## What is ParentNotices?

ParentNotices is a family engagement software used by local and state education agencies for more than 25 years to:

- Engage parents and families
- Provide custom translations
- Access interpretation services
- Serve as evidence of implementation
- Save time and money
- Reduce the risk of non-compliance

## SIS roster data integration

Automatically add data from your SIS to TransACT ParentNotices:

- **Quickly add roster data** (student, parent, teacher information) and send notices electronically to parents
- **Create groups and auto fill required fields** for multiple notices at once without needing to upload data with spreadsheets
- **Always have the latest student and parent information** with regular SIS data synchronization so there is no need to update manually

## Expertly written notices

The Nebraska Department of Education (NDE) provides your district with **250+ expertly written, translated parent notifications** supporting compliance with parent and family engagement communication requirements under **ESSA, IDEA, Section 504, and Civil Rights**.

## Centralized district communications

Deliver **existing district PDFs**, build new forms, and use our library of compliant expertly translated notices to create one standardized repository and delivery platform for all staff in your district.

## Simplified parent and family communications

Set up **approval workflows**, distribute forms and notices to **mobile devices**, and track and report on which forms have been delivered, viewed, completed, or signed.
