List of Programs

On this page, review the list of teacher preparation programs offered by your institution of higher education (IHE) or organization. If you submitted an IPRC last year, this list of programs is pre-loaded from your prior year’s report. If your IHE offers both traditional and alternative programs, be sure to enter the programs in the appropriate reports. For the traditional report, list all traditional programs within the IHE. For the alternative report, list all alternative programs within the IHE. You may edit, delete, and insert new rows as necessary.

After reviewing and updating as necessary, save the page using the floating save box at the bottom of the page. The system will automatically total the number of programs for you.

Please provide any additional information about or descriptions of the supervised clinical experiences:

-State requirement is that all candidates must complete a minimum of 14 weeks of student teaching. All programs are compliant with requirement.

Enrollment

On this page, enter the number of candidates for an initial teaching credential who are enrolled in the initial teacher preparation programs within your institution of higher education (IHE) or organization. **Do not** report on the total number of students enrolled in the entire IHE. **Do not** include individuals who currently hold a teaching credential and are seeking additional licenses or endorsements, or individuals preparing for school-based careers other than classroom teachers (e.g., administrators, guidance counselors).

The Department recognizes that in many cases, candidates voluntarily report their race/ethnicity and gender data, and that in some cases, candidates may choose not to report this information. Please report on the race/ethnicity data you have available, though the data may not be complete. It is not expected that the sum of the enrolled students reported by race/ethnicity or by gender will necessarily equal the total number of students enrolled.

If your IHE offers both traditional and alternative programs, be sure to enter the candidates enrolled in the appropriate reports. For the traditional report, provide only the candidates enrolled in traditional programs within the IHE. For the alternative report, provide only the candidates enrolled in the alternative programs within the IHE.

After entering the enrollment data, save the page using the floating save box at the bottom of the page.

THIS PAGE INCLUDES:

Enrollment

For the purpose of Title II reporting, an enrolled student is defined as a student who has been admitted to a teacher preparation program, but who has not completed the program during the academic year being reported. An individual who completed the program during the academic year being reported is counted as a program completer and *not* an enrolled student.

[Additional guidance on reporting race and ethnicity data.](#)

Total number of students enrolled in 2016-17	74
Unduplicated number of males enrolled in 2016-17	21
Unduplicated number of females enrolled in 2016-17	53

Provide the number of students in the teacher preparation program in the following categories. Note that you must report on the number of students by ethnicity and race separately. Individuals who are non-Hispanic/Latino will be reported in one of the race categories. Also note that individuals can belong to one or more racial groups, so the sum of the members of each racial category may not necessarily add up to the total number of students enrolled. [\(§205\(a\)\(1\)\(C\)\(ii\)\(H\)\)](#)

Race	

2016-17	Number Enrolled
American Indian or Alaska Native	0
Asian	2
Black or African American	1
Native Hawaiian or Other Pacific Islander	0
White	69
Two or more races	3

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2016-17. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

On this page, enter the total number of individuals who completed the program in AY 2016-17 and the two prior academic years. If you submitted an IPRC last year, the number of program completers for the two prior academic years are pre-loaded from your prior year's report.

A program completer is a person who has met all the requirements of a state-approved teacher preparation program. Program completers include all those who are documented as having met such requirements. Documentation may take the form of a degree, institutional certificate, program credential, transcript or other written proof of having met the program's requirements. In applying this definition, the fact that an individual has or has not been recommended to the state for initial certification or licensure may not be used as a criterion for determining who is a program completer.

An individual cannot be classified as both enrolled and as a program completer at the same time. An enrolled individual is not a program completer. Once an individual has met all the requirements of a state-approved teacher preparation program and becomes a program completer, the individual is no longer classified as enrolled.

After entering the program completers, save the page using the floating save box at the bottom of the page.

Provide the following information about the approval or accreditation of your teacher preparation program. [\(\\$205\(a\)\(1\)\(D\), \\$205\(a\)\(1\)\(E\)\)](#)

1. Is your teacher preparation program currently approved or accredited?

- ☒ Yes
- ☐ No

If yes, please specify the organization(s) that approved or accredited your program:

- ☐ State
- ☒ NCATE
- ☐ TEAC
- ☐ CAEP
- ☐ Other specify:

Nebraska Dept. of Education, Higher Learning Commission

2. Is your teacher preparation program currently under a designation as "low-performing" by the state (as per section 207(a) of the HEA of 2008)?

- ☐ Yes

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- ☒ Yes
- ☐ No

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes
- ☐ No

d. use technology effectively to analyze data to improve teaching and learning

- ☒ Yes
- ☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Knowledge and use of technology is well integrated into the Nebraska Wesleyan University education curriculum. Students are required to take Education/Special Education 2870, Instructional Technology where students learn how to use Internet-based technologies (websites, word processing and presentation applications), online survey and assessment applications, databases, video and audio recording technologies (screen capture, iMovie, GarageBand, YouTube). In addition to this course, students learn to collect, manage and assess data in their methods courses, using a variety of assessment tools. In several education courses, students are required to submit materials using Blackboard, a document and data management system. These methods courses also employ the use of Chromebooks, as we are trying to mimic the 1:1 of Lincoln Public Schools/Omaha Public Schools by having a whole class set of Chromebooks. Instead of seeing technology as a stand-alone entity, we are trying to model the full integration of technology as an everyday tool/resource. In relation to a data management, our department is constructing collection, storage and analysis systems using google applications.

On this page, review the questions about how your program trains general education teachers and special education teachers. For the purposes of these questions, general education teachers means those who are not specifically prepared as special education teachers. If you submitted an IPRC last year, this section is pre-loaded from your prior year’s report; please review and update as necessary.

Teacher Training

Provide the following information about your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(G\)\)](#)

1. Does your program prepare general education teachers to:

a. teach students with disabilities effectively

☒ Yes

☐ No

b. participate as a member of individualized education program teams

☒ Yes

☐ No

c. teach students who are limited English proficient effectively

☒ Yes

☐ No

2. Provide a description of the evidence your program uses to show that it prepares general education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

Students at Nebraska Wesleyan University have many opportunities to show competence in their abilities to work with diverse populations, including students with exceptionalities. In elementary math, literacy methods courses and secondary methods, students receive instruction on research-based methods of pedagogy that work for all students but that are particularly effective for students with exceptionalities. Sped. 2070 and 3070 (Understanding Human Differences) are introductory courses that introduces students to individual education plans. In some of the special education courses there are conversations about strategies that work for students who have limited English skills and students with language processing issues, as some of these strategies overlap. Our students participate in field experiences and practicums in inclusive classrooms. All education students take Ed. 2850 (Education in a Pluralistic Society), a course that addresses diversity in the classroom and community and that examines equity issues faced by people with exceptionalities. In relation to special education and the law, Nebraska Wesleyan University students learn basic information in Ed. 1010 (Introduction to Education in the United States) and learn to implement instruction and meet students' needs in the methods courses.

3. Does your program prepare special education teachers to:

a. teach students with disabilities effectively

☒ Yes

- ☐ No
- ☒ Program does not prepare special education teachers

b. participate as a member of individualized education program teams

- ☒ Yes
- ☐ No
- ☐ Program does not prepare special education teachers

c. teach students who are limited English proficient effectively

- ☒ Yes
- ☐ No
- ☐ Program does not prepare special education teachers

4. Provide a description of the evidence your program uses to show that it prepares special education teachers to teach students with disabilities effectively, including training related to participation as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the Individuals with Disabilities Education Act, and to effectively teach students who are limited English proficient. Include planning activities and a timeline if any of the three elements listed above are not currently in place.

In elementary math and literacy methods courses, students receive instruction on research-based methods of pedagogy that work for all students but that are particularly effective for students with exceptionalities including direct instruction, cooperative learning, and cognitive strategy instruction. Sped. 2070 and 3070 (Understanding Human Differences and Methods of Teaching Secondary Students with Disabilities) are introductory courses that introduces students to individual education plans. In some of the special education courses there are conversations about strategies that work for students who have limited English skills and students with language processing issues, as some of these strategies overlap. Our students participate in field experiences and practicum in inclusive classrooms. All education students take Ed. 2850 (Education in a Pluralistic Society), a course that addresses diversity in the classroom and community and that examines equity issues faced by people with exceptionalities. In relation to special education and the law, Nebraska Wesleyan University students learn basic information in Ed. 1010 (Introduction to Education in the United States) and learn to implement instruction and meet students' needs in the methods courses. Special Education majors learn to write individual education plans in accordance with current law in Sped. 3570 (Legal Issues in Special Education).

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Benchmarks/Gateways: Students may apply for acceptance to the Teacher Education Program during second semester of their sophomore year. In order to be accepted into the Teacher Education Program, students must earn at least a 2.75 GPA, pass the Praxis I within state standards, receive candidacy support of 3 faculty members, and moral turpitude standards described by the Nebraska State Board of Education (Gateway 1). To achieve student teacher status (Gateway 2), students must earn a 2.75 GPA in their major, along with a 2.60 GPA overall, as well as complete all of their education courses. Secondary education students must also have completed at least 75% of the coursework in their subject major. All students must provide documentation of at least 100 hours of working with young people in various school settings. Field and Clinical Experience: Students interested in teaching careers enroll in Ed. 1010 (Introduction to Education in the United States) typically during their freshman year so that they have a better basis for making the decision to teach. As they enroll in Ed. 1010 they typically enroll in Ed. 1750 (Field Experience) so that they have practical experience from which they can make informed decisions about joining the teaching profession. Subsequent practicum experiences are linked to required courses, most typically methods courses, and students have specific expectations for the type of interaction required with K-12 students.
