

Professional Standards for All School Nutrition Program Employees

Summary of the Final Rule Effective March 7, 2019

USDA has established minimum professional standards requirements for school nutrition professionals who manage and operate the National School Lunch and School Breakfast Programs.

The standards, another key provision of the Healthy, Hunger-Free Kids Act of 2010 (HHFKA), aim to institute minimum education standards for new State and local school nutrition directors as well as annual training standards for all school nutrition professionals. These new standards will ensure school nutrition personnel have the knowledge, training, and tools they need to plan, prepare, and purchase healthy products to create nutritious, safe, and enjoyable school meals. This final rule will:

- Create minimum hiring standards for new school food authority (SFA) directors based on a school district's size;
- Establish minimum hiring standards for new State directors of school nutrition programs and State directors of distributing agencies; and
- Require minimum annual training for all new and current school nutrition professionals.

A comprehensive Professional Standards Web site provides a database of training options. School nutrition staff can search for training that meets their learning needs in one easy-to-use location: <http://professionalstandards.fns.usda.gov/>
