five percent of its general fund budget of expenditures may apply for early payment of State Aid paid pursuant to the Act when such federal funds are not received in a timely manner. Such application may be made at any time by a district suffering such financial hardship and may be for any amount up to fifty percent of the remaining amount to which the district is entitled during the current school fiscal year. The State Board may grant the entire amount applied for or any portion of such amount if the State Board finds that a financial hardship exists in the district. The State Board shall notify the Director of Administrative Services of the amount of funds to be paid in lump sum and the reduced amount of the monthly payments. Financial hardship means a situation in which income to a district is exceeded by liabilities to such a degree that if early payment is not received it will be necessary for the district to discontinue vital services or functions."

fiscal year such that the district will receive the funds to which it was finally determined to be entitled. If the total adjustment cannot be made from the funds to be provided in the current school fiscal year, the adjustment shall be prorated, with additional adjustments made to payments for future school fiscal years. The Department shall maintain an accurate account and a record of the reasons the adjustments were made and the amount of such adjustments.” The Commissioner, or his or her designee(s), shall adjust such payments in accordance with this law.

004.04 Application for Lump-Sum Payment of Prior Year State Aid Correction. Section 79-1065.01 R.R.S. states in part: “If the adjustment under section 79-1065 results in a school district being entitled to the payment of additional funds, the State Department of Education shall automatically make a lump-sum payment to the school district if the payment is less than one thousand dollars. For amounts equal to or greater than one thousand dollars, the district may apply to the State Department of Education for a lump-sum payment for any amount up to one hundred percent of the adjustment, except that when a school district is to receive a lump-sum payment pursuant to section 79-1022 R.R.S., one hundred percent of the adjustment shall be paid as one lump-sum payment on the last business day of December during the ensuing school fiscal year. The Department shall notify the Director of Administrative Services of the amount of funds to be paid in a lump-sum and the reduced amount of the monthly payments pursuant to section 79-1022. The Department shall make such payment in a lump-sum not later than the last business day of September of the year in which the final determination under this section is made.”

004.04A On or before July 15, the Commissioner, or his or her designee(s), will provide written notification to each school district with a positive prior year correction pursuant to section 79-1065 R.R.S. that they are entitled to receive a lump-sum payment for any amount up to one hundred percent of the positive prior year correction.

004.04B The lump-sum amount to be distributed to an eligible school district which is part of a local system shall be proportional based on the weighted formula students attributed to each district in the local system.

004.04C A school district with a positive prior year State Aid correction pursuant to section 79-1065 R.R.S. shall inform the Commissioner in writing of its request to receive a lump-sum payment for any amount up to one hundred percent of the positive prior year State Aid correction. Such written request must be received by the Department on or before August 15.

004.04D The Commissioner, or his or her designee(s), will review the submitted request, and provide written notification on or before September 15 to the school district of the lump-sum payment of the positive prior year State Aid correction and the reduced amount of the monthly payments pursuant to section 79-1022 R.R.S..

004.04E A school district is not eligible to receive a lump-sum payment of the positive prior year State Aid correction if a school district is to receive a monthly State Aid payment of less than one thousand dollars pursuant to section 79-1022(2) R.R.S..

004.05 Application for Adjustment to State Aid Payments for Transfers of Property Due to Annexation. Section 79-1065.02 R.R.S. provides that whenever property within the boundaries of a Class II, III, IV, V or VI school district is transferred to another school district due to a change in the school district boundaries in response to annexation of the transferred property by a city or village, school districts from which property is being transferred may apply for an adjustment to the state aid payments for the ensuing year. This procedure is implemented as follows:

004.05A On or before August 20 preceding the first school fiscal year for which the property will not be available for taxation for the school district's general fund levy, the school district from which property is being transferred shall apply to the Department, on forms prescribed by the Commissioner, for an adjustment to the state aid payments for the ensuing year. On or before August 20, copies of the application must be sent by the applicant school district to the high school district(s) of the local systems receiving valuation in the transfer. Property is deemed transferred from the school district whether the property was within the boundaries of the school district or the property was affiliated with the school district.

004.05B Upon receipt of the application, with the assistance of the Property Tax Administrator, the Commissioner or his or her designee(s), shall calculate the amount of additional state aid, if any, that the local system for the applicant school district would have received for such school fiscal year if the adjusted valuation for the transferred property had not been included in the adjusted valuation of such local system for the calculation of state aid for such school fiscal year. An amount equal to the additional state aid for the local system of an applicant school district shall be attributed to the local systems receiving valuation in such transfer based upon the ratio of the adjusted valuation received by each local system divided by the total adjusted valuation transferred from the applicant school district.

004.05C On or before September 20 of such school fiscal year, the Commissioner or his or her designee(s), shall certify to the applicant school district the amount of additional state aid, if any, the district will receive and shall certify to the high school district of the receiving local system the amount of the reduction in state aid attributed to the school district.

004.05D If the applicant school district receives a lump sum payment pursuant to section (2) of section 79-1022 R.R.S., such lump sum payment shall be increased by the amount of additional state aid, if any. If the high school district receiving valuation receives a lump sum payment pursuant to section (2) of section 79-1022 R.R.S., such lump sum payment shall be reduced by the amount of the reduction in state aid attributed to the receiving local system.

004.05E If the applicant school district does not receive a lump sum payment, state aid payments shall be increased by one-tenth of the amount of additional state aid for each of the ten state aid payments for such school fiscal year. If the high school district of a receiving local system does not receive a lump sum payment, state aid payments shall be reduced by one-tenth of the amount attributed to such receiving local

system for each of the ten state aid payments for such school fiscal year.

004.05F If a portion of the total reduction in state aid for local systems receiving valuation in the transfer of property that is the subject of the application is delayed until future years, the additional state aid to be paid to the applicant school district shall be reduced by the amount of the total reduction that is delayed until future years. The amount of the reduction shall be paid as additional state aid to the applicant school district in the next school fiscal year.

004.05G If the total reduction in state aid attributed to the school district receiving valuation in the transfer of property that is the subject of the application is greater than the total state aid payments for such school fiscal year, the remainder shall be subtracted from state aid payments in future years until the total reduction has been subtracted from state aid payments.

005 Budgeting

005.01 General Requirements. Each school district shall submit a duplicate copy of its budget statement to the Department. The Department may verify any data used to meet the requirements of the Tax Equity and Educational Opportunities Support Act. The Auditor of Public Accounts shall review each district's budget statement for statutory compliance, make necessary changes in the budget documents for districts to effectuate the budget limitations imposed pursuant to sections 79-1023 to 79-1030 R.R.S., and notify the Commissioner of Education (a) of any districts failing to submit to the Department or the Auditor the budget documents required by the date established in subsection (1) of section 13-508 R.R.S. or failing to make any corrections of errors in the documents pursuant to sections 13-504 or 13-511 R.R.S.

005.01A Failure to Submit Budget Documents:

005.01A1 If a school district fails to submit to the Department or the Auditor the budget documents required pursuant to subsection (1) of section 79-1024 R.R.S. by the date established in subsection (1) of section 13-508 R.R.S. or fails to make any corrections of errors in the documents pursuant to sections 13-504 or 13-511 R.R.S., the Commissioner, upon notification from the Auditor or upon his or her own knowledge that the required budget document(s) and any required corrections of errors from any school district have not been properly filed in accordance with the Nebraska Budget Act and after notice to the district and an opportunity to be heard, shall direct that any State Aid granted pursuant to the Tax Equity and Educational Opportunities Support Act be withheld until such time as the required budget documents or corrections of errors are received by the Auditor and the Department. In addition, the Commissioner shall direct the county treasurer to withhold all school money belonging to the school district until such time as the Commissioner notifies the county treasurer of receipt of the required budget documents or corrections of errors.

005.01A2 If the school district does not comply with section 79-1024 R.R.S.

prior to the end of the state's biennium following the biennium which included the fiscal year-for which State Aid was calculated, the State Aid funds shall revert to the General Fund. The amount of any reverted funds shall be included in data provided to the Governor in accordance with section 79-1031 R.R.S. The board of any district failing to submit to the Department or the Auditor the budget documents required pursuant to section 79-1024 R.R.S. by the date established in subsection (1) of section 13-508 R.R.S., or failing to make any corrections of errors in the documents pursuant to sections 13-504 or 13-511 R.R.S., shall be liable to the school district for all school money which such district may lose by such failing.

005.02 Growth Rate Determinations. Section 79-1028.01 R.R.S. requires the State Board to determine whether the budget authority for the General Fund budget of expenditures may be exceeded. The following procedures shall be followed by a district seeking to exceed its budget authority for the General Fund budget of expenditures:

005.02A The school district shall submit requests to exceed the budget authority for the General Fund budget of expenditures to the Commissioner. The district shall also submit additional written justification for the requested increases as the Department may direct.

005.02B The Commissioner, or his or her designee(s) will review the submitted data, and make a recommendation to the State Board to either approve, deny or modify the requests.

005.02C The State Board will then approve, deny or modify the amount allowed for any exclusions to the budget authority for the general fund budget of expenditures pursuant to section 79-1028.01 R.R.S.

006 Data Collection and Penalties

006.01 Annual Financial Report. Except as otherwise provided in the Tax Equity and Educational Opportunities Support Act, State Aid payable pursuant to this chapter for each school year shall be based upon data found in applicable reports for the most recently available complete data year.

006.01B When any school district fails to timely submit its Annual Financial Report to the Commissioner, the Commissioner shall, after notice to the district and an opportunity to be heard, direct that any State Aid granted pursuant to the Tax Equity and Educational Opportunities Support Act be withheld until such time as the report is received by the Department. In addition, the Commissioner shall direct the county treasurer to withhold all school money belonging to the school district until such time as the Commissioner notifies the county treasurer of receipt of such report. The county treasurer shall withhold such money.

006.02 Fall School District Membership Report. The laws governing the enrollment option program, (sections 79-232 to 79-246 R.R.S.), provide for various requirements and limitations on school districts in regard to enrollment of option students or open enrollment option students. Whenever the Department has any reason to believe any school district may have not complied with any such requirements or limitations, the Commissioner may direct school districts to provide records and documentation concerning such matter, including, but not limited to, applications of enrollment option students or open enrollment option students and release approvals of resident districts. Pursuant to section 79-1065 R.R.S., the Department shall adjust net option funding payments provided under Chapter 79 to school districts which are determined to have received state aid not equal to the appropriate allocation. Such adjustments may be made for reasons including the enrollment of any student in an option district pursuant to an application submitted to the option district after March 15 which was not accompanied by a written release from the resident district. The Department shall maintain an accurate account and record of the reasons the net option funding payment was adjusted.
