

Harvest of the Month

# BEEF

## WE'RE BEEFY! -

Cattle outnumber humans nearly 4 to 1 in Nebraska, it's no wonder Nebraska is called the "Beef State."

## DID YOU KNOW -

The top breeds raised for beef production in the United States include Black Angus, Red Angus, Charolais, Hereford, Simmental, and Texas Longhorn Cattle.

## FUN FACT -

Cattle literally bite off more than they can chew! In a process called rumination, cattle take big bites of food then swallow without much chewing, store in their esophagus, and later regurgitate back into their mouth.
