Supervised Clinical Experience

Provide the following information about supervised clinical experience in 2020-21. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

☒ Yes

☐ No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)	
Number of clock hours of supervised clinical experience required prior to student teaching	100
Number of clock hours required for student teaching	640

Are there programs in which candidates are the teacher of record?

☒ Yes

☐ No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)	
Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom	35
Number of years required for teaching as the teacher of record in a classroom	1

Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff)

Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)

11

Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year

28

Number of students in supervised clinical experience during this academic year

39

Please provide any additional information about or descriptions of the supervised clinical experiences:

The 100 hours of supervised clinical experience required prior to student teaching includes aiding, assisting, and teaching lessons. These experiences occur during courses in child and adolescent development and methods courses including special needs and high ability learners. State requirement is that all candidates must complete a minimum of 14 weeks of student teaching experiences. Candidates in initial certification programs at Creighton University complete a minimum of 16 weeks in student teaching experiences.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Enrollment and Program Completers

2020-21 Total	
Total Number of Individuals Enrolled	69
Subset of Program Completers	41

Gender	Total Enrolled	Subset of Program Completers
Male	19	14
Female	50	27
Non-Binary/Other	0	0
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers
American Indian or Alaska Native	0	0

Native Hawaiian or Other Pacific Islander	0	0
White	60	33

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	0	0
No Race/Ethnicity Reported	0	0

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2020-21.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

What are CIP Codes?

☐ No teachers prepared in academic year 2020-21

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2020-21. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Do participants earn a degree upon completion of the program?

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

Program Assurances

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

Yes

No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

Yes

No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

Yes

No

Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

Yes

No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

Yes

No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

Yes

No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

Yes

No
8. Describe your institution’s most successful strategies in meeting the assurances listed above:

We continue to revise our reading methods and special education courses to focus on teaching literacy skills across the curriculum and to also focus on skills for differentiation of instruction. In part, our efforts in this area were based on comments from an employer survey of our completers. We are also implementing new curriculum threads in culturally responsive teaching and trauma informed instruction.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

- ☒ Yes
- ☐ No

b. use technology effectively to collect data to improve teaching and learning

- ☒ Yes
- ☐ No

c. use technology effectively to manage data to improve teaching and learning

- ☒ Yes
- ☐ No

d. use technology effectively to analyze data to improve teaching and learning

- ☒ Yes
- ☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The teacher candidates take an instructional technologies course (EDU 242 or EDU 601) taught by Mr. Mike Mansour, who is a local master teacher. In this course, teacher candidates learn the basic uses of various technologies that can be used in a classroom setting for instruction and for assessment. They complete lesson plans/units, design assessments, and use a variety of hardware and software programs to create instructional activities and materials in meeting the needs of diverse learners. Our electronic course management system, BlueLine (based in Canvas), enhances the use of technology within courses taught and activities presented by students. A state-of-the-art technology classroom, designated for education students, opened in the fall of 2013. Students also have access to Student Collaboration Labs where technology is available for individual and group work. Near Pod and Google Classroom, web-based teaching tools, are allowing our students to more effectively learn how to engage in one-to-one instruction using their note book computers and a classroom projection screen connected to a computer. At this time, we have concluded that Near Pod and Google Classroom are sufficient for teaching our students one-to-one instructional strategies because our students learn the strategies to use in a one-to-one classroom and can apply these strategies across a variety of learning management systems. Beginning in 19/20, our undergraduate students all began completing a course in the assessment of learning (EDU 299) taught by our director of field placement. This course will enhance student ability to use technology for the purposes of assessment and research. Graduate students also cover similar content in a graduate level technology course (EDU 601) and in a graduate level assessment and research strategies course (EDU 572, EDU 575). This has continued through the 2020-21 school year, and will

continue into the foreseeable future.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Creighton University is located in the heart of Omaha near one of the inner city areas. Students in initial certification programs are placed in field experience settings that include schools with high levels of free and reduced lunch students, English language learners, and racially/ethnically diverse populations. Jesuit charisms (values) that emphasize social justice and service are highlighted in content and field experiences as an important aspect of developing dispositions for teachers, in addition to the rigorous expectations of knowledge and pedagogy. We are currently developing a teacher residency model program at the secondary level in order to provide a more effective program that is also affordable for teacher candidates. As we have been developing our new teacher residency program, we have evaluated and enhanced our curriculum. We are adding new curriculum threads in culturally responsive teaching, trauma informed instruction, ESL, and teacher ethics. We have developed a process for tracking lognitudinal data that will allow us to more easily store, access, and analyze information on our teacher candidates and program completers. These data sources serve to inform ongoing and continous program improvement efforts.
