**Robotics: Urban Search & Rescue – John Mann & Tyna Schmidt – Norfolk High School

**Carpentry – Weston Haskell – Northeast Community College

**Web Design & Development – Damon Lutterman & Henry Stamps – Papillion LaVista South High School

**Recognizing Excellence with Skill Point Certificates While every competitor can't earn a gold, silver or bronze medal at the SkillsUSA Championships, SkillPoint Certificates are awarded to all national contestants in the SkillsUSA Championships who achieve a minimum contest score. The Skill Point Certificate represents achievement in demonstrating proficiency and workplace readiness in the student's occupational specialty. Each certificate lists the competency areas tested and features the logos of the companies that planned and managed the SkillsUSA competition. Students can add the certificate to an employment portfolio as an indicator of proficiency.
