Overview of Rule 10

Brad Conner provided an overview of Rule 10 and reviewed section content of the rule. Rule violations and procedures were also reviewed.

Setting the Course for the Rule 10 Revision

Commissioner Blomstedt asked members to consider and share their thoughts on two questions: What purpose does the Nebraska State Board want Nebraska's accreditation system to serve and what role should the state play in accreditation.

The Commissioner discussed moving forward with and the challenge of rule revision over the next two years.

Breakout Activity

Committee members broke out into groups to discuss revisions to Rule 10 and the best way to approach the process. The four main topic questions included:

- Support of the Strategic Vision & Direction Plan including equity
- The role of AQuESTT and Quality Indicator Language
- Reviewing current accreditation processes
- Role of local school boards in the accreditation process

The final breakout activity focused on three guiding questions.

- What questions/thoughts resonate with you and your group
- How could the ideas discussed affect small schools and large schools
- What else is missing

Update on CIP Workshops

Don Loseke update the Committee on the changes in structure of the school improvement workshops.

SCHOOL SYSTEMS RECOMMENDED FOR CONTINUED ACCREDITATION

Staff Recommendation:

It is recommended that the following Class II-Class V, Special Purpose, and Nonpublic school systems, be recommended to the State Board of Education for continued accreditation in 2019-20.

Rationale: The schools listed are found to be operating in compliance with Rule 10. This is based on information submitted on their Assurance Statements and, in some instances, gathered on Rule 10 visits to the schools. The schools that listed “areas of non-compliance” on the Assurance Statement submitted a correction of the violations to the Department of Education by the February 1 due date, as provided in Rule 10, and, therefore, are considered in compliance for the full school year.

Any schools dissolving, merging, or unifying for the 2019-20 school year will be accredited under the new name.

IMPLEMENTATION OF ACCREDITATION IN NEBRASKA

Rule 10 (*Regulations and Procedures for the Accreditation of Schools*) establishes minimum requirements for the legal operation of all public schools in Nebraska and those nonpublic schools that elect to operate as accredited rather than approved. The Rule establishes equality of opportunity for all students, but it also provides schools flexibility in how they may meet the requirements. While all teachers, for example must be certificated, schools are afforded some latitude in matching assignments and endorsements. Schools may exercise a number of options in offering high school courses ranging from cooperative arrangements with other schools or agencies to synchronous and asynchronous distance education agreements.

Rule 10, *Regulations and Procedures for the Accreditation of Schools*, was last revised with an effective date of August 1, 2015. The State Board of Education has made the decision to reopen Rule 10 and begin a revision process. The Accreditation Section of the Office of Accountability, Accreditation, and Program Approval, Nebraska Department of Education, is managing this Rule 10 revision process.

Rule 10 is clearly not a static document; it is, rather, responsive to a number of influences and events. The rule continues to achieve its purposes of ensuring equity for Nebraska's elementary and secondary students, supporting quality learning, encouraging constant improvement, and advancing accountability. Nebraska schools continue to meet the requirements of accreditation and are actively working to improve student learning.

APPENDIX A

NEBRASKA STATUTE 79-703

79-703. Public schools; approval and accreditation standards; accreditation committee; duties; legislative intent.

(1) To ensure both equality of opportunity and quality of programs offered, all public schools in the state shall be required to meet quality and performance-based approval or accreditation standards as prescribed by the State Board of Education. The board shall establish a core curriculum standard, which shall include multicultural education and vocational education courses, for all public schools in the state. Accreditation and approval standards shall be designed to assure effective schooling and quality of instructional programs regardless of school size, wealth, or geographic location. The board shall recognize and encourage the maximum use of cooperative programs and may provide for approval or accreditation of programs on a cooperative basis, including the sharing of administrative and instructional staff, between school districts for the purpose of meeting the approval and accreditation requirements established pursuant to this section and section 79-318.

(2) The Commissioner of Education shall appoint an accreditation committee which shall be representative of the educational institutions and agencies of the state and shall include as a member the director of admissions of the University of Nebraska.

(3) The accreditation committee shall be responsible for: (a) Recommending appropriate standards and policies with respect to the accreditation and classification of schools; and (b) making recommendations annually to the commissioner relative to the accreditation and classification of individual schools. No school shall be considered for accreditation status which has not first fulfilled all requirements for an approved school.

(4) By school year 1993-94 all public schools in the state shall be accredited.

(5) It is the intent of the Legislature that all public school students shall have access to all educational services required of accredited schools. Such services may be provided through cooperative programs or alternative methods of delivery.
