GENERAL INSTRUCTIONS

This instruction manual describes the data elements collected by the Nebraska P-20 Data System via the Postsecondary Data Manager. Valid values and data validation rules that can be performed prior to data submission are listed where appropriate.

See

APPENDIX B – File Layouts for field types and field lengths.

Scope

All undergraduate students enrolled in courses for credit at the institution during the 2023 school year (Academic Year Ending 2023) are reported. Academic Year Ending 2023 will span July 1, 2022 through June 30, 2023.

Only institutions that are required to report data pursuant to the Carl D. Perkins Career and Technical Education Act need to submit the "Perkins Students" and "Perkins Courses" files. Other institutions should not submit these two files.

Data Element Names

The following syntax is used throughout this document when referencing data elements.

Format: * NDE Field Name [File Specification:Field Name(Field Number)]

Where:

- An asterisk (*) indicates the data element is a key field. A value must be supplied in all key fields for each record or the data loading process will reject the record.
- **NDE Field Name** represents the name of the data element commonly used by the Nebraska Department of Education (NDE).
- **File Specification** indicates the formal name of the file specification.
- **Field Name** indicates the formal name of the field within the file specification.
- **Field Number** indicates the position of the field within the file specification.

Example: * Institution Code [Postsecondary Enrollment:Institution Code (1)] indicates a key field referenced at NDE as "Institution Code" that is the first field on the Postsecondary Enrollment file specification with a field name of "Institution Code."

Academic Year Ending

June 30 is used throughout the system as the logical representation of a school year. However, postsecondary data will be organized by academic year using Academic Year Ending. Since this document applies to the 2023 academic year, the Academic Year Ending field will simply read: "2023".

The term can be from a year prior to the current Academic Year Ending (3), however it must be one of the values that were previously specified via the Postsecondary Terms collection in the Consolidated Data Collection (CDC) system available on the NDE Portal (<http://portal.education.ne.gov>). This is a key field; a value must be supplied for each record or the data loading process will reject the record.

* **CIP Code [Postsecondary Perkins Courses: CIP Code (6)]**

Provide the six-digit CIP (Classification of Instructional Programs) code in the format ##.#### that identifies the primary instructional program specialty to which this course belongs. Refer to IPEDS reporting requirements or NDE's P-20 Data Systems website for a list of valid 2020 format CIP codes. Only CIP Codes that are linked to a CTE Career Cluster area will be counted in Perkins reporting, refer to [Appendix D](#) for a table of CIP Code prefixes cross-referenced with CTE Career Clusters.

*** Postsecondary Course Code [Postsecondary Perkins Courses:Postsecondary Course Code (7)]**

Provide the institution's own unique alphanumeric course identifier (up to 20 characters). This is a key field; a value must be supplied for each record or the data loading process will reject the record.

Course Name [Postsecondary Perkins Courses:Course Name (8)]

Provide the institution's own course name specific to the identified course (up to 1000 characters), to be used in reviewing data submissions. This field is optional and can be left blank.

Course Credit Hours [Postsecondary Perkins Courses:Course Credit Hours (9)]

Provide a decimal indicating the number of credit hours earned for completing the specified course in the format `#.##`. Provide "0.0" for a course that does not offer credit.

Course Weight/REU Factor [Postsecondary Perkins Courses:Course Weight REU Factor (10)]

Provide a decimal indicating the course weighting used for this course as detailed by the Nebraska Community College State Aid Enrollment FTE/REU Guidelines document, in the format `##`. It is expected that a Career & Technical Education course used in Perkins reporting has a weight of 1.5 or 2.0.

Course Grade Points [Postsecondary Perkins Courses:Course Grade Points (11)]

Provide a decimal indicating the number of grade points the specified student earned for completing this course in the format `###`. Use a 4-point scale, where an "A" grade would be 4.0 while a "D" would be 1.0, and an "F" would be 0.0. A Pass/No Pass course may be reported with a blank in this field; do not submit "0.0" for these courses, as it will negatively affect GPA calculations.

Under the 2020 version of the CIP codes the cross reference is produced at the specific CIP code level, so the reference document has been shared in a separate Excel document here: https://www.education.ne.gov/wp-content/uploads/2022/04/CIP_2020_CareerCluster_CrossReference.xlsx

APPENDIX E – Non-Traditional Gender Career Cluster Reference
