

Additional Information on the High School District Superintendent Report
and Submission of a Waiver of Rule 10

Report of High School District Superintendent on Private, Denominational, or Parochial Schools is due January 15 and June 15. Nonpublic schools, not supervised by an area or diocesan representative holding a Nebraska administrative and supervisory certificate, shall be inspected each fall and each spring by the superintendent of schools of the district in which the school resides (§79-1605). That individual verifies compliance with relevant sections of Rule 14 by filling out and submitting the form by the above dates.

Waiver Request. School systems having a local improvement plan in accordance with Rule 10-013.01, in order to better meet local goals, may submit a request for a waiver of one or more regulations found in Rule 10. This checklist will help the school in preparing the request to be submitted to the State Board of Education.
