Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

- [Program Completer](#)

Enrollment and Program Completers

2021-22 Total	
Total Number of Individuals Enrolled	96
Subset of Program Completers	40

Gender	Total Enrolled	Subset of Program Completers
Male	31	11
Female	65	29
Non-Binary/Other	0	0
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers
American Indian or Alaska Native	0	0
Asian	2	1
Black or African American	0	0
Hispanic/Latino of any race	1	1
Native Hawaiian or Other Pacific Islander	0	0
White	84	31

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	4	2
No Race/Ethnicity Reported	5	5

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- Academic Major

THIS PAGE INCLUDES:

>> Teachers Prepared by Subject Area

>> Teachers Prepared by Academic Major

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. (§205(b)(1)(H))

What are CIP Codes?

☐

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(\\$205\(a\)\(1\)\(A\)\(iii\); \\$206\(b\)\)](#)

Program Assurances

Note: This section is preloaded from the prior year’s IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

☒ Yes

☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

☒ Yes

☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

☒ Yes

☐ No

☐ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

☒ Yes

☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

☒ Yes

☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

☒ Yes

☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

☒ Yes

☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

Provide multiple opportunities for students to observe and engage with diverse populations of students; and to observe quality cooperating teachers in those populations. Design of programmatic data collection and evaluations based on state measures and standards. This includes, keeping current with changes at the local, state and national levels.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

Report Progress on Last Year’s Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

All 2021-22 data will be reviewed by the Education Department faculty and content area department chairs at a minimum of 2x during the academic year to provide input on any program changes needed.

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

The Education Department reviewed the progress of our preservice teachers during department meetings and during a progress monitoring meeting. Colleagues from the Math Department were included in the progress monitoring meeting to help identify strengths and recommend improvements.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We learned that communication of student-teacher assessment metrics needed improvement. We learned that progress monitoring sessions during the mid-year aided with improving coordination between the Math Department and the Education Department with supporting students.

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in mathematics in 2022-23? If no, leave the next question blank.

- ☐ Yes
☒ No

8. Describe your goal.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in mathematics in 2023-24? If no, leave the next question blank.

- ☒ Yes
☐ No

10. Describe your goal.

Data for 2023-24 will be reviewed for current math students by the Education Department and the Math Department and will inform support for preservice teachers pursuing mathematics endorsements.

Annual Goals: Science

The Education Department reviewed the progress of our preservice teachers during department meetings and during a progress monitoring meeting. Colleagues from the Science Department were included in the progress monitoring meeting to help identify strengths and recommend improvements.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We learned that communication of student-teacher assessment metrics needed improvement. We learned that progress monitoring sessions during the mid-year aided with improving coordination between the Science Department and Education Department with supporting students.

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in science in 2022-23? If no, leave the next question blank.

- ☒ Yes
☐ No

8. Describe your goal.

All data from 2022-23 will be reviewed by the Education Department faculty and content area department chairs at minimum of 2x during the academic year to provide input on any program changes needed.

☐ No

10. Describe your goal.

Data for 2023-24 will be reviewed for current science students by the Education Department and the Science Department and will inform support for preservice teachers pursuing science endorsements.

Annual Goals: Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

☒ Yes

☐ No

b. use technology effectively to collect data to improve teaching and learning

☒ Yes

☐ No

c. use technology effectively to manage data to improve teaching and learning

☒ Yes

☐ No

d. use technology effectively to analyze data to improve teaching and learning

☒ Yes

☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Knowledge and use of technology is well-integrated into the Nebraska Wesleyan University education curriculum. Students are required to take Instructional Technology course EDUC/SPED 2870, where students learn how to use internet-based technologies including but not limited to interactive grading/presentation applications, cloud-based storage platforms, online survey and assessment applications, databases, video, and audio recording technologies. In addition to this course, students learn to collect, manage, and assess data in their methods courses, using a variety of assessment tools. In several education courses, students are required to submit materials using Canvas, a document and data management system. These methods courses sometimes use Chromebooks, as we are trying to simulate the 1:1 environment student might encounter in nearby schools. Technology is not viewed as a stand-alone entity. Rather, we are modeling the full integration of technology as an everyday tool and resource. In relation to data management, our department is constructing collection, storage and analysis systems using Google applications. Digitation is being used to develop data collection methods for the student teaching evaluations and student e-portfolios.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Students at Nebraska Wesleyan University have many opportunities to exhibit competence in their abilities to work with diverse populations, including students with exceptionalities. These opportunities reflect the department's mission, which is to prepare successful, culturally proficient educators. In elementary math, literacy methods courses and secondary methods, students receive instruction on research-based methods of pedagogy that work for all students, but that are particularly effective for students with exceptionalities.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

SPED 2070 and 3070 courses (Human Differences and Secondary Methods in Special Education) are introductory courses that introduce students to the Individuals with Disabilities Education Act (IDEA) and the categorical verifications under IDEA guidelines. Students receive instruction on teaching strategies for inclusive classrooms, individual education plans, and Rule 51 guidelines in Nebraska.

c. Effectively teach students who are limited English proficient.

In several of the special education courses there are conversations about strategies that work for students who have limited English skills and students with language processing issues, as some of these strategies overlap. Our students participate in field experiences and practicums in inclusive classrooms. All education students take EDUC 2850 (Education in a Pluralistic Society), a course that addresses diversity and cultural proficiency in the classroom and community while examining equity issues faced by all peoples. In relation to special education and the law, Nebraska Wesleyan University students learn basic information in course EDUC 1010 (Introduction to Education in the United States) and learn to implement instruction and meet students' needs in our methods courses.

2. Does your program prepare special education teachers?

- ☒ Yes
- ☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

In elementary math and literacy methods courses, students receive instruction on research-based methods of pedagogy that work for all students but that are particularly effective for students with exceptionalities including direct instruction, cooperative learning, and cognitive strategy instruction.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities*

Education Act.

SPED 2070 and 3070 courses (Understanding Human Differences and Methods of Teaching Secondary Students with Disabilities) are introductory courses that introduce students to individual education plans. In relation to special education and the law, Nebraska Wesleyan University students learn basic information in course EDUC 1010 (Introduction to Education in the United States) and learn to implement instruction and meet students' needs in our methods courses. Special Education majors learn to write individual education plans in accordance with current law in Sped. 3570 (Legal Issues in Special Education).

c. Effectively teach students who are limited English proficient.

In some of the special education courses there are conversations about strategies that work for students who have limited English skills and students with language processing issues, as some of these strategies overlap. Our students participate in in-field experiences and practicum in inclusive classrooms. All education students take course EDUC 2850 (Education in a Pluralistic Society), a course that addresses diversity in the classroom and community and that examines equity issues faced by people with exceptionalities.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

Benchmarks/Gateways: Students may apply for acceptance to the Teacher Education Program in their EDUC 1010 course, or any time after. Transfer students may apply for their second semester on campus provided they transfer in the appropriate courses and meet GPA requirements. To be accepted into the Teacher Education Program, students must earn at least a 3.0 GPA, receive candidacy support of 3 faculty members, and meet the moral turpitude standards described by the Nebraska State Board of Education (Gateway 1). To achieve student teacher status (Gateway 2), students must earn a 3.0 GPA in their major, along with a 3.0 GPA overall, as well as complete all their education courses. Secondary education students must also have completed at least 75% of the coursework in their subject major. All students must provide documentation of at least 100 hours of working with young people in various school settings. Field and Clinical Experience: Students interested in teaching careers enroll in course EDUC 1010 (Introduction to Education in the United States) typically during their first year so that they have a better basis for making the decision to teach. Students enrolling in course EDUC 1010 are asked to enroll in course EDUC 1750 (Field Experience) so that they have practical experience from which they can make informed decisions about joining the teaching profession. Subsequent practicum experiences are linked to required courses, most typically methods courses, and students have specific expectations for the type of interaction required with K-12 students.
