VISION

To enhance the quality of life for Nebraskans through continuous research, fellowship and scholarship funding, and public service related to aeronautics, aerospace, and STEM.

WHAT WE DO

NASA Nebraska Space Grant provides funding for education, research, public service, and student fellowships enhancing aviation, aerospace, and STEM education in Nebraska. Informal Education Mini-grants are available for activities that recruit and educate students and the public outside of the formal classroom. Efforts funded through the Informal Education Mini-grant program are typically implemented in public facilities like museums and planetariums, or at events such as the Science Festival.

HOW WE PROVIDE SUPPORT

- Stepping Stars NASA-aligned curriculum that explores aerospace and space technology through biomimicry design thinking activities
- Girls in Aviation Day
- Tuskegee Airmen Outreach
- Nebraska GetConnected Afterschool Conference
- NASA Education Resources
- Informal Education Mini-grants
- NASA Nebraska Space Grant Educators News and Events Email List
- Nebraska Space Ambassador (NSA) Program
