2. What is the minimum GPA required for admission into the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.75

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.75

4. Please provide any additional information about the information provided above:

Undergraduate students at the University of Nebraska at Omaha who wish to become certified to teach must be formally admitted through a two-step application process to the educator preparation program in the College of Education, Health, and Human Sciences: initial application and formal admission. The following academic requirements must be met for an initial application to educator preparation: 1) meet the assured admission requirements for admission to the University of Nebraska at Omaha 2) complete the Fundamental Academic Skills requirements of the University Core Curriculum (ENGL 1150, ENGL 1160, CMST 1100 OR CMST 2120, and MATH/ STEM 1120 OR MATH 1130 OR MATH 1300 OR MATH 1530, OR STAT 1100, or math proficiency) 3) submit an initial application to the Educator Preparation Program (NOTE: applications are accepted three times per academic year: March 1, June 1, and October 1). Candidates who submit an initial application must attend a required orientation. 4) complete TED 2100: Foundations of Education and TED 2200: Human Relations with a grade of C or higher (NOTE: students may submit an application to educator preparation in the semester in which they take TED 2100 and TED 2200. However, their application will not be accepted until these courses are passed with a grade of C or better) 5) have a cumulative grade point average of 2.5 or higher for coursework in the University of Nebraska system The following academic requirements must be met for formal admission into educator preparation: 6) TED 2300: Human Growth and Learning or TED 2380: Development in Adolescence and TED 2400: Planning for Effective Teaching with a grade of C or better 7) have a cumulative grade point average of 2.75 or higher for coursework in the University of Nebraska system 8) attempt all sections of the Praxis I-Core Academic Skills for Educators test Students who submit an initial application to educator preparation but who do not meet formal admission requirements will not be permitted to continue in the educator preparation course sequence until all formal admission requirements have been met.

Postgraduate Requirements

Note: This section is preloaded from the prior year's IPRC.

1. Are there initial teacher certification programs at the postgraduate level?

☒ Yes
 ☐ No

If yes, for each element listed below, indicate if it is required for admission into or exit from any of your teacher preparation program(s) at the postgraduate level. If no, leave the table below blank (or [clear responses already entered](#)) then click save at the bottom of the page.

Element	Admission	Completion

2. What is the minimum GPA required for admission into the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

2.75

3. What is the minimum GPA required for completing the program? (Leave blank if you indicated that a minimum GPA is not required in the table above.)

3

4. Please provide any additional information about the information provided above:

Students participate in the Teacher Academy Project (TAP). TAP is a collaborative program between the teacher preparation institution and local school districts to prepare individuals who have an undergraduate degree in high-need content/subject areas as secondary level (7-12) teachers and a minimum 3.0 undergraduate GPA. The program leads to initial teacher certification. UNO also has an Accelerated Certification for Teachers (ACT) program at the elementary level. These individuals must have a bachelor's degree from an accredited institution and a minimum 2.75 undergraduate GPA.

Supervised Clinical Experience

Note: The clinical experience requirements in this section are preloaded from the prior year's IPRC. Teacher preparation providers will enter the number of participants each year.

Provide the following information about supervised clinical experience in 2021-22. ([§205\(a\)\(1\)\(C\)\(iii\)](#), [§205\(a\)\(1\)\(C\)\(iv\)](#))

Are there programs with student teaching models?

☒ Yes

☐ No

If yes, provide the next two responses. If no, leave them blank.

Programs with student teaching models (most traditional programs)	
Number of clock hours of supervised clinical experience required prior to student teaching	<input type="text" value="150"/>
Number of clock hours required for student teaching	<input type="text" value="640"/>

Are there programs in which candidates are the teacher of record?

☐ Yes

☒ No

If yes, provide the next two responses. If no, leave them blank.

Programs in which candidates are the teacher of record in a classroom during the program (many alternative programs)	
Number of clock hours of supervised clinical experience required prior to teaching as the teacher of record in a classroom	<input type="text"/>
<u>Years</u> required of teaching as the teacher of record in a classroom	<input type="text"/>

All Programs	
Number of full-time equivalent faculty supervising clinical experience during this academic year (IHE staff) Optional tool for automatically calculating full-time equivalent faculty in the system	<input type="text" value="4"/>
Number of adjunct faculty supervising clinical experience during this academic year (IHE staff)	<input type="text" value="32"/>
Number of cooperating teachers/K-12 staff supervising clinical experience during this academic year	<input type="text" value="257"/>
Number of students in supervised clinical experience during this academic year	<input type="text" value="215"/>

Please provide any additional information about or descriptions of the supervised clinical experiences:

1. The Nebraska Department of Education requires a minimum of 100 hours of field experiences (practicum) prior to clinical practice. All UNO programs meet or exceed this minimum. On average, candidates complete a sequence of four practicums averaging 150 clock hours. 2. The Nebraska Department of Education requirement is that all candidates must complete a minimum of 14 weeks (560 hours); however, candidates in the UNO educator preparation program complete a minimum of 16 weeks (640 hours) of clinical experience. 3. Each semester, Team Development is held for teacher candidates, cooperating teachers, and university supervisors participating in the clinical experience. This workshop includes training in the InTASC standards, the collaborative clinical practice model, and clinical practice key assessments.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

(§205(a)(1)(C)(ii))

THIS PAGE INCLUDES:

>> [Enrollment and Program Completers](#)

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Enrolled Student](#)
- [Program Completer](#)

Enrollment and Program Completers

2021-22 Total	
Total Number of Individuals Enrolled	616
Subset of Program Completers	210

Gender	Total Enrolled	Subset of Program Completers
Male	167	52
Female	449	158
Non-Binary/Other	0	0
No Gender Reported	0	0
Race/Ethnicity	Total Enrolled	Subset of Program Completers
American Indian or Alaska Native	0	0
Asian	7	3
Black or African American	17	5
Hispanic/Latino of any race	67	22
Native Hawaiian or Other Pacific Islander	0	0
White	480	162

Race/Ethnicity	Total Enrolled	Subset of Program Completers
Two or more races	33	12
No Race/Ethnicity Reported	12	6

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

THIS PAGE INCLUDES:

>> [Teachers Prepared by Subject Area](#)

>> [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

Please provide the number of teachers prepared by subject area for academic year 2021-22.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. [\(§205\(b\)\(1\)\(H\)\)](#)

What are CIP Codes?

☐

No teachers prepared in academic year 2021-22

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2021-22. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

What are CIP Codes?

Does this teacher preparation provider grant degrees upon completion of its programs?

☒ Yes

☐ No

☐ No teachers prepared in academic year 2021-22

If this provider does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or [clear responses already entered](#)).

Respond to the following assurances. Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(\\$205\(a\)\(1\)\(A\)\(iii\); \\$206\(b\)\)](#)

Program Assurances

Note: This section is preloaded from the prior year’s IPRC.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

☒ Yes

☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

☒ Yes

☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

☒ Yes

☐ No

☐ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

☒ Yes

☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

☒ Yes

☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

☒ Yes

☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

☒ Yes

☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

1) In response to needs of the local educational agencies based on past hiring and recruitment needs: a. The College of Education, Health, and Human Sciences’ partnership with the Metropolitan Omaha Education Consortium (MOEC) is a model in collaboration between the college, the twelve metropolitan area school districts, two educational service units, and one community college. The consortium is a catalyst for identifying priority issues common to member organizations and addressing these issues through joint task forces and projects. b. The College uses task forces, committees, and advisory groups to collect data about our graduates from school districts in the service area (MOEC, Office of STEM Education, Literacy, Career Advancement and Development for Recruits and Experienced teachers (CADRE) Associates, K-12 stakeholders, and Special Education Advisory). c. Special programs are offered to meet specific needs of surrounding districts (Teacher Academy Project (TAP); Accelerated Certification for Teachers

(ACT); CADRE, Career Ladders, etc.). In these programs, districts choose the candidates and areas of certification to meet the needs of the hiring district. d. Field experiences in professional sequence courses and methods courses occur in local schools and respond to the needs of the PK-12 teachers and students. e. Feedback received through MOEC, CEHHS and Teacher Education Department (TED) Data Events, various committees, and evaluations given to cooperating teachers guide program improvement. f. The Nebraska Department of Education conducts first- and third-year teacher surveys as well as principals of first- and third-year teachers to ascertain program graduates' strengths and areas of improvement. 2) In response to prospective special education teachers being prepared in core academic subjects and to instruct in core subjects: a) All special education candidates complete the general academic requirements of the university in English and Writing, Mathematics, Public Speaking, Humanities and Fine Arts, Social Sciences, Diversity (U.S. and global), and Natural and Physical Sciences. b) Dual endorsement special educational candidates (special education and elementary education or a secondary education content area) complete clinical practice experiences in both settings. c) All dual endorsement special education candidates are required to pass a standardized exam (Praxis Content Exam) which provides a measure of content knowledge in core subject (elementary candidates) or a specific content area (secondary candidates) in addition to their completion of the special education Praxis Content examination. d) All special education candidates complete the course SPED 4710 Interactions that has a focus on co-teaching and collaboration to prepare candidates for collaborating in core subjects. 3) In response to prospective general education teachers are prepared to provide instruction to students with disabilities: All initial certification candidates in elementary and secondary education complete the following program requirements: a. TED 2300: Human Growth and Learning (Early Childhood and Elementary candidates) or TED 2380 Development in Adolescence (Middle Level and Secondary candidates) which include observations with an emphasis on the differentiation of instruction. b. SPED 3800: Differentiation and Inclusion addresses the historical and legal context of special education, covers both high and low-incidence disabilities, individual education programs, and introduces the universal design for learning model. c. Advanced (50-hour practicum experience) and Final Practicum (60-hour practicum experience) in which candidates' understanding of learner development and learner differences and how these impact teaching and learning are assessed. In addition: a) The Department of Special Education and Communication Disorders has a faculty member with a specific focus on early childhood special education. The position allows the college to support both early childhood and special education as well as facilitate communication and share expertise between the Department of Special Education and Communication Disorders and the Teacher Education Department. b) The Educator Preparation Program uses a co-teaching clinical practice model. As a result, all candidates receive instruction and opportunities to apply the co-teaching strategies that are widely used to support the inclusive education of students with disabilities in PK-12 settings. 4) In response to prospective general education teachers are prepared to provide instruction to limited English proficient students: Differentiation of instruction is emphasized in all elementary and secondary professional coursework to include instruction in working with children with limited English proficiency. Several program courses specifically address this assurance. a) In the elementary program, all candidates complete TED 3550: Teaching and Assessing Reading in Elementary Schools. This course includes consideration of emergent and content area literacy and incorporates the linguistic needs and cultures of students. Candidates are also required to take TED 4350: Teaching of Reading and Language Arts. In this course, candidates implement appropriate strategies and assessments in a practicum experience that demonstrate knowledge and dispositions appropriate for teaching reading and language arts to students based on individual linguistic needs. b) In the secondary program, all candidates complete TED 3690: Applying Reading/Writing across the Content Area which includes an emphasis on providing instruction of PK-12 students with limited English proficiency. Candidates also complete TED 4000: Special Methods in the Content Area (Science, Language Arts, Mathematics, Social Studies, Business, Library Science, and World Languages) in which they learn content-specific strategies which can support students with limited English proficiency. Both courses require a field experience in which candidates in all secondary content areas apply reading, vocabulary, and writing strategies for diverse learners. 5) In response to prospective general education teachers are prepared to provide instruction to students from low-income families: A close working relationship with area metropolitan schools provides field experience opportunities for candidates to apply instructional strategies in PK-12 settings with high percentages of students from low-income families. During field experiences, instructional coaches provide on-site, individual guidance for candidates. This coaching intentionally guides candidates to recognize the importance of culturally relevant teaching as it relates to students from low-income families. 6) In response to prospective teachers being prepared to effectively teach in urban schools: a) Our metropolitan university mission provides the basis for the alignment of field experiences and service-learning in our metropolitan schools and within our community. b) Strong relationships with school partners and multiple field experiences in urban settings are strengths of our program. c) TED 2400: Planning for Effective Teaching requires a Culture Walk, where urban issues related to individual communities are introduced. Candidates complete the co-requisite practicum experience in a large urban school district. The Teacher Education Department provides on-site instructional coaching to directly support candidates in their preparation to effectively teach in urban school settings. d) All special education and general education candidates complete a 60-hour field experience placement in an urban school setting

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

- [Quantifiable Goals](#)

Report Progress on Last Year’s Goal (2021-22)

1. Did your program prepare teachers in mathematics in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

During 2021-2022, we planned to prepare 8 teachers in mathematics.

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

During 2021-2022, 9 mathematics teachers were prepared. We continue to market our programs and unique scholarship opportunities including NoyceMath Internships and Scholarships. This includes active and personal recruitment strategies starting in Human Relations courses at UNO and pipeline courses in Metropolitan Community College Math courses. We have created materials, broadened our scope by joining with STEM TRAIL Center marketing and communications, and participated in MOEC Math initiatives to get the word out about our programs. As a team, advisors from the Math and Teacher Education departments, along with faculty from both units, have met quarterly to discuss curriculum alignment, non-traditional student paths and program implementation, and ways to integrate students into programs with attention to time and credit hours. Over the last year, we have also been intentional about representation at recruitment activities such as the Educators Rising Conference, Futures Fair, OPS Academy Pathway Open Houses, and local STEM nights/Curriculum Nights.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

One major lesson learned from our collaborative meetings with advisors and faculty from both Math and Teacher Education has been increased attention to similar, but distinctive majors (Math with endorsement in Secondary Education, Secondary Ed with endorsement in Math, and dual major). We have engaged new faculty in these conversations in the last two years to clarify what relevance of coursework and also overlapping opportunities to advocate for student opportunities. We have learned that many of our stakeholders are dedicated to maintaining high expectations while also considering the student experience and need for their future workplace. In terms of recruitment, we are still not seeing many majors transitioning from math to dual majors in mathematics and education. Most of the movement is supporting education majors to consider the dual major due to the thoughtful alignment of the additional courses. We will continue to work on recruitment strategies from more STEM majors (e.g., engineering).

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in mathematics in 2022-23? If no, leave the next question blank.

- ☒ Yes
☐ No

8. Describe your goal.

The program plans to prepare 8 mathematics teachers. In addition to continuing our prior efforts for expanding the mathematics teacher preparation pathways at UNO and its related collaborations with the community, we also seek next year to: 1) re-engage students who may have exited/taking breaks from their programs in the past two years due to the pandemic and other life challenges, 2) continue to fund learning assistantship opportunities with the Quantitative Reasoning Team comprised of 10 mathematics teacher educators, 3) Connect undergraduate students with teachers involved in the MOEC Math Instructional Leadership Collaborative as the pilot for an intentional mentorship model for access to evidence and equity based mathematics teaching and learning practices, and 4) provide more student leadership opportunities on outreach events and online activities.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in mathematics in 2023-24? If no, leave the next question blank.

- ☒ Yes
☐ No

10. Describe your goal.

The program plans to prepare 10 mathematics teachers.

Annual Goals: Science

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Note: Last year’s goal and the current year’s goal are preloaded from the prior year’s IPRC.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Quantifiable Goals](#)

THIS PAGE INCLUDES:

- >> [Report Progress on Last Year’s Goal \(2021-22\)](#)
- >> [Review Current Year’s Goal \(2022-23\)](#)
- >> [Set Next Year’s Goal \(2023-24\)](#)

Report Progress on Last Year’s Goal (2021-22)

1. Did your program prepare teachers in science in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

During 2021-2022, we planned to prepare 8 teachers in science.

3. Did your program meet the goal?

- ☒ Yes
- ☐ No

4. Description of strategies used to achieve goal, if applicable:

During 2021-2022, 16 science teachers were prepared. We increased collaboration and advising between TED, Physics, Biology, Chemistry, and Geography/Geology Departments. We also expanded the recruitment of future science teachers by offering TED 2800: Experiments/Engineering Design as a general education class to undecided majors. This hands-on learning class includes high altitude balloon launch that allows students to develop their own experiments.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

We would like to offer more sections of TED 2800: Experiments/Engineering Design in the upcoming year, adding a section in spring 2023 to continue to recruit students to science related fields.

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in science in 2022-23? If no, leave the next question blank.

- ☒ Yes
☐ No

8. Describe your goal.

The program plans to prepare 12 teachers in science. In addition to continuing our prior efforts for expanding the science teacher preparation pathways at UNO and the related collaborations across campus and with the community, we also seek next year to: 1) expand pivoting to more hybrid and online learning coursework options, 2) integrating more technology-based and computer science experiences such as with computer programming, sensors, scientific equipment, etc., 3) providing more student leadership opportunities, and especially in leading informal science activities in the area schools, and 4) expanding and deepening opportunities for candidates to work with experienced science faculty (university and high school) to deepen their understanding of scientific research practices, so as to be able to bring those experiences into their own classrooms. During 2022-23, we plan to prepare 12 teachers in science.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in science in 2023-24? If no, leave the next question blank.

- ☒ Yes
☐ No

10. Describe your goal.

The program plans to prepare 12 science teachers. We would like to offer more sections of TED 2800: Experiments/Engineering Design in the upcoming year, adding a section in spring 2024 to continue to recruit students to science related fields.

Annual Goals: Special Education

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

[\(§205\(a\)\(1\) \(A\)\(i\), §205\(a\)\(1\)\(A\)\(ii\), §206\(a\)\)](#)

Report Progress on Last Year’s Goal (2021-22)

1. Did your program prepare teachers in special education in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

The program’s annual goal was to prepare 25 special education teachers for the 2021-2022 academic year. Programs that result in special education preparation include Early Childhood Inclusive, Special Education, and Deaf/Hard of Hearing.

3. Did your program meet the goal?

- ☐ Yes
- ☒ No

4. Description of strategies used to achieve goal, if applicable:

This past year had a lower number due to the impacts of the pandemic and the number of credits our students took during that time period.

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

Continuing to teach multiple sections of SPED 1500: Intro to Special Education each semester has allowed us to reach individuals and help them understand the career paths available for someone adding special education certification. Also, we conducted a survey of our students in Intro to Special Education to help us understand why an individual would or would not pursue a career in special education.

6. Provide any additional comments, exceptions and explanations below:

Review Current Year's Goal (2022-23)

- [Quantifiable Goals](#)

Report Progress on Last Year’s Goal (2021-22)

1. Did your program prepare teachers in instruction of limited English proficient students in 2021-22?

If no, leave remaining questions for 2021-22 blank (or [clear responses already entered](#)).

- ☒ Yes
- ☐ No

2. Describe your goal.

The goal was to prepare 25 teachers in instruction of limited English proficient students. and 22 teachers were prepared (K-6 = 15; 7-12 = 7).

3. Did your program meet the goal?

- ☐ Yes
- ☒ No

4. Description of strategies used to achieve goal, if applicable:

The goal was to prepare 25 teachers in instruction of limited English proficient students, and 22 teachers were prepared (K-6 = 15; 7-12 = 7).

5. Description of steps to improve performance in meeting goal or lessons learned in meeting goal, if applicable:

The program has implemented the following strategies: TED 2050: Introduction to Teaching ESL - Includes a service-learning component with families from the Learning Community of South Omaha. The majority of the parents are also learning English and/or have children that are ELs. TED 3050: Foundations of ESL (Elementary and Secondary sections) - We have Practicum partnerships with Omaha Public Schools in schools with over 50% ELs and in Dual Language classrooms. TED 4000: Special Methods: ESL - Practicum partnerships have expanded into multiple districts around the

metropolitan area (Bellevue Public Schools, Millard Public Schools, , Papillion-LaVista Public Schools, Omaha Public Schools, Ralston Public Schools, and Westside Community Schools). In this practicum, teacher candidates work with ESL endorsed teachers. Teacher candidates participate in the following ESL program models: push-in, pull-out, sheltered instruction, and a newcomer center. TED 2060: Equity, Language, and Cultural Literacy, due to the increased enrollment of this course, three sections are offered in the spring semester.

6. Provide any additional comments, exceptions and explanations below:

- All courses are being redesigned to include linguistically and culturally relevant teaching to ensure asset based perspectives for ELs/Multilingual Learners.
- A new full time faculty member was hired in the fall of 2022 to support the growing ESL and Bilingual Education programs.

Review Current Year's Goal (2022-23)

7. Is your program preparing teachers in instruction of limited English proficient students in 2022-23? If no, leave the next question blank.

- ☒ Yes
- ☐ No

8. Describe your goal.

The program plans to prepare 18 teachers in instruction of limited English proficient students.

Set Next Year's Goal (2023-24)

9. Will your program prepare teachers in instruction of limited English proficient students in 2023-24? If no, leave the next question blank.

- ☒ Yes
- ☐ No

10. Describe your goal.

The program plans to prepare 18 teachers in instruction of limited English proficient students. The ESL faculty will continue to collaborate with other content area faculty members.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Summary Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

Low-Performing

Provide the following information about the approval or accreditation of your teacher preparation program. ([§205\(a\)\(1\)\(D\)](#), [§205\(a\)\(1\)\(E\)](#))

Note: This section is preloaded from the prior year’s IPRC.

THIS PAGE INCLUDES:

>> [Low-Performing](#)

Low-Performing

1. Is your teacher preparation program currently approved or accredited?

- ☒ Yes
- ☐ No

If yes, please specify the organization(s) that approved or accredited your program:

- ☒ State
- ☐ CAEP
- ☒ AAQEP
- ☐ Other specify:

2. Is your teacher preparation program currently under a designation as "low-performing" by the state?

- ☐ Yes
- ☒ No

On this page, review the questions regarding your program's use of technology, and update as needed.

Note: This section is preloaded from the prior year's IPRC.

THIS PAGE INCLUDES:

>> [Use of Technology](#)

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

☒ Yes

☐ No

b. use technology effectively to collect data to improve teaching and learning

☒ Yes

☐ No

c. use technology effectively to manage data to improve teaching and learning

☒ Yes

☐ No

d. use technology effectively to analyze data to improve teaching and learning

☒ Yes

☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

The acquisition of technology skills and the use of technology as an instructional tool is an ongoing focus in educator preparation. Technology integration has been mapped throughout the program and includes a variety of tools, such as iPads, to support learning in the classrooms. 1. Technology is modeled for all candidates in their professional sequence coursework of TED 2100, 2200, 2300, and 2400 through both communication and collaboration tools. While these tools vary, (e.g., blogs, Google tools, PollEverywhere, Inspiration, Padlet, GoodReads, etc.), the purposes of meeting the needs of communication and collaboration remain the purpose of their use in training teacher candidates. 2. Each teacher candidate demonstrates how to integrate technology in planning and instruction in multiple courses and field experience requirements. This technology integration is measured and monitored during the Strategies Project key assessment during the final semester in the program. 3. All candidates are required to take TED 2400 – Planning for Effective Teaching which introduces concepts related to universal design for learning. This provides the foundation candidates needed to use technology, as well as other resources, to design instruction that addresses multiple means of representation, expression, and engagement. 4. Candidates are required to use video analysis technology to self-assess their performance and enhance their reflective practice. Video analysis also affords both instructional coaches and faculty members the opportunity to give specific feedback to candidates during field experiences. Candidates are expected to incorporate this feedback in future instruction during field experience and clinical practice. Video analysis is embedded throughout program coursework and in clinical practice. 5. Content-specific courses in the areas of mathematics, reading, and language arts evaluate and use apps specific to their pedagogies. This is also true of courses in Elementary Education, Early Childhood, and Special Education. 6. Each candidate participates in an Assessment Presentation during the clinical practice semester. In the assessment presentations, candidates use technology to

demonstrate how data from formative and summative assessment is used to improve teaching and learning. 7. The following indicator is assessed on the clinical practice assessment: "Candidate demonstrates the ability to effectively use technology to support instruction and assessment; understands ethical use of technology." 8. Candidates are adept at using Zoom and other remote learning adaptations given the pandemic history.

Provide the following information about your teacher preparation program.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

To prepare candidates to teach students with disabilities effectively the College of Education, Health and Human Sciences requires: 1) All prospective general education teacher candidates to take either SPED 1500: Introduction to Special Education and additional special education coursework (12 credit hours) for the Inclusive Practices concentration or SPED 3800: Differentiation and Inclusive Practices. These courses provide candidates with knowledge of various disabilities and strategies for working with students with disabilities and collaborating on SAT, MDT and IEP teams. 2) Methods courses require candidates to plan for differentiated instruction in all lesson plan preparation that addresses students with varying abilities (i.e., students with disabilities, students with limited English proficiency). A new lesson plan rubric is being utilized in advanced practicum courses that address differentiation as well. 3) Specific content related to dyslexia is included in SPED 1500: Introduction to Special Education, SPED 3800: Differentiation and Inclusive Practices, and SPED 4150: Reading and Writing Instruction for Students with Disabilities, so all prospective teachers will be educated on the following aspects of reading difficulties and dyslexia that includes: a) Knowledge and best practices standards for teaching reading; b) Characteristics of dyslexia and the science of dyslexia; and c) Evidence-based structured literacy interventions, classroom accommodations, and assistive technology for individuals with dyslexia. College of Education, Health and Human Sciences' faculty meet to plan for the inclusion of this content into general education literacy methods courses and discussed how the dyslexia content was incorporated into three of the special education courses.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

To participate as a member of individualized education program team: All students in the UNO educator preparation program complete SPED 1500: Introduction to Special Education and additional special education coursework for the Inclusive Practices concentration or SPED 3800: Differentiation and Inclusive Practices. In addition to the content referenced above, these courses: 1) introduce the special education referral process including SATs, MDTs, IEPs, and inclusive practices; 2) introduce concepts related to interpersonal communication skills and collaboration with families and other professionals.

c. Effectively teach students who are limited English proficient.

In order to ensure that all elementary and secondary candidates have knowledge and skills in the area of ELL, the following required courses have been modified to increase ELL instruction: TED 3350: Teaching Reading and TED 3690: Literacy and Learning. The instructors teach strategies and model instruction in the field experience for English Language Learners and how lessons can be adapted. In addition, a new course TED 2400: Planning for Effective Teaching has been created specifically to introduce ELL principles and practices early in the program so students will learn to write both language and content objectives.

2. Does your program prepare special education teachers?

☒ Yes

☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

1) The College of Education, Health and Human Sciences certifies special educators who complete a dual endorsement in a general education area (elementary or secondary content) and stand alone special education (K-6 or 7-12) or special education (K-6 or 7-12). 2) All coursework for the special education endorsement is aligned with the Council for Exceptional Children standards and meets the requirement for the Nebraska Department of Education's Special Education Generalist endorsement (K-6 or 7-12). 3) Processes, procedures, and evidence-based practices related to SATs, IEPs, and MDTs are included throughout the special education program. Candidates' depth of understanding related to individualized education program teams is strengthened as they progress through the program's coursework. This past year a new course SPED 2300: Special Education law and IEPs was incorporated into the special education sequence to focus additional time on special education law, procedural safeguards and Individualized Education Programs, so they will have a more focused time addressing IEP development and implementation. In addition, SPED 4640 focuses on the writing IEP goals in the content areas. One of the requirements in the SPED 4000 practicum course is to attend an IEP meeting with their mentor. 4) All special education candidates are required to take SPED 4710 – Interactions. In this course interpersonal communication skills are presented as the foundation necessary to build trusting and respectful relationships among school personnel, families, and community members who are members in individualized education program teams. This course also examines collaborative aspects of teaming and coteaching. 5) Each special education candidate has methods and practicum courses from the elementary or secondary program, which include methods courses that address students with limited English proficiency.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

SPED 2300: Special Education Law and IEPs focuses on the developing and writing of IEPs and conduct a mock IEP meeting. In SPED 4000 students attend an IEP meeting with their mentor teachers. SPED 4710: Interactions focuses on collaboration with other IEP team members such as family members and other K-12 professionals.

c. Effectively teach students who are limited English proficient.

Each special education candidate completes TED 2400: Planning for Effective Teaching and methods and practicum courses from the elementary or secondary program, which include methods courses that address students with limited English proficiency.

Contextual Information

On this page, review the questions regarding your program's use of technology, and update as needed.

>> [Contextual Information](#)

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The College of Education, Health, and Human Sciences (CEHHS) is one of seven colleges at the University of Nebraska at Omaha (UNO), a public institution that embraces its unique metropolitan location and mission of inspiring exemplary professionals to become Dedicated Practitioners, Reflective Scholars, and Responsible Citizens who provide leadership for positive change in 21st-century communities. UNO holds the Carnegie Class designation of Doctoral/Research University (DRU). Educator preparation programs are approved by the Nebraska Department of Education, and the UNO educator preparation program is accredited through AAQEP. Candidates who are formally admitted to the College of Education, Health, and Human Sciences' educator preparation program progress through a carefully sequenced set of courses and field experiences culminating in a semester-long, full-time clinical practice experience. Candidates must apply for and be accepted into clinical practice. The clinical practice experiences are supervised by master teachers who meet district, UNO, and state criteria for serving as cooperating teachers. University supervisors are assigned to each candidate. These supervisors make a minimum of five on-site observational visits during the clinical practice semester(s). Candidates are formally evaluated by the university supervisors and the cooperating master teachers at mid-term and end of the semester. Candidates must meet state and national standards related to professional knowledge, skills, and disposition competencies for the grade level(s) and content area(s) in which the candidate is preparing to receive certification and endorsement. Completers of the programs must pass state-selected basic skills and content exam(s) (Praxis I and Praxis II) in order to obtain certification and/or endorsement by the Nebraska Department of Education.

Supporting Files

No files have been provided.

You may upload files to be included with your report card. You should only upload PDF or Microsoft Word or Excel files. These files will be listed as links in your report card. Upload files in the order that you'd like them to appear.

Report Card Certification

Please make sure your entire report card is complete and accurate before completing this section. Once your report card is certified you will not be able to edit your data.
