Instructions

At the end of each regular school term the Nebraska Department of Education collects the attendance data for each school district and system in Nebraska. State total ADA is reported to the U.S. Department of Education and is used in formulas for allocating federal entitlement for Title 1, Impact Aid, Indian Education and other federal programs. See example at the end of this document for more information.

If the district did not offer summer school, select the box indicating as such:

Once the collection has been approved, changes will no longer be able to be made to this collection. If changes are necessary after approval, please contact the NDE Helpdesk as they will need to re-open the collection.

Appendix A - DEFINITION/EXAMPLE/STATE CALCULATION

Aggregate Days of Attendance: the sum of the days actually attended by all students when school is in session including remote learning days and credit recovery hours (for summer school only.)

Example: Pam attends summer school in a district where the school day during the regular term is 6 hours long. Pam attends summer school in the same district for 30 days, two hours each day for a total of 60 hours of attendance. Pam’s days of attendance in summer school multiplied by the summer school hours are then divided by the number of hours during the regular school term day to arrive at a prorated days of attendance.

[Column (a) x Column (b) divided by Column (c) = Column (d)]

Student Name	(a) Aggregate Days Attendance Summer School Only Two decimals	(b) Number of Hours Per Day Summer School One decimal	(c) Number of Hours Per Day – Regular School Term (example 6.0) One decimal	(d) Prorated Days of Attendance (a) x (b) divided by (c) Two decimals
Student 1 (Pam)	30.00	2.0	6.0	10.00
Student 2 (Alan)	15.00	2.0	6.0	5.00
Student 3				
Aggregate Totals				15.00

Transfer this number to the Summer School Supplement in the Consolidated Data Collection (CDC).

The prorated days of attendance for each student is then totaled to arrive at the prorated days of attendance for the district’s summer school.

Note: Exclude Federally Funded Activities. Exclude any portion of a student’s time that is supported by Federal funds. In the above example, if half of Pam’s program is being supported by Title 1 funds, then her hours per day would be reduced by one half.

State Calculation

The federal government requires that the total aggregate days of attendance for summer school be added to the total aggregate days of attendance for the regular school term to provide the **numerator** for the calculation of state Average Daily Attendance (ADA). The **denominator** for this calculation is the average number of days in session during the regular school year. See example at the end of this document.

The following example shows how Nebraska must calculate ADA for federal reporting purposes:

EXAMPLE OF CALCULATION OF STATE AVERAGE DAILY ATTENDANCE (ADA)

State total aggregate days in attendance for regular school year 45,353,683.20
(based on Attendance numbers submitted through ADVISER and ADVISER derived Days in Session)

State total aggregate days in attendance for summer school 1,360,610.49
(from the Summer School Supplement as reported in the Consolidated Data Collection (CDC).)

Average number of days schools are in session in regular school year 169.2
(Note: the number of summer school days will not be used in the calculation).

Calculation of State ADA:

$$(45,353,683.20 + 1,360,610.49) = \frac{(46,714,293.69)}{(169.2)} = 276,089.21$$

276,089.21 is the State Average Attendance (ADA)

Appendix B - FREQUENTLY ASKED QUESTIONS

Who should be reported?

Should Summer Drivers Education class be included as a Summer School Program?

YES, if any of the following conditions exists:

If the district sponsors the program.

If the student gets credit toward graduation.

If the expenses for the course are run through the General Fund rather than the Student Fee Fund.

It doesn't matter whether the student pays tuition or not, if any of the above conditions are met the course should be included.

Should Preschool be included as a Summer School program?

YES, include regular Preschool programs for Summer School.

Should Summer School Special Education be included?

YES, include school age Special Education programs because they are state funded.

DO NOT include Special Education Below Age Five programs, because they are mostly federally funded.

What about "fun" programs?

No camps should be included unless the funds are run through the General Fund rather than the Student Fee Fund. Camp can be included if the student gets credit toward graduation.

Should GED programs be included?

GED programs **CAN** be included but only use Aggregate Days of Attendance for students who are under age 21.

What about Drug Free or Title 1 Summer program?

Drug Free and Title I programs **DO NOT** count, they are federally funded.

Should ESL summer school programs count?

This program **CAN BE** included if the program is district or state funded.

Should Migrant Education be counted?

This is a federal grant and if students are being educated under that grant, the answer is **NO**.

Is there a minimum attendance amount?

There is no minimum attendance. Count all attendance, including students who did not complete the summer session.
