Feb 8th, 3:45 pm - 5:15 pm (CT)
4:45 pm - 6:15 pm (ET)

This session, conducted by Carlos Mercado, Senior Account Executive at Language Testing International, will explore the many ways the ACTFL Assessment of Performance toward Proficiency in Languages (AAPPL) helps language programs set tangible goals for students, including the attainment of the Seal of Biliteracy. This online assessment is available in 11 languages and provides measurements across all language skills, is easily administered, and produces results that can be compared across classes, schools, and districts. Its granular ratings scale documents movement towards higher levels of proficiency. This session will present the advanced features, easy administration, and powerful data reporting of the AAPPL. Participants will learn all about the AAPPL, including administration and reporting and have a chance to ask questions.
