

The ATP-Education program has undergone some structural changes this year but is still offering the same services as it has in the past. We are providing Training, Technical Assistance, Awareness, and Demonstrations/Loans of assistive technology to education personnel, early childhood personnel, families of, and professionals working with children with disabilities (birth to 21).

One of the bigger changes the program has undergone is the addition of Kristi Berst as the new Program Coordinator. Feel free to contact her ([Kristi.berst@nebraska.gov](mailto:Kristi.berst@nebraska.gov)) if you have any questions or suggestions on things we could do to serve Nebraskan's better.

There are a couple of ways for you to access ATP-Education's services:

1. There is a form to request services located on our website:  
<https://atp.nebraska.gov/services/services-school>

Beginning September 1<sup>st</sup>, 2018 this form will be replaced with an online request form located on the same page to make the process quicker and simpler.

2. You can send an email to [atp@nebraska.gov](mailto:atp@nebraska.gov) or call our toll-free number 877-713-4002 to request a training or put in a request to have a Technology Specialist contact you to discuss your assistive technology needs.

We recently sent out a survey to find out who has and has not accessed our services in the past. It also asks for suggestions on ways that we can provide better services, and if there are events that you would like to see ATP-Education represented at. Please take a minute to fill out the short survey located at: <http://survey.constantcontact.com/survey/a07efjvvtzjips18bg/start>

We are looking forward to your feedback on how we can improve this program and help provide Nebraska's children with the assistive technology they need.

Thank you,

Tobias J. Orr – ATP Director
